PLATSA

System

Care and Cleaning

Wipe clean with a cloth dampened in a mild cleaner. Then dry with a clean, dry cloth.

Assembly

IMPORTANT: 2 persons are required to assemble this furniture safely.

With the PLATSA series you can create sleep and storage solutions for both small and large spaces across your home. The modular system consists of open, lightweight frames that you can combine as you like. You can build high or low, under a sloping ceiling or along an entire wall. Then you easily add doors, shelves, wire baskets and hooks as needed. If your needs change, you can easily rebuild or complete with new features.

All the products (shown here) may not be available at the store. Please contact the staff or look at www.IKEA.com for more information. For more detailed product information, see the pricetag and the Internet. All units require assembly.

Storage and media solutions

The different sizes of frames makes PLATSA a modular system that creates flexibility in your home. Build a solution under your staircase, around a window or above a door, the possibilities are many. By combining frames from the PLATSA series with items from the HJÄLPA and LÄTTHET series of interiors and exteriors, you can create exactly the solution you need. You can also choose one of our suggested combinations and add or remove interiors and exteriors as you wish. Whatever you choose, the result is a solution to suit both your home and your storage needs.

Easy assembly and disassembly

Thanks to the wedge dowel fitting the PLATSA frames are quick and easy to assemble and disassemble, making it easy to bring your storage solution with you when you move. Just click the pieces together, no tools needed.

PLATSA open

PLATSA open are solitary frames which include adjustable interiors. These frames do not have the wedge dowel fittings like other PLATSA frames, but by developing a simple construction we have minimised the assembly time.

How to build

Choose your solution

We have a wide range of PLATSA combinations to choose from which you can find in the store or on our website at www.IKEA.com. If you don't find a pre-designed solution that you like, you can create the perfect combination that suits your needs and taste on your own. Begin by looking through the ready-made combinations on the web and choose one that inspires you. You will then have a pre-designed combination to start from that you can customise to your needs. You can use the PLATSA home planner tool online to design your own unique PLATSA combination from scratch. There are 3 simple steps to follow:

Safety

For safety reasons, always attach PLATSA frames to a wall. Since different wall materials require different fixing devices, these are sold separately. If you stack several PLATSA frames on top of each other, you need to attach the frames placed at 3 metres or above to the wall using LÄTTHET suspension rail. Also, use LÄTTHET suspension rail for PLATSA frames that are being mounted hanging on the wall. Warning! Do not hang PLATSA frame with depth 55 cm on a wall. It must be placed standing on the floor or stacked on another floor standing frame.

1. Choose frames. Consider how much space you have available in your room. Remember, you can also make the most of unused space with the different sizes of the frames available.
2. Pick your style on doors. What style do you want your wardrobe to be? Do you wish for a plain white door, or a door in the more traditional style? Maybe dark grey? The choice is yours.
3. Choose interiors and exteriors. Think through your day-to-day needs and what you need to store. Once you have decided on the interiors and exteriors, it's time to add the finishing touches. Complete your new wardrobe with your choice of boxes and inserts from our extensive range of interior accessories. And for a great result, don't forget the integrated lighting. Simple to install and makes it easier for you to find the right outfit.

Storage and media solutions

How to combine frames

Frames in the PLATSA series can be combined in different ways to suit your storage needs. Check out these popular combinations and browse more on [IKEA.com](https://www.ikea.com).

Sleep and storage solutions

PLATSA bed covers your sleep and storage needs helping you create your own oasis in the smallest of places. Together with PLATSA system you can have both a space for privacy and a home for all your things. With the PLATSA bed you save floor space by gathering sleep and storage in one place. Use this versatile bed as a room divider, part of a walk-in closet solution or placed freestanding in the middle of the room to create an interesting room dynamic.

Build your own solution to solve your storage needs by adding 60/120/180 cm high and 40 cm deep PLATSA frames on top of the footboard. Complete with LÄTTHET footboard panel, HJÄLPA interiors and doors. Three sides underneath the bed can be personalised with the help of HJÄLPA interiors and storage boxes. Slats, legs and top panel is included in the bed.

LÄTTHET footboard panel puts the final touch on the storage solution that you build onto your PLATSA bed. It creates stability and a smooth, even surface on the back of the PLATSA frames - giving a finished look.

Easy assembly and disassembly

Thanks to the wedge dowel fitting the PLATSA bed is quick and easy to assemble and disassemble, making it easy to bring your solution with you when you move.

