 - (b) manage the risks associated with its business, including operations that are not related to trading securities or derivatives, in accordance with prudent business practices.
3. Further to paragraph 2(a), the Filer's policies and procedures will reflect that the Filer is seeking exemptive relief from certain regulatory requirements under the Filer's Application for Relief unless the Filer has been informed by staff of the Principal Regulator that staff do not support the Filer's request for exemptive relief from certain regulatory requirements.

32. The Account Appropriateness Factors will be used by the Filer to evaluate whether entering into Crypto Contracts with the Filer is appropriate for a prospective client before the opening of a Client Account.
33. The Filer will adopt and apply policies and procedures to conduct an assessment to establish appropriate limits on the losses that a client that is not a permitted client or a Registered CTP can incur, what limits will apply to such client based on the Account Appropriateness Factors (the **Client Limit**), and what steps the Filer will take when the client approaches or exceeds their Client Limit. After completion of the assessment, the Filer will implement controls to monitor and apply the Client Limit.
34. After completion of the account-level appropriateness assessment, a prospective client that is not a permitted client or a Registered CTP will receive appropriate messaging about using the Filer's Platform to enter into Crypto Contracts, which, in circumstances where the Filer has evaluated that entering into Crypto Contracts with the Filer is not appropriate for the client, will include prominent messaging to the client that this is the case and that the client will not be permitted to open an account with the Filer.
35. Additionally, the Filer will monitor Client Accounts after opening to identify activity inconsistent with the client's Account Appropriateness Factors. If warranted, the client may receive further

messaging about the Filer's Platform and the Crypto Assets, specific risk warnings and/or receive direct outreach from the Filer about their activity. The Filer will monitor compliance with the Client Limits established by the Filer as described above. If warranted, the client will receive messaging when their account is approaching their Client Limit and receive information on steps the client may take to prevent further losses.

Risk Statement

36. Before a prospective client opens an account with the Filer, the Filer will deliver to the client a statement of risks (the **Risk Statement**), and will require the client to provide electronic acknowledgement of having received, read and understood the Risk Statement.
37. For each client with a pre-existing Client Account at the date of the Undertaking and for whom the Filer has not already performed the following with respect to such client as at the date of this Undertaking, the Filer will deliver to the client a Risk Statement and will require the client to provide an electronic acknowledgement of having received, read and understood the Risk Statement at the earlier of (a) before placing their next trade or deposit of Crypto Assets on the Filer's Platform and (b) the next time they log in to their account with the Filer.
38. The Risk Statement will clearly explain the following in plain language:
 - (a) the Crypto Contracts;
 - (b) the risks associated with the Crypto Contracts;

 - (d) the due diligence performed by the Filer before making a Crypto Asset available through the Filer's Platform, including the due diligence taken by the Filer to assess whether the Crypto Asset is a security and/or derivative under the securities legislation of each of the jurisdictions of Canada and the securities and derivatives laws of the foreign jurisdiction with which the Crypto Asset has the most significant connection, and the risks if the Filer has incorrectly determined that the Crypto Asset is not a security and/or derivative;
 - (e) that the Filer has prepared a plain language description of each Crypto Asset made available through the Filer's Platform and of the risks of the Crypto Asset, with instructions as to where on the Filer's Platform the client may obtain the description (each, a **Crypto Asset Statement**),
 - (f) the Filer's policies for halting, suspending and withdrawing a Crypto Asset from trading on the Filer's Platform, including criteria that would be considered by the Filer, options available to clients holding such a Crypto Asset, any notification periods and any risks to clients,

- (g) the location and manner in which Crypto Assets are held for the client, the risks and benefits to the client of the Crypto Assets being held in that location and in that manner, including the impact of insolvency of the Filer or an Acceptable Third-party Custodian,
- (h) the manner in which the Crypto Assets are accessible by the Filer, and the risks and benefits to the client arising from the Filer having access to the Crypto Assets in that manner,
- (i) that the Filer is not a member of the Canadian Investor Protection Fund (**CIPF**) and the Crypto Assets held by the Filer (directly or indirectly through third parties) will not qualify for CIPF protection,
- (j) a statement that certain statutory rights under securities legislation in Canada do not apply in respect of the Risk Statement or a Crypto Asset Statement,
- (k) a prominent statement that the Filer has submitted an Application for Registration and an Application for Relief under securities legislation of certain jurisdictions of Canada but there is no guarantee these applications will be granted and the Filer is not currently registered under the securities or derivatives legislation of any jurisdiction of Canada and has not been granted an exemption from any requirements of securities or derivatives legislation of any jurisdiction of Canada, and
- (l) prior to a client making a decision to obtain Staking Services from the Filer, the disclosure described in Schedule IV.

