2. This Dyson appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or reasoning capabilities, or lack of experience and knowledge, only if they have been given supervision or instruction by a responsible person concerning use of the appliance in a safe way and understand the hazards involved. Cleaning and user maintenance should not be performed by children without supervision.
3. Do not allow to be used as a toy. Close attention is necessary when used by or near children. Children should be supervised to ensure that they do not play with the appliance.
4. **WARNING:** Do not use this appliance near bathtubs, showers, basins or other vessels containing water.

5. If the supply cable is damaged, it must be replaced or repaired by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
6. This appliance has a non-self resetting thermal cut-out safety device to prevent overheating.

If your appliance cuts out, unplug it from the mains supply socket and leave to cool.

7. **CAUTION:** In order to avoid a hazard due to inadvertent resetting of the thermal cut-out, this appliance must not be supplied through an external switching device, such as a timer, or connected to a circuit that is regularly switched on and off by the utility company, or plugged into any socket where the electrical supply is unstable or likely to be turned off.
8. When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.
