Variable Refrigerant Flow System  
Heat Pump Series

Cooling & Heating

# Welcome

air, it's a wonderful thing

Invisible, silent and life-giving, air makes our entire world possible. It surrounds us, continuously energising, cooling and warming. It can be unpredictable and sometimes challenging, but when air is in harmony with us, everything seems much easier.

This is our vision.  
To create the air that makes life better.

—

**air conditioning:  
an invisible performance**

Behind every outstanding performance, there are people who help run the show smoothly away from the audience's eye.

We've developed unique technologies that work behind the scenes to give you comfortable cooling.

—

Mastery behind  
the scenes

The results are not seen,  
but definitely felt.

—

## Born in Japan with a global presence

Since 1952, Hitachi's cooling and heating technology has been helping make life more harmonious for people around the world. Today, our long heritage of precise Japanese engineering ensures that no detail is overlooked in our quest to create Living Harmony.

**Technology of the  
future with expertise  
from the past.**

**Japanese Technology,  
designed for India.**

**24 factories  
around the world.**

—

## air to unlock new perspectives

“At Hitachi, we understand the power of ‘air’, and what it can do to elevate the environment of one’s home and businesses. With our unparalleled Japanese heritage, we are constantly evolving and innovating to create cutting-edge products that make the best use of air enabling you to be the **air Xperts**. We understand the power of collaboration and treasure your trust in us to handle your end-to-end project requirements, from specialized solutions, advisory and installation to lifetime maintenance. With us, you can leave worry at the door.”

# **SET FREE**

Study room	Floor/Ceiling convertible	2.0
Dining room	Hi wall	1.0
Living room	4 way cassette	2.5
<b>Total # of Indoor Units</b>	<b>6</b>	<b>11.5</b>
<b>Total # of Outdoor Units</b>	<b>(1 x 6.0 HP) + (1x 4.0 HP)</b>	<b>10.0</b>

Note: airCloud Pro, a wifi enabled centralized control of air conditioning system is recommended as an option.  
 \*We recommend to use two SET FREE mini ODU for optimum power consumption at partial load.

SET FREE mini

# X PANDABLE

## Your space with SET FREE mini

- Exceeds expectations with Xpandable *Outdoor Unit range*
- Compact Outdoor Unit solution which Xpands your *space*
- Xpandable *working temperature range* - air for every season
- Xpandable *external static pressure*

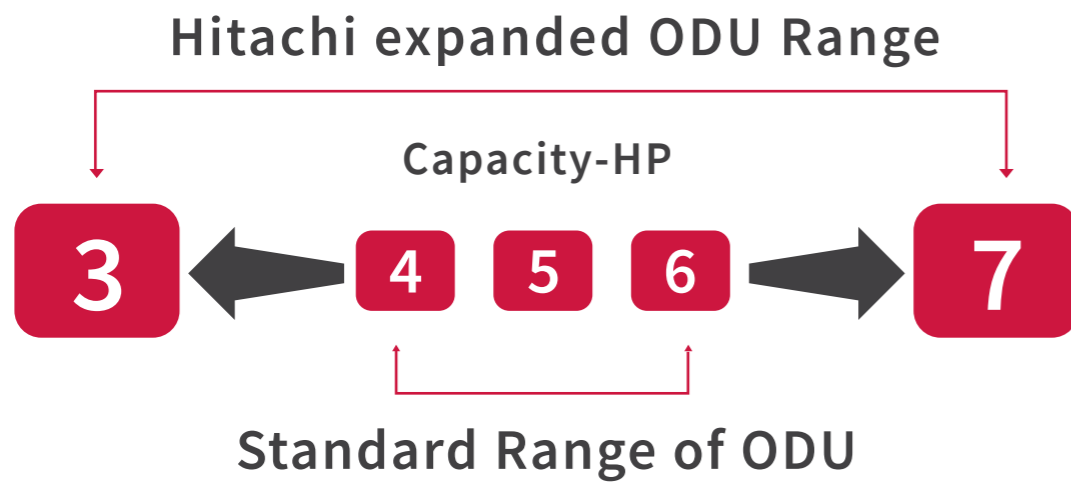

- Indulge in the art of choosing with Xpandable *style of Indoor Units*
- Xpanded *Indoor Unit capacity* meets all your needs
- Xpandable *connectivity* of Indoor Units with a single Outdoor Unit
- Xpanded *Indoor Unit diversity* with single Outdoor Unit on the basis of the usage pattern and heat load

