Long press the + or - button to adjust the volume,
Short press the + or - button to switch between the previous or next track
Long press the + and - button to switch between Chinese and English voice.

Bluetooth Music Playing

After powering on, select the Bluetooth device "MOON SPEAKER" for pairing on your phone.
After successful pairing, a connection prompt sound will be heard, indicating that the BT connection has been established successfully and you can play music as usual.

Wireless Charging Function

To activate the wireless charging function, the standard cable needs to be inserted into the machine and the other end needs to be inserted into the power adaptor (not included, recommend 9v2a to generate maximum 15W charging efficiency). The phone needs to be placed upright on the holder. (This wireless charging is compatible with most mainstream phones that have wireless charging function on the market. Charging efficiency may vary due to differences in phone size and coil positions.)

Troubleshooting

- **Failed pairing after multiple attempts**
  Turn off both the speaker and the phone, then restart them and make sure the connection name is "MOON SPEAKER".
- **Music playback with intermittent interruptions**
  a. Check if the connection distance is beyond range or if there are obstacles between the speaker and phone;
  b. Check if the phone network is smooth, and if the speaker has low battery.
- **No sound during playback**
  Check if the speaker volume is set to the minimum (press and hold the plus or minus button to adjust the volume).
- **Cannot power on**
  Check if the speaker has power. Plug in the USB charging cable, charge for 2 hours and try again.
  Product Reset
  When turn on, press and hold the power button for 8 seconds to restore to factory setting.

Product charging instruction

a. Please use the standard USB cable connecting to your power adapter for charging.
b. When the battery is low or insufficient, please charge it as soon as possible.

c. Do not use this device in high temperature or high-pressure environments.
d. It is recommended to charge the device once a month if it is not used for a long time to ensure that the battery is fully charged and the device is working properly when needed.

Product name： Moonlight Sensor Light Bluetooth Speaker

Product Size：168X206X110mm	Model ：Y06
Package Size：150X218X152mm	Battery Capacity：1000mAh
Product Weight：280g	Usage Time ：4-6h
Wireless Charging Power：15W	Charging Time：2-3h
Wireless Charging Voltage：5V-9V	Output Power：5W
Input Voltage: 5V-2A	Reception Distance：＜10M
Frequency Response：80HZ-20KHZ	BT Version：5.0

Accessories included

Bluetooth Speakers X1

Data Cable X1

User Manual X1

FCC Statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following twoconditions:(1)this device may not cause harmful interference,and(2)this device must accept any interference received,including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.These limits are designed to provide reasonable protection against harmful interference in a residential installation.This equipment generates,uses and can radiate radio frequency energy and,if not installed and used in accordance with the instructions,may cause harmful interference to radio communications.However,there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception,which can be determined by turning the equipment off and on,the user is encouraged to try to correct the interference by one or more of the following measures:

· Reorient or relocate the receiving antenna.
· Increase the separation between the equipment and receiver.
· Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
· Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
