## Storage solution

### Care instruction

For a durable and easy care surface, treat with oil, wax, varnish, paint or stain.

### Environment

Renewable material (wood).  
Solid wood – not from intact natural forests.

We have clear requirements for all the wood we use, including a ban on illegally harvested wood. As of 2020, all our wood comes from more sustainable sources, defined as certified or recycled.

The material in this product may be recyclable. Please check the recycling rules in your community and if recycling facilities exist in your area.

### Safety

Secure It! Prevent tip-over injury. Furniture with included restraints must be secured to the wall according to the assembly instructions.

Different wall materials require different types of hardware. Use hardware (sold separately) suitable for the walls in your home.

For proper stability, complete every second section with an OBSERVATOR cross-brace.

### Good to know

Max load for IVAR shelves:

**16½" width**

11¾" depth: 40 lbs.

19¾" depth: 66 lbs.

**32¾" width**

11¾" depth: 77 lbs.

19¾" depth: 99 lbs.

By combining parts in the IVAR storage system you can put the space you have to best use. Start by thinking about your needs and your space. Then, combine different heights and depths and add the finishing touch with cabinets and doors.

Tired of boxes and things scattered all over your office? With the IVAR storage system you can quickly organize all the office supplies in the stock room, paper piles in the desk area and binders in the archive. You will be surprised at how easy it is to put everything in order.

Drill into the solid wood side units and add hooks. Paint or wax the entire shelf in a color you really like. The possibilities are many — even if the space is limited.

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

Not all products may be available in all stores. See what is available at your local store by visiting [IKEA-USA.com](http://IKEA-USA.com). For more detailed product information, see the price tag or visit [IKEA-USA.com](http://IKEA-USA.com). All products shown require assembly. All textiles shown are imported.

# How to build

Start by thinking about what you want to store and the space you have available. For the first section you need two side units, shelves and a cross-brace. Extend sideways, either at the same height or a different one. For each additional section, you need

just one side unit, which you link to the storage solution with shelves or a cabinet. To ensure stability we recommend that you fit a cross-brace to every other section.