- Choice of smart controllers

## Xpandable Outdoor Unit range

SET FREE mini Outdoor Unit starts from 3 HP and expands up to 7 HP to cater to all your premium space requirements and medium sized space requirements. It sets you free from the multiple piping around the house and connects many indoor units to just one outdoor for that neat installation and perfect air conditioning experience.

## Xpand your space

Conventional ODU

SET FREE mini ODU

SET FREE mini outdoor unit with its compact size yet powerful capacity allows you to replace the multiple connection of one to one split outdoor with a single SET FREE mini Outdoor Unit and offers you the freedom to explore your creativity and decor without space constraints.

## air for every season

Xpandable working temperature range

SET FREE mini with its unique 3-Row Coil\* design and larger area of the coil enhances heating capability as low as -20°C ambient condition for colder regions.

SET FREE mini with its special fresh air intake and Trapezoid Heat Sink design adopted for inverter driver, improves heat emission and allows the system to run stably under high ambient conditions up to 52°C.

## Xpandable external static pressure

The high external static pressure of condenser fan up to 30 Pa overcomes resistance of hot air path and avoids hot air short circuit conditions. This helps the SET FREE mini outdoor unit to run in good ventilation conditions with better efficiency.

SET FREE mini

\*3-row coil design available in 5, 6 & 7 HP

# The art of choosing

Xpandable Indoor Unit styles

1 way cassette

2 way Cassette

4 way cassette

Hi Wall

In-the-ceiling

Floor/Ceiling convertible

Now, get more creative with your space and choose Indoor Unit from our wide basket that covers your application requirement more than traditional Hi-wall and In-the-ceiling type of Indoor Units. Choose from a range of Cassette, Hi wall, In-the-ceiling and Floor/Ceiling convertible that enhances your interior collection.

# Indoor Unit capacity that Xpands across all your needs

In-the-ceiling (Duct type)

Capacity in HP

SET FREE mini

## Xpanding connectivity

Now, it's easy to create an artistic presence with multiple Indoor Units connected to just a single Outdoor Unit. Flexibility to connect with multiple Indoor Units ranging from 2 to 10 units with a single Outdoor Unit.

\*Range of connectivity varies from model to model.

## Xpanding diversity for desired comfort

SET FREE mini can connect from 50% to 130% of the Indoor Unit capacity against the outdoor capacity on the basis of usage pattern, ambient temperature and indoor conditions. This can help you in connecting more air conditioning space with less number of Outdoor Units.

\*Image is shown just for representation purpose only. The diversity varies from Indoor Unit model to model and its capacity.

## Choice of smart controllers

**airCloud Pro**

Smart wifi enabled controller with advanced features giving power in your hand. Control and monitor your AC from anywhere anytime.

**Wireless remote control**

One touch handy operation to have access from anywhere in the room.

**Touch screen wired control**

Elegant design, perfect for premium residences thanks to the ultra clear touchscreen display.

**Advanced wired remote control**

LED backlight LCD remote that is equipped with smart functions that makes it perfect to control AC.

**Central Station mini**

Compact touch screen panel is a centralized controller that gives you access to control up to 160 indoor unit functions.

