

HiAce

Please Note: information is accurate as at September 2025.

Specification and imagery are indicative and should only be used as a guide. Vehicle and accessory specification, features, colour and trim may differ at the time of vehicle delivery.

OH WHAT A FEELING

You'll feel it with every drive. In every twist and every turn. It's our unwavering commitment to move you, not only today, but well into tomorrow as we relentlessly reimagine the future of mobility.

With our eyes on the horizon, we're committed to creating a future where all of humankind is empowered with the freedom to move.

Work never looked better

HiAce continues to build on its legendary reputation as the work partner that's ready to meet the challenge of any job, now and into the future.

Smoother, safer, more comfortable and with improved performance on the road, HiAce projects more than just professional good looks.

Every element, both inside and out, has been carefully designed to make it more functional

and incredibly versatile. Halogen Daytime Running Lamps ensure you'll be noticed, while the semi-bonnet design allows the engine to sit forward to provide greater driver comfort and better driving stability.

The van variants also feature dual sliding doors and a single sliding door option (LWB only), making it easy to load passengers, or standard AU size pallets (SLWB only) in and out.

You can also choose the option of two outward opening barn doors at the rear to allow greater accessibility and easy loading right up to the rear sill. More than just the ultimate task master, HiAce is ready to work harder, smarter and any way you choose. Work never looked better.

Jump into HiAce and you'll discover the perfect mobile workspace that's filled with well-considered features and creature comforts.

The light-filled and ergonomically inspired layout places all the controls and handy storage spaces just where you need them to make your time travelling in the HiAce as convenient and practical as possible.

Locating the engine forward of the cabin ensures extra quietness, as does the increased sound absorbing material surrounding the engine, resulting in reduced gear noise.

With a comprehensive selection of steering wheel mounted controls, including telephone, audio, adaptive cruise control, voice control and Lane Departure Alert, you've got virtually all you need right at the tip of your fingers.

The windows and surrounds have been carefully designed to provide maximum vision and light to brighten the entire cabin space.

HiAce, it's a first-class space to work.

Making the
tough jobs easy

When there are jobs to be done, you need a partner that's built to give you everything it can, for as long as it's required. With the proven reliability and power of a 2.8L turbo diesel engine, HiAce delivers all the muscle you could need when it's time to swing into action.

The intelligent 6-speed manual transmission, available on HiAce LWB diesel, provides excellent start-off and uphill performance at cruising speeds as well as automatically balancing the engine speed to ensure the smoothest possible gear changes.

The stop and start system on HiAce automatically stops the engine when sitting idle at traffic lights or in congestion, and then restarts the engine automatically when the foot is removed from the brake. Manual transmission variants will restart when the driver presses the clutch.

Working with effort-reducing technology is no longer the exclusive domain of office dwellers. HiAce is equipped with all the smart thinking you need to make a long day a little lighter.

The 8" touchscreen display includes embedded satellite navigation system¹ to keep you moving around town. The audio unit lets you connect compatible smart phones to use wireless Apple CarPlay^{2,3} and Android Auto^{TM,2,4}. The 8" screen has a glass panel with anti-reflective coating and symmetrical framework with important buttons closer to the driver to improve operability and enhance driver safety.

The 7" colour Multi Information Display provides you with high-definition valuable trip information including fuel efficiency, distance travelled and outside temperature.

Travel safely to work and home

Long days mean you need an environment to support your mental and physical wellbeing to help you get the job done safely.

Every HiAce comes with the assurance of advanced safety technology including a range of innovative features designed to protect you as you go about your business.

Rear Cross Traffic Alert⁵ is a driver-assistance feature designed to help prevent collisions when reversing out of parking spaces. Using sensors typically located in the rear bumper, the system detects vehicles, cyclists or pedestrians that may be hidden from the driver's sight. If a potential hazard is detected, it issues audible and/or visual

warnings. This feature enhances safety, especially in busy car parks when visibility is limited.

A reversing camera⁵ with guide lines is a safety feature to help back up with confidence and accuracy. When the vehicle is put in reverse, the camera displays a live video feed of the area behind the car on the 8" touchscreen display. Overlaid on the image are dynamic or static guide lines that show the vehicle's projected path. These lines help drivers judge distance and alignment, making it easier to park, avoid obstacles, and navigate tight spaces. This feature significantly improves visibility and reduces the risk of collisions while reversing.

Front and rear parking sensors are driver-assistance features that help detect objects close to the vehicle while parking or manoeuvring at low speeds. These sensors use ultrasonic technology to monitor the area in front of and behind the car, alerting the driver with a series of beeps that increase in frequency as the vehicle gets closer to an object. The Blind Spot Monitor⁵ warns you if a vehicle is in your blind spot on the open road. This is standard in every HiAce.