Safety

Maximum building height from the floor to the top of the footboard (excluding top panel), is 220 cm. Warning! Do not drill holes into the footboard panel. To make the white surface of the footboard panel more decorative you can use no drill hooks, such as LILLÅNGEN hanger for doors, to hang two RIBBA frames (61×91 cm). Maximum load is 6 kg.

How to build

Choose your solution

We have several PLATSA bed combinations to choose from, both in the store or on our website at www.IKEA.com. If you don't find a pre-designed solution that you like, you can create the perfect combination that suits your needs and taste on your own. Begin by looking through the ready-made combinations on the web and choose one that inspires you. You will then have a pre-designed combination to start from that you can customise to your needs. You can, for example, change the height of the storage solution, or the interiors. You can also design your own unique PLATSA bed combination from scratch. There are 6 simple steps to follow:

1. Bed frame. Consider your storage needs and how the bed will be placed in your room. Will you be able to use the storage space on all three sides underneath the bed?
2. Choose frames for the footboard. Consider the role of the bed and how high you need to build it. Will it be a room divider, do you need storage for hanging and/or folded clothes, or will it be a place for your books and trophies?

3. Footboard panel. Choose the amount of footboard panels needed. The panel is 60 cm high which means you can build with 60/120/180 cm high frames.
4. Choose interiors. Think through your day-to-day needs and what you need to store. Once you have decided on the interiors, it's time to add the finishing touches. Complete your new bed solution with your choice of boxes and inserts from our extensive range of interior accessories. And for a great result, don't forget the integrated lighting. Simple to install and makes it easier for you to find the right outfit.
5. Pick your style on doors and drawer fronts. What style do you want your wardrobe to be? Do you wish for a plain white door, or a door in the more traditional style? Maybe dark grey? The choice is yours.
6. Choose your mattress and mattress topper. The mattress needs to be between 120-140 cm wide and 200 cm long.

How to build LARKOLLEN sliding doors

LARKOLLEN is a sliding door that fits all PLATSA frame sizes. It comes in two widths, 60 and 80 cm. Both widths are 240 cm long (several doors can be made with one roll of felt).

Planning your LARKOLLEN sliding doors can be a bit tricky, and it's important that all the measurements are correct and aligned. It's perfectly fine to plan on paper if that's what you prefer, but there's also a planner tool available on www.IKEA.com to help you out!

LARKOLLEN – All parts

With LARKOLLEN felt panels, handles and rails, you can create customised sliding doors for PLATSA storage system. The light-weight products are easy to carry home and can be assembled in small spaces.

LARKOLLEN felt panel for sliding doors. The felt panel is 240 cm long, so each panel can be used for several sliding doors – for example 2 doors that are 120 cm high or 4 that are 60 cm high. The felt panel is simple to adapt to the length you need – just cut with ordinary household scissors along the desired groove. To be completed with LARKOLLEN rails and handles. Sold separately.

80×40-240 cm	105.189.26

LARKOLLEN rails, white. LARKOLLEN rail comes in two sizes W60 cm and W80 cm and it's sold as 1 set for 1 PLATSA frame. Example: For combination with 2 PLATSA frames W60 cm you will need 2× W60 cm LARKOLLEN rails. To be completed with LARKOLLEN felt panels and handles. Sold separately.

80 cm	105.093.52

LARKOLLEN handles, white. 2-p. LARKOLLEN handle comes in two sizes H180 cm and H60 cm. If you are planning to use LARKOLLEN panel door on H80 cm or H120 cm PLATSA frame you will need to cut the handle. To be completed with LARKOLLEN felt panels and rails. Sold separately.

How to build and place HJÄLPA adjustable clothes rail

Hanging storage for big and small things

All items in the HJÄLPA series are designed to go with PLATSA storage system. Maximise space and keep things organised inside and outside your system with adjustable clothes rails, suspension rails, fittings and hooks. The adjustable clothes rail is perfect for everything from shirts and blouses to suit jackets and coats – remember to use the fittings when mounting the clothes rail to a frame. And put the hooks on the suspension rails to hang ties, handbags and jewellery.

Storage inside and outside your wardrobes

You can use HJÄLPA adjustable clothes rail with a length of 60–100 cm on the inside of your frame, between two frames, between a frame and a wall or between two walls. The width or depth of your PLATSA frame doesn't matter since the clothes rail can be adjusted and the suspension rails are positioned at the same depth as the frames.

Storage outside your wardrobe

HJÄLPA adjustable clothes rail with a length of 30–47 cm can only be used on the outside of one frame – between frames, between a frame and wall or between two walls. The width or depth of your PLATSA frame doesn't matter since the suspension rails are positioned at the same depth as the frames.