Leading with innovative technologies

## Stepless compressor control

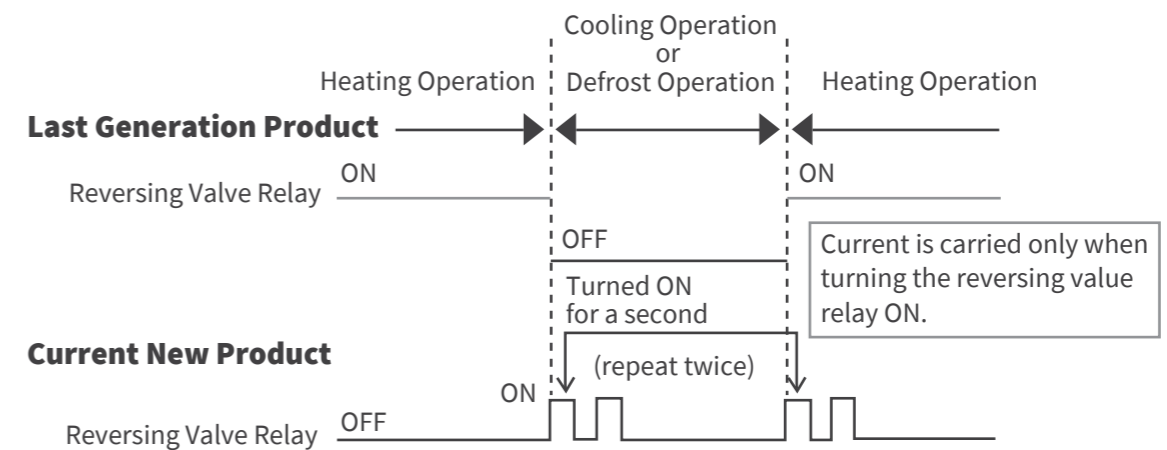

- Hitachi's intellectual Compressor Driver technology makes the compressor more efficient with compressor frequency accuracy to  $\pm 0.1$  Hz.
- The high efficiency Twin Rotary Compressors comes with rare earth magnets that enhances its efficiency
- Hitachi compressors uses step less frequency conversion that adapts to the customer demand and makes room temperature more comfortable with lesser power consumption
- The compressor is equipped with broad operating frequency of 15~120 Hz, to keep it stable even when load is low and eliminate frequent start up/ shutdown
- The more frequency provides faster refrigerating and heating function

## Single control PCB design

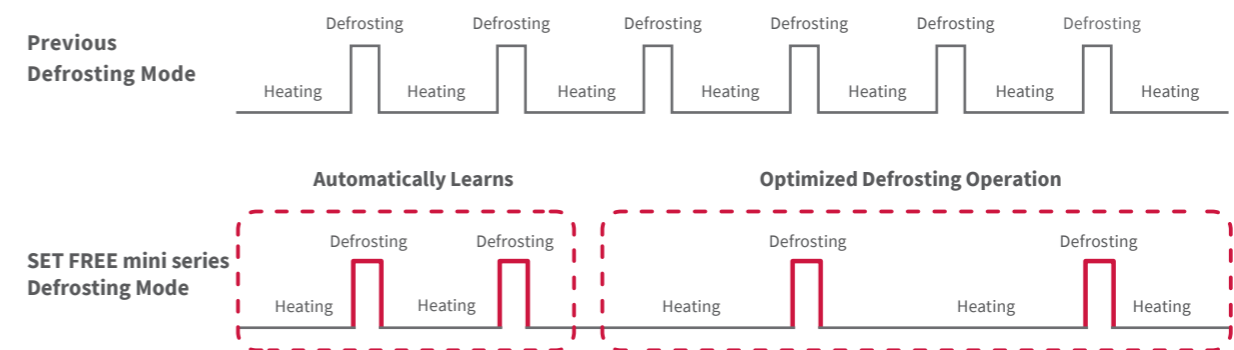

- Low standby power consumption design, which decreases the standby consumption from 20W to lower than 5W compared to last generation product
- Single Control Chip Design, it drives the power factor correction, compressor and fan motors by one chip, which can realize the rapid response and high reliability

## Lower power consumption

The new type self-holding 4-way reversing valve, which will not switch on constantly to consume power, is adopted. It only works in several seconds when the operation mode is changed, so it can save the energy and make the system more reliable.

## Smart defrosting

Frost on the Outdoor Unit's Heat Exchanger reduces heating capability. Defrosting is, therefore, essential, although there is no heating for room in a defrosting operation. Intelligent Defrosting technology automatically learns the operating date of the previous defrosting cycle and detects power data of the fan motor. From this data it determines the optimal operation of the next defrosting cycle, thereby helping to reduce the frequency of defrosting while enhancing the comfort level and heating capacity.

