Multiple timers

Easy to share access

No hub required

2-year warranty

Your home in **one app**

Turn any device into a smart device

The **Smart Wi-Fi® plug NHP-S612** is designed to turn your regular home appliances into smart devices. Plug it into the wall and integrate it into your existing wireless network with the Nexxt Home app.

Turn the plug on or off and schedule its operating hours as you want. Your smart plug will allow you to control a lamp, your coffee machine, a TV set and any home electric device, from anywhere. You'll be able to better control their usage time and thus save energy. In addition, you'll gain in security: turning your lights on and off will give the impression that there is always someone home, even if you are away.

Highlights

• Voice control: compatible with Amazon's Alexa, Google Assistant and Siri
• Remote management using the Nexxt Home app
• Create your own schedules
• Multiple programmable timers
• The plug interacts with other Nexxt Home smart devices
• Compact design
• No hub required
• Easy pairing
• iOS and Android™ compatible app
• Easy access sharing

NHP-S612

simple, better, **smart**

Smart Wi-Fi® single plug

Characteristics

MPN	NHP-S612

Input

Nominal voltage	100-240VAC
Frequency	50/60Hz
Max. amperage	16A max.
Max. power capacity	1850W
Surge protection rating	49 J
Wireless type	IEEE 801.11N, 2.4GHz (not compatible with 5GHz Wi-Fi networks)
AC plug type	NEMA 5-15P

Output

Nominal voltage	100-240VAC
Frequency	50/60Hz
Outlet	Universal NEMA

Physical appearance

Dimensions	2.76 x 1.8 x 1.4 in
Weight	0.13 lb.
Housing material	PC
On/Off switch	On/Off switch with LED light (Red for pairing, blue for switch on)

Environment

Working temperature	14°- 131°F
Storage temperature	-4° - 149°F
Relative humidity	Operating humidity: 20%-90% non-condensing Storage humidity: 10%-91% non-condensing

Additional information