39. The Filer will ensure it has policies and procedures for updating the Risk Statement and each Crypto Asset Statement to reflect any material changes to the disclosure or include any material risks that may develop with respect to the Crypto Contracts, Crypto Assets generally, or a specific Crypto Asset, as the case may be. In the event the Risk Statement is updated, existing clients of the Filer will be promptly notified and provided with a copy of the updated Risk Statement. In the event a Crypto Asset Statement is updated, existing clients of the Filer will be promptly notified through electronic disclosure on the Filer's Platform, with links provided to the updated Crypto Asset Statement.

Custody of Cash, Crypto Assets and Other Assets

- 40. The Filer will hold client cash in a designated trust account with a Canadian custodian or Canadian financial institution. Despite the forgoing requirement to use a Canadian custodian or a Canadian financial institution, the Filer may hold client cash in a designated trust account with a foreign custodian if a reasonable person would conclude, considering all of the relevant circumstances, including, for greater certainty, the nature of the regulation and the sufficiency of the equity of the foreign custodian, that using the foreign custodian is more beneficial to the client than using a Canadian custodian or a Canadian financial institution.
- 41. The Filer is proficient and experienced in holding Crypto Assets and will establish and will maintain and apply policies and procedures that manage and mitigate custodial risks, including but not limited to, an effective system of controls and supervision to safeguard the Crypto Assets

and a mechanism for the return of the Crypto Assets to clients in the event of bankruptcy or insolvency of the Filer. The Filer also maintains appropriate policies and procedures related to IT security, cyber-resilience, disaster recovery capabilities and business continuity plans.

42. The Filer holds Crypto Assets (i) in an account clearly designated for the benefit of clients or in trust for clients, (ii) separate and apart from the assets of non-Canadian clients, and (iii) separate and apart from its own assets and from the assets of any custodial service provider. The Filer will not pledge, re-hypothecate or otherwise use any Crypto Assets held on behalf of its clients.
43. The Filer has and will retain the services of one or more Acceptable Third-party Custodians to hold not less than 80% of the total value of Crypto Assets held on behalf of clients.
44. The Filer will ensure that each Acceptable Third-party Custodian holds client Crypto Assets in a designated trust account or in an account designated for the benefit of clients. Such account shall be held and designated in such a fashion as to preserve the nature of the trust and to ensure the ability to trace, by equitable or other means, the assets so held in the event of bankruptcy, insolvency, restructuring, or similar activity of the Filer or the Acceptable Third-party Custodian. The terms of the custodian agreement between the Filer and each Acceptable Third-party Custodian will clearly identify that the Crypto Assets are held in trust for the benefit of the Filer's clients and specifies the actions the custodian will take in the event of the insolvency of the Filer. If the Acceptable Third-party Custodian holds the Crypto Assets of the Filer or its affiliates, the Acceptable Third-party Custodian holds those Crypto Assets in a separate account from those Crypto Assets held in trust for the benefit of the Filer's clients.
45. The Filer will conduct due diligence on the Acceptable Third-party Custodians, including reviewing a copy of the SOC 2 Type 1 or SOC 2 Type 2 audit report prepared by the Acceptable Third-party Custodians' auditors and has not identified any material concerns.
46. The Filer has established and will maintain and apply policies and procedures to ensure that
 - (a) Each of the Filer's Acceptable Third-party Custodians holds all Crypto Assets for clients of the Filer in trust in a designated trust account in the name of the Filer, separate and apart from the assets of the Filer's non-Canadian clients, and separate and distinct from the assets of the Filer, the Filer's affiliates and all of the Acceptable Third-party Custodian's other clients.
 - (b) Each of the Filer's Acceptable Third-party Custodians maintains an appropriate level of insurance for Crypto Assets held by the Acceptable Third-party Custodian. The Filer has assessed the Acceptable Third-party Custodian's insurance policy and has determined, based on information that is publicly available and on information provided by the Acceptable Third-party Custodian and considering the controls of the Acceptable Third-party Custodian's business, that the amount of insurance is appropriate.
 - (c) Each of the Filer's Acceptable Third-party Custodians has established and applies policies and procedures that manage and mitigate the custodial risks, including, but not limited to, an effective system of controls and supervision to safeguard the Crypto Assets for which it

acts as custodian and to mitigate security breaches and cyber incidents. The Filer's Acceptable Third-party Custodian has established and applies written disaster recovery and business continuity plans.

47. The Filer will establish, and will maintain and apply, policies and procedures that are reasonably designed to ensure the Filer's Acceptable Third-party Custodian's records related to Crypto Assets that the Acceptable Third-party Custodian holds in trust for clients of the Filer are accurate and complete.
48. The Filer will provide an authorization and direction in a form acceptable to the Principal Regulator for the Principal Regulator to obtain information directly from each of the Filer's Acceptable Third-party Custodians.

Insurance

49. The Filer will establish, and will maintain and apply, policies and procedures that are reasonably designed to ensure that any third-party insurance obtained by the Filer includes coverage for the Crypto Assets held by the Filer in cold and hot storage in the event of loss or theft in accordance with the terms of the insurance policy in question.