## The beauty of silence

### Capacity priority mode (standard)

The system will be run as per capacity requirement; meanwhile both compressor and fan speed will be adjusted to lower the noise.

### Low noise mode (optional)

- 3 Noise level options to choose from
- Noise can be reduced from 1 to 4 dB depending upon the level chosen
- Compressor speed is forcibly reduced irrespective of the ambient temperature

Note: The cooling and heating capacity may drop to 80%, 70% or 60% under each level in low noise setting mode.

### Silent night mode (optional)

With optional night mode Setting, when ambient temperature is 86° F (30° C) or below in a cooling operation, rotation speed of the compressor and the outdoor fan will be automatically reduced. The noise could be decreased by 3~10 dB comparing to the normal operation.

Note: Night mode is recommended when cooling capacity has sufficient margin compared to cooling load or operation sound should be reduced at night time.

### SET FREE mini utilizes 10 advanced technologies in the Outdoor Unit that makes it an exceptionally silent machine:

- (1) Low noise DC inverter compressor
- (2) Low noise fan
- (3) BLDC fan motor
- (4) Anti vibration piping design
- (5) 20 mm compressor insulation cotton
- (6) Special design fan grille
- (7) Anti vibration pad for compressor
- (8) Sound insulation of sheet metal
- (9) Anti vibration pad of fan motor
- (10) Package type fan guide

## Refrigerant cooled PCB

- Improved reliability of the units running at elevated temperatures
- Heat dissipation of compressor driving module is performed via refrigerant instead of air cooling
- 10% average temperature drop of the module
- Ensures efficient operation even in extreme conditions

SET FREE mini

## H-Link II

H-link II network system requires only two transmission wires to connect with each Outdoor/ Indoor Units for up to 64 refrigerant cycles.

- Flexible installation options with no polarity requirements
- Central controller connection is enabled via Indoor or Outdoor Unit flexibly
- Up to 160 Indoor Units can be connected.
- Possible to have a cable length of up to 1,000 m

— H-LINK II  
— Remote Control Cable

## Piping flexibility

Longer and more flexible piping has been realized. This helps in dealing with various piping restrictions.

### Maximum piping length

	3.0 HP	4.0 HP	5.0 HP	6.0 HP	7.0 HP
<b>Total piping length</b>	≤ 30m	≤ 40m	≤ 70m	≤ 70m	≤ 120m
<b>1. Between Outdoor Unit and farthest Indoor Unit</b>	≤ 25m	≤ 25m	≤ 60m	≤ 60m	≤ 75m
<b>2. Between 1st branch multi kit and farthest Indoor Unit</b>	≤ 20m	≤ 20m	≤ 30m	≤ 30m	≤ 30m

### Maximum level difference

	3.0 HP	4.0 HP	5.0 HP	6.0 HP	7.0 HP	
<b>3. Between Outdoor Unit and Indoor Units</b>	<b>ODU above IDU</b>	≤ 20m	≤ 20m	≤ 30m	≤ 30m	≤ 30m
	<b>IDU above ODU</b>	≤ 20m	≤ 20m	≤ 20m	≤ 20m	≤ 30m
<b>4. Between Indoor Units</b>	≤ 3.5m	≤ 3.5m	≤ 10m	≤ 10m	≤ 10m	

Note: The Model of E-102SNK branch pipe is used for the RAS-3.0~7.0HNSKQ Outdoor Units. Each maximum length or level difference has several conditions, please refer to the technical documents for inquiry.

## Ease of installation

Stop valve built with 4-directional outlet piping for easier pipe installation. The refrigerant pipes can connect the stop valves from the front and right, rear and bottom of the unit.

## 7-segment displays

The user-friendly Service Board is equipped with dial code switch and push button. The service board is in front of the Outdoor Unit control which makes it convenient for setting.

The display has various functions such as:

- Monitor the real-time running status
- Display the fault code for diagnostic
- Check the historical fault information
- Optimize control parameters based on the installation field condition

Therefore, quick and accurate diagnosing is available at the site during the test run or normal operation.

