

OHT1800P
RHT18X20P

IMPORTANT!

It is essential that you read the instructions in this manual before assembling, operating, and maintaining the product.

Subject to technical modification.

Safety, performance, and dependability have been given top priority in the design of your cordless hedge trimmer.

INTENDED USE

The cordless hedge trimmer is intended only for outdoor use in dry and well-illuminated conditions.

The product is designed for home or domestic use. The product is intended to cut and trim hedges, shrubs, and similar vegetation.

Do not use the product for any other purpose.

GENERAL PRODUCT SAFETY WARNINGS

⚠ WARNING! Read all safety warnings, instructions, illustrations and specifications provided with this power tool. Failure to follow all instructions listed below may result in electric shock, fire, and/or serious injury.

Save all warnings and instruction for future reference.

The term "power tool" in the warnings refers to your mains-operated (corded) product or battery-operated (cordless) product.

WORK AREA SAFETY

- **Keep work area clean and well lit.** Cluttered or dark areas invite accidents.
- **Do not operate power tools in explosive atmospheres, such as in the presence of flammable liquids, gases or dust.** Power tools create sparks which may ignite the dust or fumes.
- **Keep children and bystanders away while operating a power tool.** Distractions can cause you to lose control.

ELECTRICAL SAFETY

- **Power tool plugs must match the outlet. Never modify the plug in any way. Do not use any adapter plugs with earthed (grounded) power tools.** Unmodified plugs and matching outlets will reduce risk of electric shock.
- **Avoid body contact with earthed or grounded surfaces, such as pipes, radiators, ranges and refrigerators.** There is an increased risk of electric shock if your body is earthed or grounded.
- **Do not expose power tools to rain or wet conditions.** Water entering a power tool will increase the risk of electric shock.
- **Do not abuse the cord. Never use the cord for carrying, pulling or unplugging the power tool. Keep cord away from heat, oil, sharp edges or moving parts.** Damaged or entangled cords increase the risk of electric shock.
- **When operating a power tool outdoors, use an extension cord suitable for outdoor use.** Use of a cord suitable for outdoor use reduces the risk of electric shock.
- **If operating a power tool in a damp location is unavoidable, use a residual current device (RCD)**

protected supply. Use of an RCD reduces the risk of electric shock.

PERSONAL SAFETY

- **Stay alert, watch what you are doing and use common sense when operating a power tool. Do not use a power tool while you are tired or under the influence of drugs, alcohol or medication.** A moment of inattention while operating power tools may result in serious personal injury.
- **Use personal protective equipment. Always wear eye protection.** Protective equipment such as a dust mask, non-skid safety shoes, hard hat or hearing protection used for appropriate conditions will reduce personal injuries.
- **Prevent unintentional starting. Ensure the switch is in the off-position before connecting to power source and/or battery pack, picking up or carrying the tool.** Carrying power tools with your finger on the switch or energising power tools that have the switch on invites accidents.
- **Remove any adjusting key or wrench before turning the power tool on.** A wrench or a key left attached to a rotating part of the power tool may result in personal injury.
- **Do not overreach. Keep proper footing and balance at all times.** This enables better control of the power tool in unexpected situations.
- **Dress properly. Do not wear loose clothing or jewellery. Keep your hair and clothing away from moving parts.** Loose clothes, jewellery or long hair can be caught in moving parts.
- **If devices are provided for the connection of dust extraction and collection facilities, ensure these are connected and properly used.** Use of dust collection can reduce dust-related hazards.
- **Do not let familiarity gained from frequent use of tools allow you to become complacent and ignore tool safety principles.** A careless action can cause severe injury within a fraction of a second.

POWER TOOL USE AND CARE

- **Do not force the power tool. Use the correct power tool for your application.** The correct power tool will do the job better and safer at the rate for which it was designed.
- **Do not use the power tool if the switch does not turn it on and off.** Any power tool that cannot be controlled with switch is dangerous and must be repaired.
- **Disconnect the plug from the power source and/or remove the battery pack, if detachable, from the power tool before making any adjustments, changing accessories, or storing power tools.** Such preventive safety measures reduce the risk of starting the power tool accidentally.
- **Store idle power tools out of the reach of children and do not allow persons unfamiliar with the power tool or these instructions to operate the power tool.** Power tools are dangerous in the hands of untrained users.
- **Maintain power tools and accessories. Check for misalignment or binding of moving parts, breakage of parts and any other condition that may affect the power tool's operation. If damaged, have the power**

tool repaired before use. Many accidents are caused by poorly maintained power tools.

