First Time Use

◆ Before using it for the first time, please confirm that the power of the two earphones and the charging compartment is full. When the power is insufficient, please use the charging cable equipped with this product to charge and choose the charging equipment produced by the regular manufacturer. If the product has not been used for more than 2 weeks, it is recommended to charge the product before use. On/Off

Power ON/Off

- ◆ Auto Power On: Open the cover of the charging case and remove the headset to turn it on automatically.
- ◆ Auto Power Off: Put the headset back into the charging case, the headset will disconnect from the Bluetooth connection and power off automatically.

Bluetooth Connection (turn off Bluetooth device before pairing)

- ◆ Bluetooth Pairing: after taking out the headset and turning it on to enter the pairing state, turn on the Bluetooth device to search for the headset configuration name "SANSUI" and click the connection pairing to complete. (If the headset Bluetooth cannot be searched, please turn off the cell phone Bluetooth and turn it on again to reconnect)
- ◆ Successful Connection: there is a voice prompt.
- ◆ Auto-reconnect: After the first successful connection, the power-on default connects to the last paired device.
(Hint: Some cell phones require "0000" as the pairing password)

Game/Music Mode

- ◆ Quad-tap the right ear touch area to switch game mode or music mode, there will be voice prompts.

Spatial Audio

◆ Long press the right ear touch area for 2 seconds to turn on/off, with voice prompts. (Binaural use is required for better results)

Restore Factory Settings

◆ When the left and right ears are not interconnected or the devices cannot be paired, you can reset them as follows:

- ① Delete the pairing information of "SANSUI" headset on the mobile phone first.
- ② When the headset is turned on and not connected, reset after clicking the left/right ear touch area 5 times, and the headset will automatically shut down to clear the pairing.
- ③ After resetting the headset, the pairing information recorded by the headset has been cleared. Please use the "Bluetooth pairing" step after reconnecting.

Other Functions

Manual on/off

- ◆ When the power is off, long press the touch area for 3 seconds, the headset will turn on.
- ◆ In the power-on state, long press the touch area for 5 seconds, the headset will disconnect and shut down.

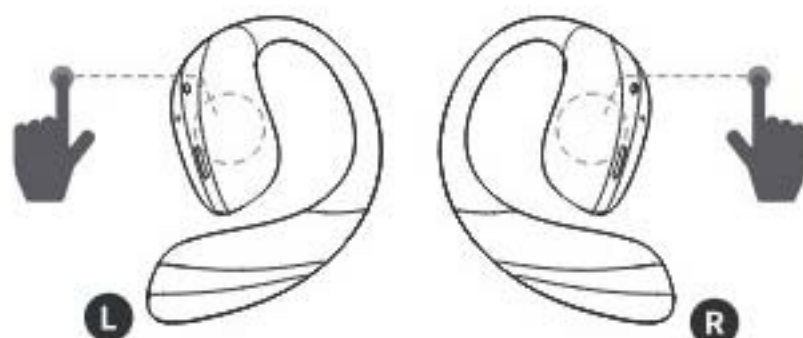

Timeout Not Connected

- ◆ The headset will automatically turn off if it is not successfully connected to the device within 5 minutes in the standby pairing state.

Bluetooth Over Distance Disconnection

- ◆ After successful connection, beyond the effective Bluetooth connection distance (10m for barrier-free environment), Bluetooth disconnection will be made, and if the connection with the device is not successfully made within 5 minutes, the device will be automatically shut down.

Operation

Music Playback

- ◆ Play/Pause Music: Double Click touch area
- ◆ Previous song: Three clicks on the left ear touch area
- ◆ Next song: Three clicks on the right ear touch area
- ◆ Volume -: Click on the left ear touch area
- ◆ Volume+: Click the right ear touch area

Call Management

- ◆ Answering/hanging up calls: Double click the touch area
- ◆ Reject incoming call: Long press the touch area for 2 seconds

Spatial Audio

- ◆ Long press and hold the right ear touch area for 2 seconds, there will be a voice prompt (better effect when using both ears)

Dual Connection

- ◆ Four clicks on the left ear function button with voice prompts

Game/Music Mode

- ◆ Four clicks on the right ear function button with voice prompts

Voice Control

- ◆ Press and hold the left ear function button for 2 seconds (requires cell phone to support this function)

Dual Device Connection Operation

① Dual connection pairing: When the headset is connected to one device, to connect the second device, click the left ear touch area four times to turn on Dual connection. Within 60 seconds, connect the headset directly to the second device to complete Dual connection.

