

INSTRUCTION MANUAL

Light Kit for Venator-Class Republic Attack Cruiser 75367

Thank You

For Purchasing this product. To give you the perfect hidden-line effect, we use severely thin aviation-grade wire with high tension and pressure tolerance. However, due to its thin nature, be careful not to cut through it as it might be susceptible to shearing during installation. Always be careful not to press brick pieces down on the wire.

Let's Get Started

if you face any challenges, please feel free to reach out via **support@gameofbricks.eu** Please note that we offer 2 years of free light kit maintenance.

The main objectives are

- | | | | |
|----|---|----|--|
| 01 | Did advertising ever power search and the power search to a useful end? | 03 | Did your search work because
<input checked="" type="checkbox"/> it was easy
<input type="checkbox"/> it provided a useful end result? |
| 02 | Did you search mostly to satisfy a need
<input checked="" type="checkbox"/> immediate and pressing
<input type="checkbox"/> important but not so immediate? | 04 | Did it take a long time to find
the answer you got? |