### Notes:

1. The cooling and heating performances are the values when combined with our test Indoor Units.

#### Cooling Operation Conditions:

Indoor Air Inlet Temperature: 27°C DB 19°C WB  
 Outdoor Air Inlet Temperature: 35°C DB  
 Piping Length: 10 Meters  
 Pipe Lift: 0 Meter

#### Heating Operation Conditions:

Indoor Air Inlet Temperature: 20°C DB  
 Outdoor Air Inlet Temperature: 7°C DB 6°C WB  
 Piping Length: 10 Meters  
 Pipe Lift: 0 Meter

2. Noise test conditions are specified below:

Noise is tested 1.5m above ground level and 1m away from the surface of the external service board on the Outdoor Unit. Noise parameters are tested in a semi-anechoic chamber.

# Indoor life

SET FREE mini offers a variety of Indoor Units in its portfolio to achieve comfortable air conditioning that flexibly addresses various applications and shapes of space. By raising the "quality" of the air, we believe that the "quality" of time customers spend there will also be enhanced.

# Key information

## Ceiling Cassette

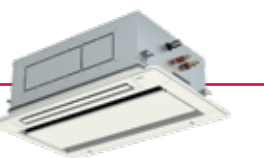

**4 way cassette**

- Individual 4 way louver
- Motion Sensor technology (optional)
- Higher ceiling installation (up to 5.5m in cooling mode)

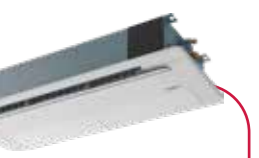

**4 way compact cassette**

- Compact grid 600X600mm
- Quieter operation (as low as 24.5 dB(A))
- Higher ceiling installation (up to 4.6m in cooling mode)

**2 way cassette**

- Individual louver option
- Motion Sensor technology (optional)
- Higher ceiling installation (up to 4.6 m in cooling mode)

**1 way cassette**

- Compact size: Height- 192 mm & Depth - 470 mm
- Quiet operation (as low as 27 dB(A))
- Max. drainage height up to 1200 mm

## In-The-Ceiling & Concealed

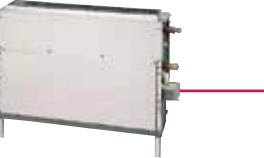

**In-the-ceiling**

- Ease of installation with 192 mm height
- Compact width starting from 700 mm

**In-the-ceiling (Duct type)**

- Broad range of ESP up to 50 Pa with long and short duct variants.
- Ease of installation and flexible duct connection
- Higher CFM
- Flexible mirror installation for hotel application

**Floor concealed**

- Compact height up to 620 mm
- Can be hidden away without ceiling void

## Exposed

**Floor/Ceiling convertible**

- Easy installation
- It can be mounted on floor or suspended in ceiling as per the choice and space availability.

**Hi wall**

- iClean+ technology
- Motion Sensor technology
- Wide range of capacity from 0.8 HP to 4 HP

# 4 way cassette

1.0-2.5 HP

3.0-6.0 HP

## Motion Sensor technology

Motion Sensor technology comes with the ability to ensure you get equal attention for equal cooling comfort and enjoy higher energy savings. It identifies the number of people and directs airflow as per the requirement. In case of human absence, the sensor automatically switches the AC off, reducing wastage of energy.

\* Motion Sensor detecting area dimension  
 7.0m = 1.0-3.0FSKDNQ  
 8.8m = 4.0-6.0FSKDNQ  
 \* Motion Sensor is an optional feature (PS-MSK2) with use of Advanced Wired Controller (PC-ARF/PC-ARF1)

## Individual 4 way louver control

Have control of the airflow with 4 way individual louver. It's louver can be adjusted as per the requirement in each zone and the wastage of air to a dead zone can also be avoided.

\* This feature is compatible with wired remote controller (PC-ARF/PC-ARF1/HCWA10NEGQ)

## Engineered for high ceiling space

Hitachi's Cassette AC are engineered to place at higher ceiling space such as car showroom space, banquets, and more.