- **Keep cutting tools sharp and clean.** Properly maintained cutting tools with sharp cutting edges are less likely to bind and are easier to control.
- **Use the power tool, accessories and tool bits etc. in accordance with these instructions, taking into account the working conditions and the work to be performed.** Use of the power tool for operations different from those intended could result in a hazardous situation.
- **Keep handles and grasping surfaces dry, clean and free from oil and grease.** Slippery handles and grasping surfaces do not allow for safe handling and control of the tool in unexpected situations.

BATTERY TOOL USE AND CARE

- **Recharge only with the charger specified by the manufacturer.** A charger that is suitable for one type of battery pack may create a risk of fire when used with another battery pack.
- **Use power tools only with specifically designated battery packs.** Use of any other battery packs may create a risk of injury and fire.
- **When battery pack is not in use, keep it away from other metal objects, like paper clips, coins, keys, nails, screws or other small metal objects, that can make a connection from one terminal to another.** Shorting the battery terminals together may cause burns or a fire.
- **Under abusive conditions, liquid may be ejected from the battery; avoid contact. If contact accidentally occurs, flush with water. If liquid contacts eyes, additionally seek medical help.** Liquid ejected from the battery may cause irritation or burns.
- **Do not use a battery pack or tool that is damaged or modified.** Damaged or modified batteries may exhibit unpredictable behaviour resulting in fire, explosion or risk of injury.
- **Do not expose a battery pack or tool to fire or excessive temperature.** Exposure to fire or temperature above 130 °C may cause explosion.
- **Follow all charging instructions and do not charge the battery pack or tool outside the temperature range specified in the instructions.** Charging improperly or at temperatures outside the specified range may damage the battery and increase the risk of fire.

SERVICE

- **Have your power tool serviced by a qualified repair person using only identical replacement parts.** This will ensure that the safety of the power tool is maintained.
- **Never service damaged battery packs.** Service of battery packs should only be performed by the manufacturer or authorized service providers.

CORDLESS HEDGE TRIMMER SAFETY WARNINGS

- **Keep all parts of the body away from the blade. Do not remove cut material or hold material to be cut when blades are moving.** Blades continue to move after the switch is turned off. A moment of inattention while operating the hedge trimmer may result in serious personal injury.

- **Carry the hedge trimmer by the handle with the blade stopped and taking care not to operate any power switch.** Proper carrying of the hedge trimmer will decrease the risk of inadvertent starting and resultant personal injury from the blades.
- **When transporting or storing the hedge trimmer, always fit the blade cover.** Proper handling of the hedge trimmer will decrease the risk of personal injury from the blades.
- **When clearing jammed material or servicing the unit, make sure all power switches are off and the battery pack is removed or disconnected.** Unexpected actuation of the hedge trimmer while clearing jammed material or servicing may result in serious personal injury.
- **Hold the hedge trimmer by insulated gripping surfaces only, because the blade may contact hidden wiring.** Blades contacting a "live" wire may make exposed metal parts of the hedge trimmer "live" and could give the operator an electric shock.
- **Keep all power cords and cables away from cutting area.** Power cords or cables may be hidden in hedges or bushes and can be accidentally cut by the blade.
- **Do not use the hedge trimmer in bad weather conditions, especially when there is a risk of lightning.** This decreases the risk of being struck by lightning.

ADDITIONAL SAFETY WARNINGS

- Do not attempt to cut stems or twigs that are larger than 14 mm thick, or are obviously too large to feed into the cutting blade. Use a non-powered hand saw or pruning saw to trim large stems.
- While operating the product, always hold it firmly with both hands by the two handles.
- Inspect the product before each use. Check for loose fasteners, etc. Make sure that all guards and handles are properly and securely attached. Replace any damaged parts before use. Check for battery pack leaks.
- Check the hedges and bushes for foreign objects, such as wire fences and hidden wiring.
- The product must be used only at ground level and not on any other unstable support.
- Do not operate the product in poor lighting. The operator requires a clear view of the work area to identify potential hazards.
- The use of hearing protection reduces the ability to hear warnings (shouts or alarms). The operator must pay extra attention to what is going on in the working area.
- Turn off the product, remove the battery pack, and allow both to cool down. Make sure that all moving parts have come to a complete stop:
 - before adjusting the working position of the cutting means
 - before servicing
 - before clearing a blockage
 - before checking, cleaning, or working on the product
 - before changing accessories
 - before leaving the product unattended
 - before checking for damage after striking a foreign object
 - before performing maintenance
 - whenever the product starts to vibrate abnormally

