12/24V DC mini refrigerator offers excellent cooling performance for compact kitchen through multiple combination option. Advanced compressor technology keeps your food fresh with super low energy consumption in whole journey. The refrigerator works well with your battery during off-grid. The interior design maximizes the storage flexibility.

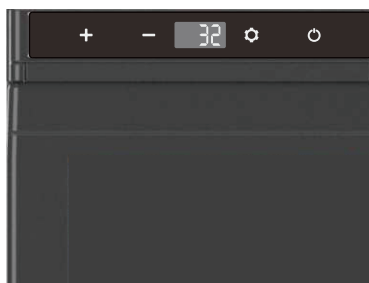

Feature

- ❄ CR series – 2.3/4.6 cu.ft. smart storage refrigerator
- ❄ Combination Refrigerator/Freezer or Solo Refrigerator
- ❄ Digital display control panel
- ❄ Left or right door open for option
- ❄ Door latch to ensure door close during movement
- ❄ Removable door bins for easy cleaning
- ❄ Great performance with optimized power consumption
- ❄ Stackable design for large capacity demand
- ❄ Easy kitchen cabinet installation
- ❄ Three stages battery low voltage protection
- ❄ Multiple colors for door skin
- ❄ LG compressor for superior performance
- ❄ Replaceable gasket for easy cleaning