C Blind Spot Monitor – downward visibility mirror is only available on SLWB Van and Commuter

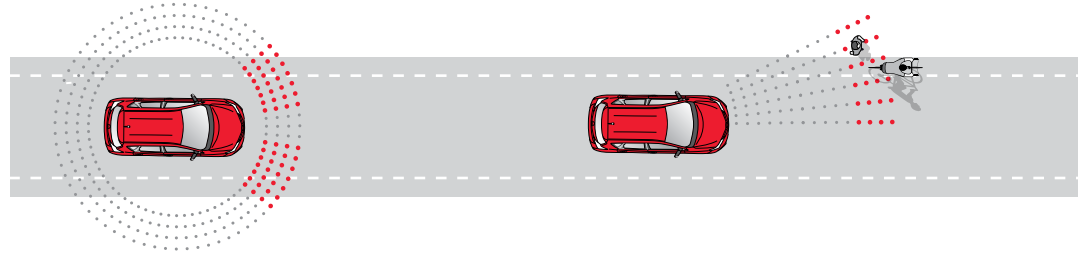

Toyota Safety Sense

At Toyota, we believe it's simply not enough to say "safety comes first" – we prove it. That's why, in our on-going pursuit of creating ever safer cars, now and into the future, we developed Toyota Safety Sense (TSS). A suite of active safety features designed to help support safe driving and help protect you and your passengers.

HiAce features the latest TSS driver assistance-technologies, aiming to recognise and help avoid certain hazards and collisions, giving you and your passengers greater peace of mind wherever you're headed. Please visit toyota.com.au for vehicle and specification information.

A graphic consisting of a black hexagon with the words "Toyota Safety Sense" in white, set against a background of overlapping blue and yellow triangles.

Toyota
Safety
Sense

Lane Departure Alert with Lane Trace Assist

Lane Departure Alert⁵ with Lane Trace Assist⁵ is a safety feature designed to help keep the vehicle centered in its lane and prevent unintentional drifting. Using a forward-facing camera, Lane Departure Alert⁵ detects visible lane markings and alerts the driver with visual and audible warnings if the vehicle begins to stray without the turn signal activated, sometimes providing gentle steering assistance to help correct the path. When active alongside adaptive cruise control, Lane Trace Assist⁵ offers continuous steering support to help keep the vehicle smoothly centered within its lane, even around curves or in stop-and-go traffic, enhancing driver comfort and reducing fatigue on longer journeys.

Pre-Collision Safety system with pedestrian and daytime cyclist detection

Pre-Collision Safety⁵ system with pedestrian detection and daytime cyclist detection, was developed to help reduce the likelihood of a frontal collision with cars, cyclists or pedestrians. Forward Collision Warning⁵ uses radar to help alert you to imminent threats. During braking, Brake Assist⁵ can help slow the vehicle by applying additional force. If the driver has not applied the brakes and if the system detects a collision may be unavoidable, Autonomous Emergency Braking⁵ can apply the brakes to help mitigate the impact.

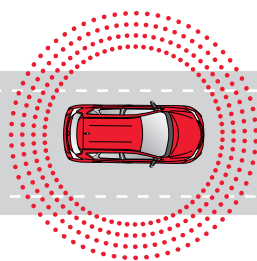

Toyota Safety Sense

• • • • •

Road Sign Assist (speed signs only)

Road Sign Assist⁵ (speed signs only) is designed to detect certain speed signs in front of you as you're travelling, and display them on the Multi Information Display.⁵ If you happen to be driving over a recognised speed limit, an audible and visual warning will be displayed, reminding you to slow down.

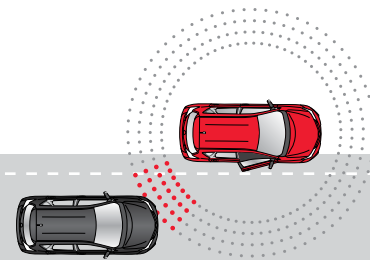

Emergency Driver Support System

An Emergency Driver Support System⁵ is an advanced safety feature designed to assist if the driver becomes unresponsive while driving. Using a combination of sensors and driver monitoring technology, the system can detect a lack of steering input, inattentiveness or a medical emergency. If the driver doesn't respond to warnings, the system can gradually slow down the vehicle, activate the hazard lights and bring it to a controlled stop.

Automatic High Beam

Using a camera to sense either approaching headlights or the taillights ahead, Automatic High Beam⁵ aims to help maintain safe and considerate driving by switching between high and low beam as needed.