- Do not force the product through heavy shrubbery. This can cause the blades to bind and slow down. If the blades slow down, reduce the pace.
- If the product is dropped, suffers heavy impact, or begins to vibrate abnormally, immediately power off the product and inspect it for damage or identify the cause of the vibration. For any sign of damage, contact customer service.
- Operate the product only in temperatures between 0 °C and 40 °C.
- Store the product in a location where the ambient temperature is between 0 °C and 40 °C.
- Injuries may be caused, or aggravated, by prolonged use of a tool. When using any tool for prolonged periods, ensure you take regular breaks.
- Servicing requires extreme care and knowledge and should be performed only by a qualified service technician. For any sign of damage, contact customer service.
- The blades are extremely sharp. To prevent personal injury, exercise extreme caution when cleaning, lubricating, fitting, or removing the blade protector.
- Remove the battery pack before adjusting, maintaining, or cleaning the product.
- You may make adjustments and repairs that are described in this manual. For other repairs, contact customer service.
- After each use, clean the body and handles of the product with a soft, dry cloth. For any sign of damage, contact customer service.
- After each use, clean the debris from the blades with a stiff brush, and then carefully apply a rust-preventative lubricant before refitting the blade protector. The manufacturer recommends using rust-preventative lubricant spray to apply an even distribution and reduce the risk of personal injury from contact with the blades. For information about a suitable spray product, contact customer service.
- Check all nuts, bolts, and screws at frequent intervals for proper tightness to ensure that the product is in safe working condition. For any sign of damage, contact customer service.

ADDITIONAL BATTERY SAFETY WARNINGS

- To reduce the risk of fire, personal injury, and product damage due to a short circuit, never immerse the tool, battery pack, or charger in fluid or allow fluid to flow inside them. Corrosive or conductive fluids, such as seawater, certain industrial chemicals, and bleach or bleach-containing products, etc., can cause a short circuit.
- Charge the battery pack in a location where the ambient temperature is between 10 °C and 38 °C.
- Store the battery pack in a location where the ambient temperature is between 0 °C and 20 °C.
- Use the battery pack in a location where the ambient temperature is between 0 °C and 40 °C.

TRANSPORTATION AND STORAGE

- Turn off the product, remove the battery pack, and allow both to cool down before storing or transporting.
- Remove all foreign materials from the product. Store the product in a cool, dry, and well-ventilated area that is inaccessible to children. For extra safety, store the battery pack separately from the product. Keep the product away from corrosive agents, such as garden chemicals and de-icing salts. Do not store the product outdoors.
- Fit the blade cover before storing the product or during transportation.
- For transportation, secure the product against movement or falling to prevent injury to persons or damage to the product.

TRANSPORTING LITHIUM BATTERIES

Transport the battery in accordance with local and national provisions and regulations.

Follow all special requirements on packaging and labelling when transporting batteries by a third party. Ensure that no batteries can come in contact with other batteries or conductive materials while in transport by protecting exposed connectors with insulating, non-conductive caps or tape. Do not transport batteries that are cracked or leaking. Check with the forwarding company for further advice.

MAINTENANCE

- Use only original manufacturer's replacement parts, accessories, and attachments. Failure to do so can cause possible injury, can contribute to poor performance, and may void your warranty.

SYMBOLS ON THE PRODUCT

Read and understand all instructions before operating the product. Follow all warnings and safety instructions.

Safety alert

Wear ear protection.

Wear non-slip, heavy-duty gloves.

Wear eye protection.

To prevent serious injury, do not touch the cutting blades.

Remove the battery pack before starting any work on the product.

Always hold the product with both hands when operating.

Do not expose the product to rain or damp conditions.

Beware of thrown or flying objects.
Keep all bystanders, especially children and pets, at least 15 m away from the operating area.

Guaranteed sound power level

Regulatory Compliance Mark (RCM).
This product meets applicable regulatory requirements.

