Power Input(Curtain Light)	5V 3A
Waterproof	Adapter (IP44) Control Box (IP65) Curtain Lights (IP65)
Waterproof	APP, Remote, Control Box
Working Temperature	-10°C to 45°C (4°F to 113°F)

Caution

1. Power on the lights before installing. If any defect, contact us.
2. The 20 lines are tied together to avoid them tangle up. Do not spread before installing.
3. Use 'Horizontal Flip' function to get proper orientation. You can find it both on remote and on APP.
4. The remote valid distance is short(2M) due to shell of waterproof control box. The IR receiver is under button. You can aim to button when using remote. Recommend using APP to control the lights.

How to Install

There are 2 methods to install the lights.

Method 1: Use Hooks

Use the hooks. For example, hook the lights to the top of a curtain. Then the lights can follow the curtain to fold and unfold. If the hooks do not fit, please use other size hooks to bridge.

Method 2: Use Stickers

Use the double-sided stickers. Choose the surface you want to stick. Make sure the surface is clean, smooth and dry. Rough or dusty surface will fail. Paste the sticker to the hook one by one until each hook with sticker. Paste the hooks to the surface one by one. You should hold the other hooks until all are pasted.

Remote

The IR remote valid distance is 2 meters due to waterproof shell of the control box. Please aim to button of control box when using.

Pair to APP

1. Scan the QR code on controller box to download the APP and install it on your phone.
2. Turn on the Bluetooth on your phone.
3. Open the APP, tap the "+" icon in the top right corner and search new device.
4. APP will show the device found, just add it.
5. Tap the device icon to enter control panel.

Trouble Shooting

a) APP can not find the device.

- Make sure the phone bluetooth is on.
- Allow the permissions of APP. APP needs them to connect the device.
- Check the strip light is on. Or use remote control to check light is working.
- Kill APP, turn off bluetooth and turn on bluetooth again, then start APP to add device again.
- Ensure phone within 4ft of product without obstructions when connecting.
- Your phone may be incompatible with the APP, try another phone.

b) All lights don't work.

- Check power is on.
- Press ON and press "brightness up" multi times on remote.
- Connect APP and turn on light and turn up brightness.
- Reinstall all parts.

c) Some light beads keep off or fail working.

- Contact our support team.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.

—Consult the dealer or an experienced radio/TV technician for help.

Important: Change or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.
