6.WARNING: To avoid possible electrical shock, do not immerse the light in water. If the light falls into the water, or otherwise becomes wet, do not touch it until you have unplugged it. Basic safety precautions should be observed including the following:

①Read and follow this user manual strictly.

②DANGER-To avoid possible electric shock, special care should be taken. For each of the following situations, do not attempt to repair yourself; return the light to an authorized service facility for service or discard the light.

A.If the light falls into the water, do not touch it. First unplug it, then retrieve it. If electrical components of the light get wet, unplug the light immediately.

B.Carefully examine the light after installation. It should not be plugged in if there is water on parts not intended to be wet.

C.Do not operate the light if it has a damaged cord or plug, if it is malfunctioning or if it is dropped or damaged in any manner. The power cord of this light cannot be replaced, if the cord is damaged, the light should be discarded.

D.To avoid the possibility of the light plug getting wet, position aquarium stand and tank to one side of a wall mounted receptacle to prevent water from dripping onto the receptacle or plug. A "drip loop", shown in the figure below, should be arranged by the user for each cord connecting the light to the receptacle. The "drip loop" is the part of the cord below the level of the receptacle, or the connector. If an extension cord is used, to prevent water traveling along the cord and coming in contact with the receptacle. If the plug or receptacle does get wet, DO NOT unplug the cord. Disconnect the fuse to the circuit breaker that supplies power to the light. Then unplug and examine for the presence of water in the receptacle.

POWER CORD

DRIP LOOP

③ Close supervision is necessary when the light is used near children.

④To avoid injury, do not contact moving parts or hot parts and so on.

⑤Make sure the light is securely installed before operating it.

⑥Read and observe all the important notices on the light.

⑦If an extension cord is necessary, a cord with a proper rating should be used. A cord rated for less amperes or watts than the appliance rating may overheat. Care should be taken to arrange the cord so that it will not be tripped over or pulled.

⑧The light is intended FOR HOUSEHOLD USE ONLY.

⑨SAVE THIS USER MANUAL.
