Applications:

Studio Vocals, Speech, Instruments, Podcasts, Desktop Recording

Please read the manual carefully before using and keep it for further reference.

Features:

- Dynamic microphone element designed for vocals and instruments
- Cardioid pick-up pattern isolates the main sound source and minimizes background noise
- Smooth, extended frequency response is excellent for singing, speech and instruments
- Built in pop filter minimizes "P-popping"
- On-Off switch for instant mute
- Ten-foot USB cable for flexible mic placement
- Desktop mic stand included

Specs: u1