\* Air flow rate: Hi2  
 \* 4.0-6.0 FSKDNQ

## Standard drain pump with 850 mm lift

## Direct attachment of round-ducts available

## Easy fine-tune for installment height

# 4 way compact cassette

1.0~2.5 HP

## Stylishly modern

## Compact design

## Engineered for high ceiling space

Hitachi's Compact Cassette AC are engineered to place at higher ceiling space such as car showroom space, banquets, and more. It comes with standard drain pump of 850 mm lift.

\* Air flow rate: Hi2  
\* 2.0-2.5 FSN4

## Antibacterial drain pan

Adopting new antibacterial agent of drain pan for cleaner air and ease of maintenance.

## Silent operation

IDU Capacity HP(Class)	1	1.5	2	2.5
Sound pressure level (dB(A))	24.5	27.5	31	35

\*Air flow rate: Low

# 2 way cassette

## Motion Sensor technology

Motion Sensor technology comes with the ability to ensure you get equal attention for equal cooling comfort and enjoy higher energy savings. It identifies the number of people and directs airflow as per the requirement. In case of human absence, the sensor automatically switches the AC off, reducing wastage of energy.

\*Motion Sensor is an optional feature (SOR-NED) with use of advanced wired controller (PC-ARF/ PC-ARF1)

## Engineered for high ceiling space

Hitachi's 2 Way Cassette AC is engineered to place at higher ceiling space such as car showroom space, banquets, and more. It comes with standard drain pump with 850 mm lift.

\* Air flow rate: Hi2  
\* 2.0-6.0 FSN3

## Individual louver control

Have control of the airflow with Individual louver. Its louver can be adjusted as per the requirement in each zone and the wastage of air to a dead zone can also be avoided.

## Easy fine-tune for installment height

# 1 way cassette

1.0-1.6 HP

2.0-2.5 HP

## 3D air flow

3 directional air flow with broad air deflector design to have adjustable wind direction as per your need for a comfortable environment.

## Sleek and compact design

## Standard drain pump

Standard equipped drain pump with maximum drainage height up to 1200 mm

## Silent operation

IDU capacity HP(Class)	1	1.3	1.6	2	2.5
Sound pressure level (dB(A))	27	28	30	31	32

\*Air flow rate: Low

## Adjustable air speed

Adoption of the efficient DC motor and the optimized duct design assure the smooth air flow.

## Fresh air provision (Optional)

The unit can introduce fresh air from the external environment. With the filter facility, the air quality is guaranteed.

## In-the-ceiling

**Drain-up mechanism as standard part**  
Drain-up lift achieves 900mm, which enables convenient drain piping and increases the flexibility of installation.

### Space saving installation

192 mm in height, low height residential ceilings pose no problem in installation. Low width starting of 700 mm makes this model suitable for installation in limited spaces in hotels.

\*For 1 HP model

### Designed for customised installations

The air inlet is available as rear or bottom entry, which gives the consumers the option to choose relevant air inlet mode according to the practical installation space.

(Installation Diagram of Air Bottom Inlet)

## In-the-ceiling (Duct type)

### Broad range of external static pressure

At 20-50 pa, installation options comes in both long duct and short duct variants.

### Flexibility in installation

Flexible installation with both LHS and RHS installation provisions. Suitable for any mirror application installation in hotels, villas, etc. (available in 1.0, 1.5, & 2.0 HP models)

### Connect multiple rooms

Flexibility to connect multiple rooms with single IDU when there is lesser space available.

## Floor concealed

### Design flexibility

- Blends unobtrusively with any interior décor, only the suction and discharge grilles are visible
- Its low height (only 620 mm) enables the unit to fit perfectly beneath a window
- Requires little installation space thanks to its slim 202 mm depth

## Floor/Ceiling convertible

### Installation on floor or ceiling

- When performance and practicality are a priority, convertible units are a functional solution
- Suitable for creating a calming and comfortable atmosphere in small to medium-sized spaces
- Each unit can be floor mounted or ceiling suspended
- Installation is simple and straightforward

# Hi wall

## iClean+ technology

The revolutionary Auto Filter Cleaning technology in Hitachi Air Conditioners cleans the stainless steel coated filter of the AC automatically every 12 hours of cumulative running. The auto cleaning brush moves twice over the dust catcher to increase dust transfer capacity and ensures filter becomes dust free. Thus, the air coming from the AC is always clean and fresh.

