		Press & hold "+ / -" for 2 seconds to skip / replay track

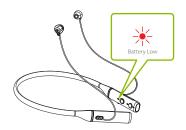

LED Indicators

No.	Indicator & Voice Prompt Status	
A	Solid red	Charging
	Red flash every 5 seconds	Low battery
	Solid blue	Power on
	Solid red for 1 second then off	Power off
В	Alternate red & blue flashes, "PAIRING" voice indicator	Pairing
	LED off, "CONNECTED" voice indicator	Connected
	Solid blue	Disconnected
	Blue flash every 5 seconds	Out of range

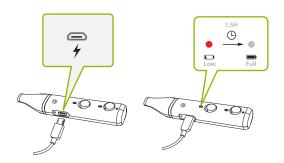

Charging the Earbuds

The earbuds' LED will flash red every 5 seconds to indicate low battery.

Plug the provided micro USB charging cable into the charging port, then connect the other end to a 5V/500mA-2A rated USB adapter (your phone charger or similar should work) or PC USB port.

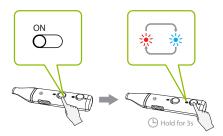

Solid red lights on the earbuds indicate that charging is in progress; once the lights turn off, your earbuds will be at full battery.

Connecting the Earbuds to Your Device

STEP 1

Turn on the earbuds. For first time use, the earbuds will enter PAIRING mode automatically.

If not, put your earbuds into PAIRING mode by pressing & holding the PAIR button until the LED flashes red & blue alternately.

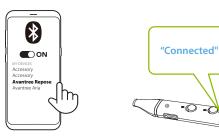

STEP 2

Turn on your device's Bluetooth and select "Avantree Repose" in the Bluetooth menu.

STEP 3

Keep the earbuds close to your device and wait for 5-10 seconds or until they connect. Once they're successfully connected, the earbuds' LED indicator will turn off.

For subsequent use, your earbuds should automatically reconnect to the last-paired device within a few seconds of being turned on. If not, you can manually activate reconnection by tapping the PAIR button once, or by selecting "Avantree Repose" in your device's Bluetooth menu.

NOTE: You'll need to adjust the volume on both the earbuds & your phone to reach the lowest volume levels.

Specifications

Bluetooth version	v5.0
Audio codec support	FastStream, SBC
Supported profiles	HSP v1.2, HFP v1.6, AVRCP v1.4, A2DP v1.2
Operating range	Up to 30ft / 10m
Playtime	Up to 18hrs
Max volume	96 dB
Charging time	~1.5hrs
Drivers	6mm
Impedance	16Ω
Frequency response	20Hz - 20KHz
Power port	Micro USB
Power supply	5V/500mA-2A rated USB charger
Weight	29g

FAQ

Below are some of the most common questions people have during setup.

What's the best way to take care of & maintain upkeep for my earbuds?

Regularly cleaning your earbuds before and after use not only protects them from potential damage, but also helps eliminate sound muffling issues. You can use dry cotton swabs or similar to gently wipe dust, earwax, and oil from the earbud tips on a regular basis in order to maintain upkeep.

Can I replace the earbud tips?

Unfortunately, no. The Repose is designed with smaller-than-average earbud tips that are optimized for sleeping comfort, so the tips are not replaceable. You can return your Repose within 60 days of purchase for a full refund as long as nothing has been damaged or broken. Please contact us at support@avantree.com to initiate this process, and feel free to check out NB18 & NB16 to see if they'd better suit your needs!

Can I connect the earbuds to my TV?

You can technically connect your Repose directly to a smart TV via the TV's built-in Bluetooth, but doing so will result in significant audio delays. In order to utilize the Repose's FastStream codec for no lip-sync delays, you'll need to pair with a transmitter that also supports FastStream, such as the Avantree Orbit or Audikast.

You can find a full FAQ list at avantree.com/support/repose, or contact us directly for additional assistance.
