

Scantronic Grade 2 & 3 panels: the experts' choice for class-leading cyber security

Scantronic's new Grade 2 & 3 cloud-enabled panels protect your customers from 10 to 200 zones through familiar single platform, innovative 10-zone expanders and powerful Flexibus™ connectivity. Installation time is now reduced and cabling is cut down, too. Easy set and unset features on our SecureConnect™ app help Scantronic's products go beyond simple protection by offering professional level security and the ability to configure and manage systems through any web connected device from any location on-site time spent locating any 'hidden' expanders is reduced through the use of on-device buzzer and access extensive technical service, training and support through the installer hub.

i-onG2SM

Expandable 50 zone control panel

i-onG3MM

Expandable 200 zone control panel

Decimal expansion system

Lower cost per zone thanks to an innovative 10-zone expander design

Semi-auto addressing

Prevents address duplication for bus mounted devices, saving hours of installation diagnostic time

Audible bus device tracing

Locate any bus device quickly and easily. Reduce the time taken to complete maintenance and service calls

SecureConnect Cloud and App enabled

Control and monitor your panels through the Cloud 24/7 anytime anywhere across multiple locations. Provide you customers with a secure App for convenient control of their system, ensuring peace of mind

Powering Business Worldwide

SecureConnect

Installer Cloud - Easy access from any internet browser

The online SecureConnect portal interacts with the Cloud to empower installers and make monitoring customers' systems simple through a user-friendly interface delivering control and convenience.

- Manage all of your panels from anywhere in your own assigned area on the Eaton Cloud
- Perform remote configuration diagnostics and software updates on all connected panels
- Connect any SecureConnect enabled panel to the Cloud without the need for complex router configuration
- Enable or disable end-user access
- Available online through internet browsers at:
www.eatonsecureconnect.com

User mobile App - Peace of mind at a glance

The SecureConnect App allows home owners and property managers to conveniently monitor and control their home or premises 24/7 from anywhere.

- Set, unset and part set alarm systems, switch outputs on/off
- Monitor and control their system from a smart device
- Confirms the security of users properties with real-time notifications
- Verifies events by delivering high-quality images to the users' smart device
- Available through the Google Play and Apple App stores

The full Scantronic control panel range

i-on Compact

A simple to install and easy to use 20 zone radio panel featuring an integrated keypad

- Single box solution, reducing installation time
- Low profile design providing a discreet solution
- Class-leading Scantronic radio
