Recessed Downlight Installation Guide

Getting Started

Determine location and complete installation

Add your Recessed Downlight to your preferred app

Set up your voice assistant (optional)

For set up help, visit cyncsupport.gelighting.com or call 1-844-302-2943

Specifications

Model	Input Voltage (Vac, Hz)	Current (mA)	Wattage (W)
Full Color RS Can 6" CFIXRSCR6CRVDM5	120	163	14

Dimming Capability

NOT FOR USE WITH DIMMER SWITCHES.

Compatible with only CYNCR smart dimmers that provide dimming at the switch or through the CYNCR App.

Before you begin: Read these instructions completely and carefully.

⚠ WARNING: RISK OF ELECTRIC SHOCK

Risk of fire or electric shock. Install this kit **only** in luminaires that have the construction features and dimensions shown in the photographs and/or drawings and where the input rating of the retrofit kit does not exceed the input rating of the luminaire.

Do not make or alter any open holes in an enclosure of wiring or electrical components during kit installation

Let's Do It

Included:

You'll need:

Prepare Electrical Wiring

ELECTRICAL REQUIREMENTS

The LED downlights must be supplied with 120VAC 60Hz

GROUNDING INSTRUCTIONS

The grounding and bonding of the overall system shall be done in accordance with National Electric Code(NEC) Article 600 and local codes.

You Got This!

And we're here to help.
For step-by-step installation videos and a guided tour through the installation, go to:
cyncsupport.getlighting.com
or call 1-844-302-2943

BEFORE YOU DO ANYTHING: Step 1

Turn Off The Power!

Turn off power at the source to the recessed housing(s) that you are installing the source(s) in.

Step 3

Determine the Mounting Method

The Recessed Downlight is designed to install in most 6 in. and 5 in. recessed housing. Use either the torsion spring or flip clip.

1. **Housing with torsion bracket:** Use the manufacturer-installed torsion springs for installation.

Step 2

Remove Existing Trim and Bulb

Remove existing trim and bulb, revealing the housing and the existing socket inside.

Step 4

Installing the Base

1. If it's a medium base screw socket inside the housing, screw the E26 base into the existing socket first and then insert the connector into the E26 base.

2. If it's a connector inside the housing, note the connector with the terminals on the fixture directly.

Step 5

Finish Installation

1. **Housing with torsion spring:** Check that the "torsion springs" are firmly attached. Compress the torsion springs and insert into the bracket inside the housing. Release springs and gently push up until flush with the ceiling.

2. **Housing without torsion bracket:** Check that the "flip clips" are firmly attached. Center the fixture in the housing opening and gently push up until flush with the ceiling.

11.0"

11.0"

Congratulations!

You've completed the Recessed Downlight installation. **Next,** refer to the Quick Start Guide included in the package for app set up.

Matter vs. Cync App

You may set up your bulb through CYNK or Matter, but not both. To switch after setting up, you will need to reset the bulb and set up again.

NOTE: You may see a "set up using Matter" notification on your phone. To set up in the Cync App, powered by Savant, dismiss the notification.

Additional Information and Warnings

FCC Compliance Statement:

⚠ Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device must not be co-located or operating in conjunction with any other antenna or transmitter. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC RF Radiation Exposure Statement:

To maintain compliance with the FCC's RF exposure guidelines, place the product at least 20cm from nearby persons.

ISED Statement:

This device complies with RSS247 of Industry Canada. Cet appareil se conforme à RSS247 de Innovation, Sciences et Développement économique (ISDE) Canada.

This device complies with Innovation, Science and Economic Development (ISED) Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

(1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Appareils radio exempts de licence. Son fonctionnement est sujet aux deux conditions suivantes: (1) le dispositif ne doit pas produire de brouillage préjudiciable, et (2) ce dispositif doit accepter tout brouillage reçu, y compris un brouillage susceptible de provoquer un fonctionnement indésirable.

This equipment complies with ISED RSS-102 radiation exposure limits set forth for an uncontrolled environment. This transmitter must be installed to provide a separation distance of at least 20cm from all persons and must not be collocated or operating in conjunction with any other antenna or transmitter.

Cet équipement est conforme aux limites d'exposition aux rayonnements d'ISDE RSS-102 définies pour un environnement non contrôlé. Cet émetteur doit être installé pour fournir une distance de séparation d'au moins 20 cm de toutes les personnes et ne doit pas être colocalisé ou fonctionner en conjonction avec une autre antenne ou émetteur.

reveal® HD+ Full Color Recessed Downlight Quick Start Setup Guide

Welcome to Cync!

You've chosen a great product to enhance your smart home living and entertainment.

There are 3 ways to get started, which are outlined in this guide. Use the native Cync App to connect all of your Cync products and get the full range of features. Connect via Matter to streamline your smart products. Lastly, with a professionally installed Savant System, a pro can commission this Cync product in your Savant home.

Learn more about all 3, and choose which set up is right for you.

Get Started With Cync

Enable all Cync features

Install your fixtures, and power on.

Scan QR code to download the Cync app and complete set up:

Get Started With Matter

Connect with other smart products

NOTE: If you already have Cync devices in the Cync App, add your new device to the Cync App, then enable your voice assistant.

Install your fixtures, and power on.

Open your app of choice:

- Google Home
- Samsung SmartThings
- Amazon Alexa
- Apple Home

and scan the Matter QR code or enter the 11-digit code on the device sticker to complete setup.

Get Started With Savant

Professionally installed smart home

Contact a professional installer to get started.

A professionally installed smart home system unifies your connected environment into one integrated experience controlled by intuitive, award-winning software.

- Climate
- Lighting
- Entertainment
- Security
- Energy

Scan to learn more about Savant smart home and schedule a consultation. Savant integrators: scan to access setup documentation.
