- 4: Split Screen Mode
- 5: Albums
- 6: Photo/Video
- 7: Zoom 1x/1.5x/2x
- 8: Take a photo/video

■ NOTICE

1. Disinfect the surface of the device and adapter before contacting skin.
2. Please keep the camera clean to avoid blurry image. (Refer to maintenance for how to clean the camera).
3. Please keep a focal length of about 0.4inch~1.2inch (10mm~30mm) to achieve the best quality image (placing the scope too far from your focal point may result in blurry images).
4. The ear canal is not perfectly straight, gently adjust the position of the otoscope and gently pull the top of your ear up and back to help view your eardrum easily.

■ MAINTENANCE

To optimize the image quality and maintain personal hygiene, please following these tips to clean the camera before and after EACH use:

1. Clean the lens carefully with alcohol pads.
2. Wipe the lens grooves with an alcohol-soaked cotton swab.

This can prevent ear wax from sticking to the tip of the camera and causing blurry images. You can apply pressure when cleaning the camera to remove stubborn ear wax completely.

■ TROUBLESHOOTING

No pictures

1. Please ensure your device is iOS 9+ or Android 7+ with the function of OTG and UVC.
2. Please check if the camera light is on. If it's not, or if the interface isn't making good contact, please unplug and then plug it back in.
3. If you drop or mishandle the product during transportation or use, it may cause damage to the internal structure or poor contact. Please contact our customer service team for assistance. 877-899-8809, Mon-Fri. 8: 00-5: 00 PST

Frozen images

Your phone's battery may be low. Please keep your phone's battery level above 20%.

Blurry image

Please clean the camera before and after every use to keep the camera clean to avoid blurry images. Blurred images after a period of use is caused by the earwax on the camera lens. (In general, earwax is oily and can cause glare, and unclear image) If the earwax does not carefully wipe out, this will make it stick to the lens more firmly.

Cannot thoroughly clean the lens

Please follow the steps:

1. Clean the lens carefully with alcohol pads
2. Wipe the lens grooves with an alcohol-soaked cotton swab

■ WARRANTY

30-Day Guarantee	We will give you a full refund if you are not satisfied with the product.
One-Year Warranty	We offer a limited warranty that commences from the date of purchase of the product.
