FEATURES & BENEFITS

COOKING FLEXIBILITY

This freestanding gas range has four functions with pre-set temperatures, including Bake, Broil and Convection Bake allowing you to use a variety of cooking styles.

SIZED TO SUIT

Designed for multi-shelf cooking, this freestanding range provides 2.5 cu ft of total capacity, enough room for a large family roast.

PRECISE CONTROL

The consistent flame and heat distribution of the gas burners combined with highly responsive dials offer precise heat control. Perfect a slow simmer for sauces or an intense heat for searing steaks.

EASY CLEANING

Cleaning is quick and simple. The cooktop is easy to clean as it is made from a single piece of stainless steel that contains spills. The oven door and its inner pane of glass can be removed for easy cleaning.

SAFE AND SOUND

The double glazed door keeps the heat on the inside, protecting your hands and surrounding cabinetry. The gas cooktops flame failure safety device automatically turns off the gas if the flame is accidentally extinguished.

COMPLEMENTARY DESIGN

With their black reflective glass and stainless steel finish, our freestanding cookers are designed to match the rest of Fisher & Paykel's kitchen appliance family.
