**DC18RE: CXT & LXT Dual port Fast Charger

XGT is a new system with its own tools, batteries, and chargers. A combination of innovative tool design and higher output batteries provide a genuine solution for high demand industrial users.

Optimum power supply system and Optimum charging system

The XGT range of tools and batteries come with a built-in program, providing digital communication between the battery and tool. Allowing not only for the battery to talk with tool but also the tool to talk to the battery. Battery technology and motor engineering that work together for optimum performance.

Tool ↔ Battery ↔ Battery Charger
Digital communication

Built Tough

High durability specifications specially designed for 40Vmax Li-Ion batteries

40Vmax mechanism movie

This movie was filmed in Japan.
Models and specs may vary by country.

Rapid Optimum Charging System

It is necessary to cool down before start charging when the battery temperature is high.
Built-in fan circulates air through the battery before start charging and during the charging process to cool the battery for faster charge time.

The optimum charging system

Forced air cooling

Fast charging

General charging method

Natural heat dissipation

Waiting time for charging

The Makita Rapid Optimum Charger communicates with the battery's built-in chip throughout the charging process to optimize battery life by actively controlling current, voltage and temperature.

The optimum charging system

General charging method

Battery Protection Function

This function is communication technology that allows the tool and battery to monitor conditions and exchange data in real time to protect against Overload, Over-Discharge and Overheating.

Anytime Charge

No Memory Effect
No discharging required

Shock Absorbing

Heavy Duty Pack

Firm Holding

Multi-contact terminals reduce electrical resistance and increase connection stability withstanding against vibration, and ultimately ensures Stable current supply to the tool.

Portable Power Pack

PDC1200

Powered by 36V-40Vmax built-in battery
1,200 Wh high capacity
(Approx. 6 times more capacity than BL1860B x 2)

IPX4

Charger: DC4001
 Charging time: 6 hours

Height-adjustable waist belt

The position of the waist belt can be adjusted for personal fit and comfort.

Quickly removable harness

can be attached / removed from the main unit with a single action.

Reflectors

keep operator visible from a distance even in the dark.

PDC01

Powered by up to four 18V LXT batteries
432 Wh high capacity
(with 4 pcs. of BL1860B)

IPX4

PDC1200 / PDC01

Portable Power Pack

	PDC1200	PDC01
Capacity	33.5 Ah	24 / 12 Ah

Carbon brush

*These brushes make commutator smooth to reduce sparks, letting the brake system work well. Let the motor run for 10 minutes at half of the rated voltage.
