

Technical Specifications

UM8700

Overview

In today's challenging environment, organisations need to get more work done with less resources and time. NEC's UNIVERGE UM8700 solution is built on Applied Voice and Speech Technologies, Inc.'s (AVST) award winning CallXpress®, businesses and individual users can communicate more efficiently, respond more quickly and reduce unproductive time.

The UM8700 turns a business's telephone system into a productivity tool. It delivers a powerful suite of unified communications applications including advanced call processing, voicemail, unified messaging, personal assistant, fax, speech and notification. These tools have been proven to enhance productivity of both individual users and businesses.

At a Glance
