Recomandari**Recommendation****RO**

1. Inainte de prima utilizare recomandam rularea unui ciclu complet de incarcare a bateriei.
2. Pentru incarcarea bateriei puteti folosi incarcatoare 5V/1A sau 5V/2A; voltaje mai mari pot duce la defectarea castilor.
3. Daca au trecut mai mult de 3 luni de la ultima utilizare a castilor va rugam sa le incarcati inainte de folosire.
4. Daca nu folositi castile pentru o perioada mai lunga de timp recomandam rularea unui ciclu complet de incarcare a bateriei o data la 3 luni pentru conservarea acestora.

EN

1. Before the first use, we recommend running a complete battery charge cycle.
2. You can use 5V / 1A or 5V / 2A chargers to charge the battery; higher voltages can damage the headset.
3. If more than 3 months have passed since the last use of the headset, please charge the battery before use.
4. If you do not use the headset for an extended time, we recommend running a complete charge cycle of the battery every 3 months to preserve it.

FCC Statement:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This

Equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a Particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