Safe Exit Assist

Safe Exit Assist⁵ is a safety feature designed to prevent accidents when vehicle occupants are opening their doors to exit. Using sensors, it detects approaching vehicles, cyclists, or other road users from the rear. If a potential collision is detected the system issues visual and audible warnings to alert passengers before they open the door.

Toyota Connected Services⁹

• • • • •

1 year complimentary access⁶

Driving should be easy, enjoyable and safe. That's why inside every connected Toyota you'll find a suite of advanced features focused on safety, convenience and a better driving experience.

To learn more, please visit toyota.com.au/connected

myToyota Connect⁷

In a world driven by information, the myToyota Connect app allows you to seamlessly integrate your smartphone with Toyota Connected Services. You can receive diagnostic details including the odometer and fuel level, as well as access to your Owner's Manual. You can also see travel details,⁸ such as time and distance on the road plus the last known location and parking spot.

Automatic Collision Notification¹⁰ (ACN)

Every second counts when assistance is needed the most. Should an airbag deploy or a severe collision be detected by the impact sensors, Toyota Automatic Collision Notification (ACN) is designed to automatically connect with our 24/7 Toyota Emergency Assistance call centre. If you're unable to communicate or respond, we'll immediately contact emergency services and direct them to your vehicle's location.

Stolen Vehicle Tracking⁹ (SVT)

Should the unthinkable unfortunately occur, you'll have the peace of mind of knowing Toyota Stolen Vehicle Tracking (SVT) is designed to help find your missing vehicle. After filing a stolen vehicle report to the police, and providing your VIN and police report number to a Toyota Stolen Vehicle Assistance agent, the agent will validate your SVT subscription and initiate tracking. They can then provide updates to the police to assist with the potential recovery of your vehicle.

SOS Emergency Call¹¹

If the situation ever arises where you require urgent assistance, it's comforting to know help can be available at the touch of a button. In the event of a genuine emergency, you can speak directly to a Toyota Emergency Assistance agent, 24/7, simply by pressing the dedicated SOS button in your vehicle. If required, they can direct emergency services to your vehicle's location.

Toyota Halo¹²

Get a clearer view of your fleet with Toyota Halo, Toyota's genuine fleet management software.

A connected Toyota fleet can help your business to improve its efficiency, security and safety. Using intelligent vehicle telematics, Toyota Halo gives you a digital data snapshot of your fleet, that you can access anytime, anywhere from your computer's web browser. Toyota's latest innovation represents a technological shift in fleet management that you can take advantage of in a HiAce to benefit your business.

To learn more, please visit toyota.com.au/fleet/halo-telematics

Driver safety

Know where your drivers are and keep them safe on every journey. With Toyota Halo, you gain the ability to monitor incidents, location, speed and driving behaviour, helping you to protect your fleet and improve safety with every drive. Notifications are sent in the event of harsh braking, rapid acceleration and speeding to help lower risks and keep you informed.

Telematics powered by Toyota

As a Toyota Genuine software, Toyota Halo offers seamless compatibility with your HiAce fleet, without the need of any third-party hardware, meeting your fleet's existing warranty¹⁵ specifications and providing you with ongoing support directly from our Toyota Halo Help Centre or Dealership Network.

Vehicle utilisation

No matter the size of your business, Toyota Halo puts you in the driver's seat of your fleet. Every HiAce with Toyota Halo offers fleet information to help you make better decisions, so you're saving time, fuel, and money. This software can help reduce operating costs by providing clear route visibility as well as odometer readings, fuel levels, engine and health alerts and more.

Fleet and workforce planning

Whether you need quick insights or are planning for the future, Toyota Halo helps you optimise your time on the road. A fleet management dashboard gives you even more control with accurate reporting tools, detailed fleet maps and trip history to help you plan your fleet efficiently. That's the power of choosing Toyota Halo for your fleet needs.

Fit for purpose

Our hassle-free French Vanilla is the perfect match to pair with your branding, or to simply stand out on the road. Enjoy the comfort of Grey fabric interior in all HiAce models.

Unlock it all

When you join the Toyota family, you get so much more than a new car feeling. You unlock a whole range of benefits to keep you moving now and well into the future.

