Wearable, USB magnetic charging cable, instruction manual.

CHARGING.

Connect the device to a computer or laptop with the USB Magnetic cable for charging. Put in contact the magnetic end of the USB cable with the charging points positioned in the back of your device. Kindly use only the USB cable included with the wearable. If you use a power adapter for charging, the output of the power adapter should be 5V, 1A. Charging time: **1-2** hours approx. Please charge the device fully before using it. Take care with the magnet side of the cable, if you connect to the AC and you have contact with a metal surface, you may damage the charging cable.

HOW TO POWER ON / POWER OFF?

1) To turn ON the smart band, long press the side button ON for a few seconds.
2) To turn OFF the smart band, long press the side button ON for a few seconds. Then choose the option of Power off.

# HOW TO CONTROL?

This device is equipped with a full touch display screen, it supports full screen touch control.

1) In the home page slide the screen as in the following diagram to enter to the different interfaces :

TOUCH SCREEN
Hear Rate, SPo2, Sleep, Weather, Remote Player, Daily Data.

BUTTON PRESS MENÚ ACCESS

1) Short tap in the icon to select/enter in that menu. In the submenus slide from left/right or top/bottom to go to the next/previous page. Short press the side button to return to the previous interface.
2) You can download and install more dials on the dial market by the app.

GETTING STARTED:

- For Android
1) How to obtain the BT Connection APK (**Infowear**)
Search for the **Infowear APP** in the Play Store; download it and install it in your Android smartphone, or go to our **website www.sami.es** and download the application.
2) Installation of the **Infowear** APK.
When installing the **Infowear** application on your Android, you must allow all the Application Permissions, allow this **Infowear** app auto run.
The first time you run this **Infowear app**, it will ask you to Enable Notifications, please tap OK and tap the **Infowear** and confirm OK. You must tap OK/Allow/Pair/Yes/Confirm for any pop-up request. On your Android permission management, allow all application permissions.
3) How to make the wearable pair with your Android smart phone?
*First, turn on the Bluetooth of your Phone.
*Second, run the **Infowear** app on your Phone, on the home page of **Infowear**, find the pairing request by the setting all your values requested and then select **"watch"**. You must have the screen of the watch on and the APP will search for new Bluetooth device(s), when the available Bluetooth device displays, please select **WS-2378** (the BT name of this device). Select the device on the app to make it pair. Select **"confirm tick" on the watch** and the pairing will be finished in a few seconds. When you pair for the first time, the **Infowear** app will ask you to o enable GPS and Bluetooth, and authorize **Infowear** to get access to the location service while using the app. Please accept all the requests for the correct functioning of the device. When you finish select OK/Confirm/Allow for any pop-up request.
4) In the case that on the watch you have the QR CODE on the screen, then in the APP **Infowear** click the icon of scan on the top left of the menu and scan the qr code of the watch with the camera.

Important: To enable all notifications of different softwares such as WhatsAPP, Facebook, Skype, Twitter, you will need to turn on the notifications on the APP manually. On the **VeryFit** homepage, select the icon **"Device"** (situated on the right bottom of the screen), → select **"WS-2378"** → select **"message notification"** → turn on **"Allow notification"** and turn on all the APP notifications you want to active. To confirm you must click on the icon ✓

- For iPhone
