Flowmax Setup

- Attach the Support rod into the Jacket support rod holder and tighten the knobs.

- The height of the Support rod is adjustable; you can adjust it via provided Allen key as per your setup requirement.

Note: A tension adjustment knob at the bottom allows changing the amount of tension of spring depending on the weight of setup while retaining stability and control.

Note: The Back Plate is also height-adjustable and allows balancing the setup weight; this adjustment helps in reducing the load on the lumbar area and helps eliminate back pain.

- You can make this adjustment by provided Allen key.

- You can make waist area adjustments quickly by adjusting the ratchet buckle belts.

- Now, attach both Chest buckles with waist buckles.

- You can adjust the angle up to 210° as per requirement, insert the pin to lock correctly.

- Loosen the knob on the hook and attach a camera / gimbal camera setup with it.

YOUR PROAIM FLOWMAX BODY SUPPORT, ALL DRESSED UP AND READY TO GO!

(SHOWN WITH OPTIONAL ACCESSORIES)

Warranty: We offer one year warranty for our products from date of purchase. Within this period of time, we will repair it without charge for labor or parts. Warranty doesn't cover transportation costs nor does it cover a product subjected to misuse or accidental damage. Warranty repairs are subjected to inspection and evaluation by us.

Liability: We are not liable for damage caused by products that we do not supply or from mishandling in transit, accident, misuse, neglect, lack of care of the product, or service by anyone other than our company.

Contact Us: In case of any kind of dissatisfaction, please Contact us immediately and we promise our utmost support and care until you use our product.
