Optimized spectrum, 16 hr on (from mode switching time), 8 hr off

Optimized spectrum, 16 hr on (from mode switching time), 8 hr off

Optimized spectrum, 17 hr on (from mode switching time), 7 hr off

- 6** Add plant food A+B after germination, wait for the harvest come

Q & A

How much plant food should I add?

After germination, we recommend to add 12.5ml/5L plant food A and 12.5ml/5L plant food B. After real leaf comes out(about 5 days after germination), we recommend to add another 12.5ml/5L plant food A and 12.5ml/5L plant food B. No need to add more before harvest. After harvest, change water and starts again.

How does the pump work?

The pump starts working 5s after power on, with the blue indicator on, and keeps a 20min on, 20min off cycle. To manually stop, press Pump Key and the blue indicator will flash. To start the pump again, press Pump Key again .

Where can I use Awesome Plant 14 Pro?

Anywhere in room temperature, such as kitchen, living room, office and window still, no need for sun light and soil.

What can I grow with Awesome Plant 14 Pro?

Vegetables, fruits, flowers & herbs with height below 18.7".
