

# SARS-CoV-2 Antigen Rapid Test (Self-Testing) Guide

This guide will help you register your kit, upload your results and download your official certificate.

## Register your test kit

- 1 If you haven't already, create a Qured account. Remember your login details as you will need them in all stages of your test.
- 2 In your Qured account, register the test kit by entering the unique code (QURED followed by seven digits, e.g. QURED1234567) provided in your confirmation email and enter all other required information. Please ensure that the details you use to register your test(s) are consistent with the details on any other travel documents.
- 3 Now that you've successfully registered your kit, you'll need to ensure you have checked your destination requirements and take your test within the required timeframe. For Fit to Fly/Return to the UK/USA tests, failure to do so may result in your results being rejected by your airline/destination.
