Installation Steps:

1: Turn off the power.

2: Dismantle mounting bracket subassembly as fig.1, install mounting bracket to J-Box with mounting screws.

3: Move the gear of the 5CCT Switch to the position corresponding to the desired color temperature.

4: Connect the fixture to a suitable ground in accordance with local electrical codes.

5: Connect the White wire to the neutral power line wire with a wire nut.

6: Connect the Black wire to the hot power line wire with a wire nut.

7: Neatly place all wires and wire nut connections inside the J-box.

8: Install canopy to ceiling with decorative nuts.

9: Turn on the power.