Waste electrical products should not be disposed of with household waste.
Please recycle where facilities exist.
Check with your local authority or retailer for recycling advice.

SYMBOLS IN THIS MANUAL

Parts or accessories sold separately

Note

Warning

Always wear safety goggles or safety glasses with side shields when operating the product. Wear ear protection. When handling the blade assembly, wear non-slip, heavy-duty protective gloves.

Remove the blade cover.

WARNING: Keep bare hands away from the blades at all times.

Install the battery pack until the latches click into place. Make sure that the battery pack is securely attached before using the product.

Hold the front handle with one hand and the rear handle with the other hand. Squeeze the front safety switch and the trigger to turn on the product.

OPERATING THE PRODUCT

CAUTION: Always use two hands to operate the product, which is fitted with two handles. Keep bare hands away from the blades at all times.

1. Remove the blade cover.
2. Install the battery pack until the latches click into place.

NOTE: Make sure that the battery pack is securely attached before using the product.

3. Hold the front handle with one hand and the rear handle with the other hand. Squeeze the front safety switch and the trigger to turn on the product.

WARNING: Ensure your footing is secure when operating the product. Never operate from a ladder.

CLEANING THE PRODUCT

WARNING: Keep bare hands away from the blades at all times. The product does not have an off switch and will continue to operate when both the front safety switch or trigger are squeezed. Release either the front safety switch or trigger to stop the product.

1. Press and hold the latch to release the battery pack.

2. Clean the body and handles of the product with a soft, dry cloth after each use. Remove the debris from the blades with a stiff brush.

NOTE: Do not use water and soap to clean the product.

3. Lubricate the blades lightly before and after use.

NOTE: Use only plant-friendly or dedicated lawn and garden hedge trimmer lubricants.

STORING THE PRODUCT

WARNING: Keep bare hands away from the blades at all times. The product does not have an off switch and will continue to operate when both the front safety switch or trigger are squeezed.

NOTE: Remove all foreign materials from the product before storing.

1. Press and hold the latch to release the battery pack.
2. Install the blade cover.
3. Store the product in a cool, dry, and well-ventilated place that is inaccessible to children and away from sources of ignition.

PRODUCT SPECIFICATIONS	
Cordless hedge trimmer	
Model	OHT1800P
Rated voltage	18 V d.c.
No-load speed	1300/min $\pm 10\%$
Blade length	40 cm
Cutting capacity	14 mm
Vibration level (in accordance with EN 62841-1:2015 and EN 62841-4-2:2019)	
Front handle	1.7 m/s ²
Rear handle	1.3 m/s ²
Uncertainty of measurement	1.5 m/s ²
Noise emission level (in accordance with EN 62841-1:2015 and EN 62841-4-2:2019)	
A-weighted sound pressure level	84.2 dB(A)
Uncertainty of measurement	1.8 dB
A-weighted sound power level	92.2 dB(A)
Uncertainty of measurement	1.8 dB
Weight (without battery pack)	1.5 kg
Weight (with heaviest battery pack)	2.7 kg
Compatible battery packs	RB18L13, RB18L13Z, RB18L15, RB18L15A, RBL18L15B, RB1815C, RB18L20, RB18L20A, RB18L25, RBL18L25A, RB1820C, RB1825C, RBL18L26, RB18L30, RB18L30A, RB18L40, RB18L40A, RB1840C, RB1840X, RB18L50, RB18L50A, RB1850C, RB1850X, RB18L60, RB18L60A, RB1860X, RB18L90, RB18L90A

NOTE: Use RYOBI 18V battery and charger only.

⚠ WARNING! The declared vibration total values and the declared noise emission values given in this instruction manual have been measured in accordance with a standardised test and may be used to compare one tool with another. They may be used for a preliminary assessment of exposure.

The declared vibration and noise emission values represent the main applications of the tool. However, if the tool is used for different applications, used with different accessories, or poorly maintained, the vibration and noise emission may differ. These conditions may significantly increase the exposure levels over the total working period. An estimation of the level of exposure to vibration and noise should take into account the times when the tool is turned off or when it is running idle. These conditions may significantly reduce the exposure level over the total working period.

Identify additional safety measures to protect the operator from the effects of vibration and noise, such as maintaining the tool and the accessories, keeping the hands warm (in case of vibration), and organising work patterns.