### Benefits

#### Ever efficient

#### Ever powerful

#### Ever clean

Dust on filter after a few days

\*Available in Hi-Wall iClean+ unit only

## Motion Sensor technology

Motion Sensor technology comes with the ability to ensure you get equal attention for equal cooling comfort and enjoy higher energy savings. It identifies the number of people and directs airflow as per the requirement. In case of human absence, the sensor automatically switches the AC off, reducing wastage of energy. Motion Sensor technology is available in RPK-FSNK1/2

### Motion Sensor Technology to achieve better energy saving

Notes for RPFC-FSNQ, RPIZ-HNATNQ, RPK-FSNK2/FSNK1/FSN4M & RPIL-FSNK/FSNK3:  
 The sound pressure level is based on following conditions:

\*3. 1.5 meters beneath the unit. \*4. 1 meter from the unit & 1 meter from the floor level.  
 The data's mentioned in the table was measured in an anechoic chamber so that reflected sound should be taken into consideration in the field.  
 \*5 When bottom air inlet is adopted, sound pressure will increase according to factors such as installation mode & the room structure.  
 \*6 The data for external pressure indicates standard pressure setting values when air filter is not used.  
 \*7. More Models RPIL1.0FSNK4, RPIL1.5FSNK4, RPL2.0FSNK4 are available with left hand side installation provision.

### Notes for RPFI-FSNQ:

**\*1 & \*2. The cooling and heating capacities shown in the table are based on following conditions:**

Cooling Operation Conditions: Indoor Air Inlet Temperature: 27° C DB, 19° C WB. Outdoor Air Inlet Temperature: 35° C DB.

Heating Operation Conditions: Indoor Air Inlet Temperature: 20° C DB. Outdoor Air Inlet Temperature: 7° C DB, 6° C WB.

Piping Length: 7.5 meters. Piping Lift: 0 meter.

**\*3. The sound pressure level is based on following conditions:**

1.5 meters from the unit and 1.5 meters from floor level. The data's mentioned in the table was measured in an anechoic chamber so that reflected sound should be taken into consideration in the field.

## Control systems

Whether you are at work or play, SET FREE mini allows you to have control over your living environment. By providing control systems that are easy to understand and use, we enable you to easily and accurately achieve optimal air conditioning management in a whole range of living spaces.

# Central Station mini For small-scale buildings

## PSC-A32MN

Most compact in our Touch Panel Centralized Controller. Its down-to-detail control functionalities, such as Weekly Scheduling, Accumulated Work Hours, etc., helps you save energy. Up to 32 remote-controlled groups and up to 160 Indoor Units can be connected to a single air-conditioning system.

### Capacity

RC group	32
Group	32
Block	4 Patterns (2/4/8/16)
Indoor Unit	160
Outdoor Unit	64
Building Scale	Small

### Specifications

Rated Power Supply	1-, AC 100-240V, 50/60Hz
Electrical Power Consumption	20W (Max.)
Communication Unit	Units of Adopting for H-LINK
Communication Line	Non-polar 2-wire
Communication Speed	9,600bps
Wiring Length	1,000m (Total Length)
Display	5.0-inch Wide Color LCD (Full Dot)
Display Control	Touch Panel

### Functions

<b>Monitor Function</b>	<ul style="list-style-type: none"> <li>Run/Stop/Abnormality</li> <li>Setting Temperature</li> <li>RCS Operation Prohibited Setting</li> <li>Accumulated Operating Time</li> <li>Operation Mode</li> <li>Setting Fan Speed</li> <li>Setting Louver</li> <li>Filter Sign</li> <li>Alarm Code</li> </ul>
<b>Control Function</b>	<ul style="list-style-type: none"> <li>Run/Stop*</li> <li>Fan Speed</li> <li>Operation Mode</li> <li>Louver</li> <li>Temperature Setting</li> <li>RCS Operation Prohibited</li> <li>Filter Sign Reset</li> </ul>

\*: "All Groups Run/Stop" command signal exception function for selected groups is available by "Exception of Run/Stop Operation." function.

