

# Intelligent AI Translation Assistant Instruction Manual

Please read the instruction manual carefully  
before use to install the product correctly.

## 1 Exterior Display View

### Blue Indicator Light

Lamp Status	Hidden Meaning
Fast flash	Unpaired status
Always on	Pair again with APP on a new device without deleting the original pairing status
No light	Successfully paired with APP

## 2 Exterior Display View

### Blue Indicator Light

Open the box, check whether the device has an  
activation code, if not, please contact the dealer

### Device Pairing

Use your Android mobile phone to scan the code to  
download the Deep-T3 app and install it.

Turn on your mobile phone's Bluetooth - Open the 'Deep-T3' app and go to the  
home page - Click the '+' sign on the top bar - Click Add Device to enter the  
Bluetooth search - Search for the device called 'T3 Remote' - Click to connect - The  
blue light will turn off when the connection is successful.

**Notes :**  
1.For the first time use, please register your personal account and grant the  
necessary permissions to run the APP programme to ensure the normal use  
of the device.  
2.If the connection is not successful, please check whether the Bluetooth of  
your mobile phone has been turned on normally; whether the device is

### Device Shutdown

The device is completely dependent on the Type-C port or Lightning connector  
for power, and the device automatically shuts down after unplugging the type-c  
power cable from the device.

## 3 Function Introduction

Function Name	Functions Description	Additional Notes

**Charging port:** TYPE-C port

**Support APP:** Deep-T3 background system

**System Support:** Android

**Bluetooth:** V5.4

**Size:** 28.5\*28.5\*5mm

## 6 Precautions

### Please read all of the following precautions before using this product

1. When upgrading the unit, please do not perform any operation until the OTA upgrade is indicated to be complete, so as not to render the unit inoperable.

2. The intelligent translation function needs to be connected to the mobile phone APP, please make sure that the device and the mobile phone are properly connected and the mobile phone is in the normal network state while using.

3. When using the one-touch voice translation function, please press the button for 0.5 seconds before speaking and release the button after speaking to ensure that the entire voice is captured.

4. When using the translator, please speak coherently at a normal speed, please do not make long pauses, repeat yourself or keep repeating sentences while speaking, which may lead to inaccurate translation results.

5. When removing the device from the mobile phone, please push the device sideways and move it flat to take it off, and do not force it vertically to avoid damaging the device.

6. This device is not waterproof, please store the translator in a dry and cool environment, please do not use organic solvents and other liquids to clean this product, so as not to damage the device.

7. Please do not rely solely on the interpreter as a means of communication in emergency situations (such as medical emergencies). The translation results provided by the interpreter are for reference only and do not constitute any form of guarantee.

## 7 Common Problems

Troubleshooting Phenomenon	Troubleshooting
Translation response is too slow or never responds	·Check that the mobile phone APP is correctly connected ·Check that the mobile phone is in normal network status
Speech recognition is inaccurate	·Press and hold for 0.5 seconds before speaking and release when finished
Unable to search and connect to device	·Please check whether the Bluetooth of the mobile phone is switched on normally and whether the unit is switched on normally ·Please check the connection status of the device, whether it has been connected by other devices
Device is unresponsive or dead	·Disconnect the Bluetooth of the mobile phone, delete the APP bound to the device, reboot and connect ·Use the card pin to press and hold the device reset button for 10 seconds to force a reboot

FCC Caution: (15.19 Labeling requirements.)

This device complies with part 15 of the FCC

Rules. Operation is subject to the following two

conditions: (1) This device may not cause

harmful interference, and (2) this device must

accept any interference received, including

interference that may cause undesired operation.

Any Changes or modifications not expressly approved

by the party responsible for compliance could void the

user's authority to operate the equipment.

(15.21 Information to User)

Note: This equipment has been tested and found to

comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits

are designed to provide reasonable protection against

harmful interference in a residential installation. This

equipment generates uses and can radiate radio

frequency energy and, if not installed and used in

accordance with the instructions, may cause harmful

interference to radio communications. However, there

is no guarantee that interference will not occur in a

particular installation. If this equipment does cause

harmful interference to radio or television reception,

which can be determined by turning the equipment

off and on, the user is encouraged to try to correct the

interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning for portable device:  
The device has been evaluated to meet general RF

exposure requirement. The device can be used in portable exposure condition without restriction.