The correct number of fittings

When you mount HJÄLPA adjustable clothes rail between frames, you need 2 packages of HJÄLPA fittings. If you mount the clothes rail between a frame and a wall, 1 package is enough. If you plan to have the clothes rail between two walls, no fittings are needed.

Integrated lighting

Make it easier to see what you need and find your favourite outfit faster with integrated lighting for your wardrobe. No more bright lamps or waking your partner to find things in the

morning. Instead, you can start your day in a pleasant way as you open your wardrobe and the soft light switches on.

STÖTTA LED lighting strip, battery-operated, white. Developed with PLATSA in mind. The light switches on and off automatically when you open or close the door, so no energy is wasted. Ideal for behind hinged doors and in drawers to light up what you need to see without disturbing others. Batteries are sold separately; 4 pcs AA required (2 for 32 cm version). IKEA recommends LADDA rechargeable batteries. With new, fully charged LADDA AA 2450 mAh rechargeable batteries, one charging will last approx. 1.5 months if the lighting strip is used 5 minutes per day.

SKYDRAG is the LED lighting strip designed for the PLATSA series. You can use the lighting strip under PLATSA wall cabinets and open wall frames or use it to create a cozy light inside the open frames. If you connect the lighting strip to TRÅDFRI driver, you can easily turn on, turn off and dim your lighting as needed.

YTBERG cabinet lighting. The lamp's slim and neat design goes with most styles and is perfect if space is limited between the top of your wardrobe or cabinet and the ceiling. You can easily direct the light where you like since the flexible gooseneck arm can be bent and angled – perfect when it's time for homework, arts and crafts or cuddling up with a good book. Spreads a soft light that creates a cosy atmosphere in the room. The bracket makes it possible to slide the lamp back and forth. You easily attach it with screws – or with double-sided adhesive tape on glass and metal surfaces. You can dim your lighting wirelessly and easily adapt the lighting based on activity. The LED light source consumes up to 85% less energy and lasts 20 times longer than incandescent bulbs. You can easily direct the light where you like since the arm can be bent 180° and the lamp head angled 90°. You can turn up to 6 light sources on and off simultaneously if you complete with ANSLUTA driver. If you also want to be able to dim, choose TRÅDFRI driver and wireless dimmer instead. Sold separately.

TVÄRDRA cabinet lighting. The traditional expression of the lamp goes nicely with the cabinets in the HAVSTA and HAUGA series. The metal shade creates a direct light that illuminates your cabinet or wardrobe. If you want the lamp's light to be directed into your display cabinet, just angle the lamp head inwards. Provides a focused light that is good for lighting smaller areas. You can dim your lighting wirelessly and easily adapt the lighting based on activity. The bracket makes it possible to slide the lamp back and forth. You easily attach it with screws – or with double-sided adhesive tape on glass and metal surfaces. The LED light source consumes up to 85% less energy and lasts 20 times longer than incandescent bulbs. You can turn up to 6 light sources on and off simultaneously if you complete with ANSLUTA driver. If you also want to be able to dim, choose TRÅDFRI driver and wireless dimmer instead. LADDA rechargeable batteries. If you're a frequent user of alkaline batteries, over time you can save money, reduce waste and lower your impact on the environment by switching to LADDA rechargeable batteries. By using rechargeable batteries, you'll always have ready-to-use batteries at home and rarely have to buy new ones. LADDA rechargeable batteries 2450 mAh give you approximately 30 percent more operating time than LADDA 1900 mAh.

How to choose integrated lighting

Now you don't need to worry about getting bright light in your eyes or it waking up your partner when you look for clothes. Instead, you start the day when you open your wardrobe and the soft light from our LED lighting strips turns on. Or choose cabinet lighting placed on top of the wardrobe to help you see

what's on the top shelf also provides a nice and cosy atmosphere in the entire room when the wardrobe doors are closed. You can even connect to IKEA Smart lighting using the DIRIGERA hub.

How to choose a driver

There are three LED drivers. Choose based on how many units you want to connect. You can connect up to 3 units to the 10W LED driver, as long as the total wattage does not exceed 10W. The 30W LED driver can support up to 9 units, max. wattage 30W.

You can connect up to 10 drivers in one installation cord. Flashing lights indicate that the maximum wattage of the LED driver is exceeded. If you want to use more than one LED driver,

make sure to synchronise each LED driver with the TRÅDFRI wireless dimmer or STYRBAR remote control so that the entire combination can be dimmed at the same time. Make your cabinet lighting smart by adding the DIRIGERA hub. With the gateway, you can control your lights from the IKEA Home smart app and create a mood together with your other TRÅDFRI lighting.
