INSTALLATION

Step 1

Remove speaker from box.

Step 2

Mount bracket to wall.

Step 3

Locate euroblock in accessory bag and connect signal wire. For daisy chaining, use “LINK” output to run to next speaker.

Step 4

Set tap switch located on back of speaker to proper setting. Tap switch is preset to highest 100V position.

Step 5

Insert euroblock into rear of speaker.

Step 6

Snap speaker onto bracket.

Step 7

To aim speaker rotate enclosure or base to achieve desired angle.
