Part 3

Register and update

Q: When should I update my scanner?

A: Generally, the scanner could be used directly. It's recommended to update your scanner only when the following situations occur: it fails to work on your car, it's slow to load all menus or if you need newer software version.

How to start registration and update?

(only computer with windows 7, 8 and 10 are supported. **Mac or ios is not supported.**)

Part 4

FAQs

- 1、 Q: If it can not work on my vehicle, how can I get tech support?**

A: Please reach us at the first time. Our engineer will offer tech support to solve your problem. Fast response will be given within 24 hours. We'll definitely offer you a satisfactory solution.
(amazonsupport@foxwelltech.com)

- ## 2、Q: What should I do if there are some scratches on the screen?

A: There is a tightly-fitting screen protector on your machine. If any scratches are found, just tear off the screen protector from the upper left or upper right corner.

- 3、 Q: If I receive used or defective machine, what shall I do?**

A: All our products are sent to FBA center as brand new through the strict security check by Amazon. But around 1% customer return goods will be marked as sellable by Amazon without our control. If you receive defective or used one, please contact us for replacement.

- 4、 Q: Will it do some service reset like oil light reset or abs bleeding?**

A: Please kindly note that FOXWELL NT604 Elite doesn't support maintenance reset function. NT604 Elite is a diagnostic scanner for abs, srs, transmission and check engine system.
