ATTENTIONS

· We strongly recommend using the power supply provided in the box only. Do not use another power supply whose voltage is higher than 12V.

· A 12V/4A power supply was provided in the box, please make sure using the power adapter when plugged with high powered devices such as external hard drives.

· Since the USB data port is mainly for data transfer with only regular charging speed, it isn't recommended to use this hub to charge your device as the main purpose.

· Devices that do not support quick charge protocol can only perform normal charging. Please make sure your devices support quick charging protocol.

· Keep the powered USB hub away from children.

· Do not expose to liquids.

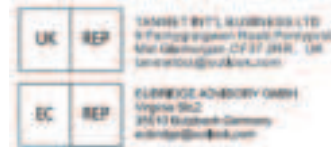

· Avoid extreme temperatures.