### Recommended facilities

### Example of system configuration

# airCloud Pro

## Control is in your hands

### New IoT VRF management

24/7 control at your fingertips on smartphone, tablet, or PC

### Intuitive simplicity

airCloud Pro is designed to make your job easier. An intuitive app that anyone can use, airCloud Pro makes managing your air conditioning systems simpler than ever before.

### Control from anywhere

Enjoy the freedom of remote access from your smartphone, tablet or laptop. airCloud Pro allows you to remotely control your VRF system(s) from a single app, saving you travel time.

### Ideal for

### Is airCloud Pro for me?

#### All VRF users can enjoy these benefits

- Save energy
- Save time and unnecessary transportation
- Delegate administrators of VRF systems
- Create a comfortable climate for guests

### Future-proof

With updates and new features added regularly, airCloud Pro ensures you are always up to date.

Compatible with new and previous Hitachi Variable Refrigerant Flow systems<sup>1</sup>

✓ For stand-alone and multi-site applications

Download today

www.aircloudapp.com

Cooling & Heating

# airCloud Pro Pilot

## A simple yet powerful tool

### Simplify your job

The Pilot app makes managing your VRF systems easy.

#### Centralized control

Control your entire VRF system or selected zones with one touch.

#### Simplified troubleshooting

A clear error history, concise error description and follow-up.

#### Smartphone alerts<sup>2</sup>

In the event of a critical malfunction.

#### Flexible user management<sup>2</sup>

Add users and custom access restrictions.

# 1

### Save more energy

#### Intuitive scheduling

Plan operations ahead based on your business hours.

#### Individual controller lock

Prevent inappropriate usage from occupants.

# 2

### Create better comfort

Adjust **temperature, fan speed and modes** with ease, creating total comfort and the ideal climate throughout your building.

An **integrated weather forecast<sup>2</sup>** display helps you determine the most suitable conditions for your indoor spaces all year round.

# 3

### Easy plug-and-play

Our airCloud Gateway makes installation easy.

Connect to the airCloud via **3G/4G<sup>3</sup> or Ethernet** and pair your VRF systems via QR code scan. With **automatic detection of Indoor Units** and an optimized **Installer View**, configuring your site and zones has never been quicker.

# 4

### + Data security

- **Best-in-class standards:** TLS.v1.2, HTTPS 2038 encryption
- **Minimal personal details:** only your name, email address and phone number are required for login

Specifications €€	HC-IOT GW
Dimensions (W*H*D) (mm)	138*200*41
Net Weight (g)	540
Connection Capacity	16 outdoor + 80 indoor units
Power Supply (V)   (Hz)	100-240, AC   50/60
Max. Power Consumption (W)	10
Communication Port	1 H-LINK, 1 RS485 Port
Internet Connection	LAN (Ethernet) or 4G <sup>3</sup>
External Interface (log storage)	1 micro SD card slot

Description	4-way cassette	4-way cassette compact	2-way cassette	Floor/Ceiling convertible	In-the-ceiling	Floor concealed	Hi wall
IDU type							
Model	RCI-FSKDNQ	RCIM-FSN4	RCD-FSN3	RPFC-FSNQ*	RPIZ-HNATNQ RPIL-FSNK RPIM-FSNK	RPFI-FSNQ	RPK-FSNK1/2 RPK-FSN4M
Compatible wireless remote controller	PC-AWR	PC-LH3C					

\* Wireless remote controller is provided as standard item for RPFC-FSNQ models.  
 Centralized controller (mini) cannot be operated when you use standard receiver kit (PC-RLH11) equipped with wireless remote controller (PC-LH3C).  
 Notes:-  
 When you use standard receiver kit (PC-RLH11 or HR4A10NEWQ) equipped with wireless remote controller (PC-LH3C):  
 1) Setting Hi2 air flow rate is not available even if the connected Indoor Unit has Hi2 air flow rate setting.  
 2) It is not available to set up "remote control switch operation prohibited by each function setting" from central station (mini).  
 3) It is not available to set up "remote control switch temperature setting range limitation function" from central station (mini).