② Re-connection: When the headset is connected to the first and second devices, the headset will automatically connect back to the last two devices within the effective range to complete the dual connection.

Headset battery level and charging

① Headphone Power Display

Cell phone status bar can display headset device power information (requires cell phone version to support this feature) Headset charging status

② Headset Charging Status

During the charging process of the headset, the indicator light will have a charging tip, and the indicator light will turn off when full.

③ Headset Low Battery Alert

When the headset is in a low battery state, the headset will have a voice prompt tone to indicate that the battery is insufficient. Please put the headset into the charging box to charge in time.

- ◆ Low battery: screen percentage flashes and then goes off
- ◆ Charging the headset: the screen percentage is always on, and the LR running light is flashing.
- ◆ Headphones fully charged: screen percentage off

Common Problems

① The headset can't be paired with the cell phone?

Check if the headset is in pairing or back-connected status, as well as check the Bluetooth search function of your cell phone.

② The headset does not turn on?

Please check if the headset is fully charged and charge it for 30 minutes before turning it on.

③ Can I replace the battery of the headset?

No, this headset uses a non-removable battery.

④ Can I use this headset while driving?

You can use this headset while driving, but it is not recommended to use a Bluetooth headset while driving, and reduce the volume as much as possible.

⑤ Disconnect the headset from the phone?

The effective distance of this headset is 10 meters indoors. If the distance between the phone and the headset exceeds 10 meters or there are multiple obstacles, the headset and the phone will be disconnected. Please keep the effective distance within the use of this headset.

⑥ Do I hear a different sound when the headset is connected to my computer or cell phone?

Since Bluetooth is a wireless technology, it is sensitive to objects between the headset and the connected device. Please check whether there is metal or other objects that affect the connection within the connection range.

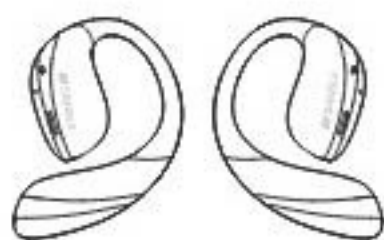

⑦ After the headset is connected to the mobile phone, can the headset be used to control the application on the mobile phone?

The software settings of the device application are different or different, so that the functions of individual applications are not supported by

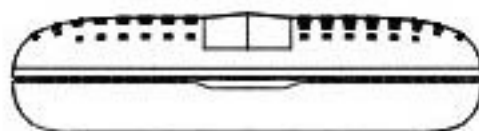

Precautions

1. Do not disassemble, repair or modify the headset for any reason, otherwise it may cause fire, electronic breakdown or even complete damage to the product.
2. When the product indicator is on, do not look directly and keep away from the eyes of children or animals.
3. Do not place the product in an environment where the temperature is too low or too high (below 0°C or above 45°C).
4. Do not use this equipment in thunderstorm weather, which may cause equipment failure or electric shock hazard.
5. Do not use strong chemicals, detergents or strong washing agents to clean the appliance or its accessories.
6. Do not place the equipment near heat sources or exposed fire sources, such as electric heaters, microwave ovens, ovens, water heaters, fire candles, or other places that may generate high temperatures.
7. Do not listen to music at high volume for a long time, which will cause hearing damage. Please adjust the volume to the appropriate volume when using the device.
8. Do not replace the battery by yourself. This device is equipped with a non-removable built-in battery to avoid damage to the battery or the device. Private replacement is not recommended.
9. Do not keep the magnetic stripe card (such as bank card, telephone card, etc.) in contact with the device for a long time, otherwise the magnetic stripe card may be damaged by the magnetic field.
10. Before cleaning and maintenance, please stop using the device, close all applications, and disconnect all connections or cables from other devices.