Confidentiality of Clients' Order and Trade Information

50. The Filer has established and will maintain and apply policies and procedures to safeguard the confidentiality of client information, including information relating to their trading activities.

Books and Records

51. The Filer keeps books and records and other documents to accurately record its business activities, financial affairs and client transactions, and to demonstrate the Filer's compliance with applicable requirements of securities legislation as if the Filer were a registered firm, including but not limited to:
 - (a) a record of all clients and prospective clients granted or denied access to the Filer's Platform;
 - (b) daily trading summaries of all Crypto Assets traded, with transaction volumes and values;
 - (c) records of all orders and trades, including the price, volume, times when the orders are entered, matched, cancelled or rejected, and the identifier of the client that entered the order or that was counterparty to the trade; and
 - (d) records of assets held on behalf of clients, including the location of such assets, with such assets regularly reconciled to the records of the Acceptable Third-party Custodians or to the assets held by the Filer.

Reporting Requirements

52. The Filer will promptly notify the Principal Regulator of any of the following:

- (a) any material system failure involving the Filer's business or involving the business of an affiliate of the Filer and, if applicable, any clearing and settlement services, including cybersecurity breaches, that has a material impact on its Canadian clients;
- (b) any material system failure involving the services of an affiliate of the Filer, and if applicable, any clearing and settlement services of those entities, including cybersecurity breaches, that impacts the Filer's Canadian clients;

- (g) the appointment of a receiver or the making of any voluntary arrangement with creditors.

53. In addition to any other reporting required herein, the Filer and its applicable affiliates and control person(s) will provide to the Principal Regulator, on a timely basis and on demand, any report, data, document or information that the Filer and its applicable affiliates and control person(s) have available or would be reasonably expected to have available regarding the Filer's business, including regarding its information technology system, software, any intra-company arrangement or services, the marketplace service and, if applicable, any clearing and settlement services provided to Canadian clients that may be reasonably requested by the Principal Regulator from time to time. Unless otherwise prohibited under applicable law, the Filer will share with the Principal Regulator information relating to regulatory and enforcement matters that will materially impact its business, including the marketplace service or any clearing and settlement services provided to the Canadian clients.

2. Unless the Principal Regulator has provided its prior written consent, the Filer will offer clients the Staking Services only for (i) crypto assets of blockchains that use a proof of stake consensus mechanism and (ii) the staked crypto assets that are used to guarantee the legitimacy of new transactions the Validator adds to the blockchain.

Disclosure

Staking Services in plain language, which will include, at a minimum:

- (e) the general risks related to staking and any risks arising from the arrangements used by the Filer to offer the Staking Services (e.g., reliance on third parties; risk of loss due to technical errors or bugs in the protocol; hacks or theft from the crypto assets being held in hot wallets, etc.) and how any losses will be allocated to clients;

- (a) that the staked Crypto Assets may be subject to a Lock-up Period and, consequently, the client may not be able to sell or withdraw their Crypto Assets for a predetermined or unknown period of time, with details of any known period, if applicable;
- (b) that given the volatility of Crypto Assets, the value of a client's staked Crypto Assets when they are able to sell or withdraw, and the value of any Crypto Assets earned

- (c) through staking, may be significantly less than the current value;

 - (e) that there is no guarantee that the client will receive any rewards on the staked Crypto Assets, and that past rewards are not indicative of expected future rewards;
 - (f) whether rewards may be changed at the discretion of the Filer;
 - (g) unless the Filer guarantees any Crypto Assets lost to slashing, that the client may lose all or a portion of the client's staked Crypto Assets if the Validator does not perform as required by the network;
 - (h) if the Filer offers a guarantee to prevent loss of any Crypto Assets arising from the Staking Services, including due to slashing, any limits on that guarantee and requirements for a client to claim under the guarantee; and

Custody of Staked Crypto Assets

17. The Filer or its custodians will remain in possession, custody and control of the staked Crypto Assets at all times.
18. In addition to the requirements set out in paragraph 42 of Schedule I, the Filer will hold the staked Crypto Assets for its clients in one or more omnibus staking wallets in the name of the Filer separate and distinct from the Crypto Assets held for its clients that have not agreed to staking those specific Crypto Assets.
19. The Filer will establish policies and procedures that manage and mitigate custodial risks for staked Crypto Assets, including but not limited to, an effective system of controls and supervision to safeguard the staked Crypto Assets.
20. If the Filer permits clients to remove Crypto Assets from the Staking Services prior to the expiry of any Lock-up Period, the Filer will establish and apply appropriate liquidity management policies and procedures to fulfill withdrawal requests made, which may include using the Crypto Assets it, or another Payward Group entity, holds in inventory. The Filer acknowledges that it holds Crypto Assets in trust for its clients and will not use Crypto Assets of those clients who have not agreed to stake those Crypto Assets for fulfilling such withdrawal requests.