Discover your Toyota lifetime of advantages at toyota.com.au/owners

Toyota Genuine Accessories¹⁶

Developed alongside the vehicle, this unique advantage allows Toyota to design accessories, so they integrate harmoniously with the vehicle structure and safety systems. For more information, visit toyota.com.au/accessories

Toyota Service Advantage¹⁷

We'll keep the cost of your standard logbook service at a capped price for up to your first 3 or 5 years on the road, depending on the vehicle model. To find out your low capped service price, visit toyota.com.au/owners/service/service-pricing-calculator

Toyota Genuine Insurance¹⁸

With Toyota Genuine Insurance you're not alone. Over 350,000* Toyota owners have made the same choice because they know their Toyota's in safe hands. For more information, visit toyotainsurance.com.au

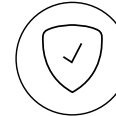

Toyota Access

Offering flexible finance options, lower monthly repayments¹⁹ and a Guaranteed Future Value,²⁰ a Toyota Access Loan means you can drive the Toyota you want today, knowing the future is taken care of. When your loan ends, you have options to trade, keep or return your vehicle. For more information, visit toyota.com.au/toyota-access

Toyota Certified Pre-Owned Vehicles

Enjoy the reassurance that comes with a Toyota Certified Pre-Owned Vehicle. Including an additional 1-year Toyota-backed warranty,²¹ full-service history and 90-point inspection by Toyota Technicians. For more information, visit toyota.com.au/certified

Toyota Warranty Advantage²²

Stick to your service schedule, and we'll extend your engine and driveline warranty from five to seven years, so you can drive stress-free for longer. For more information, visit toyota.com.au/owners/warranty

Disclaimers and Notice

1. Coverage varies based on vehicle location.
2. Requires compatible device, USB connection or Bluetooth® connection for vehicles fitted with wireless CarPlay,® mobile data, network reception and GPS signal. Mobile usage at user's cost. Apps subject to change. For details see toyota.com.au/connected
3. CarPlay® is a trademark of Apple, Inc. registered in the U.S. and other countries.
4. Android Auto™ is a trademark of Google LLC.
5. Driver assist feature. Only operates under certain conditions. Check your Owner's Manual for explanation of limitations. Please drive safely.
6. Complimentary period ends 1 year from delivery date. Fees may apply thereafter. See toyota.com.au/connected/plans-packages. Requires activated DCM (until the earlier of 2033 or Telstra 4G sunset), compatible device, app installation/connection, third party info, mobile data, Australian network reception, GPS signal, enabled push notifications and other factors outside Toyota's control which can limit functionality. Mobile usage at user's cost. Features vary depending on vehicle model and subscription choice, and subject to change. For details see toyota.com.au/connected/connect-app
7. Features depend on 3G/4G enabled DCM (available until the earlier of 2033 or Telstra 4G sunset), third party information, GPS signal strength, Australian mobile network coverage, compatible device, mobile data (at user's cost) and other factors outside Toyota's control which can limit functionality of system and may be subject to change. See your Owner's Manual or toyota.com.au/connected. Please drive safely. All images indicative only.
8. Not available on all Connected Vehicle models. Please check toyota.com.au/connected to confirm availability. Recent trips process may take up to 24hrs (or longer) to appear in the myToyota Connect App. For more details, see: toyota.com.au/connected/driving-insights/recent-trips-drive-pulse
9. SVT – Not available outside Australia, if service disabled or terminated, or after 2033/ Telstra 4G sunset (whichever comes first). Dependent on sufficient battery power, 3G/4G enabled DCM, GPS signal strength, mobile network coverage, operational related components and other factors outside Toyota's control which can limit the ability or functionality of system. Owner/driver required to obtain Police report. Vehicle location information, if available, only provided to Police. Vehicle recovery not guaranteed. For details, visit toyota.com.au/connected/faq-support
10. ACN – Driver assist feature only. Not a substitute for safe driving practices. Not available outside Australia, if service disabled or terminated, or after 2033/Telstra 4G sunset (whichever comes first). Only activates if vehicle's DCM detects airbag deployment or impact sensor notification. Dependent on 3G/4G enabled DCM, GPS signal strength, mobile network coverage, operational related components and other factors outside Toyota's control which can limit the ability or functionality of system. Check your Owner's Manual or toyota.com.au/connected for explanation of limitations. Please drive safely.
11. SOS – Driver assist feature only. Not a substitute for safe driving practices. Not available outside Australia, if service disabled or terminated, or after 2033/Telstra 4G sunset (whichever comes first). Only operates if vehicle's SOS button is pressed and vehicle ignition is on. Dependent on 3G/4G enabled DCM, GPS signal strength, mobile network coverage, call centre capabilities and other factors outside Toyota's control which can limit ability or functionality of system. Check your Owner's Manual or toyota.com.au/connected for explanation of limitations. Please drive safely.
12. Subscription-based. For Toyota business customers only. Requires activated DCM (until the earlier of 2033 or Telstra 4G sunset), compatible device, app installation/ connection on, third party info, mobile data, Australian network reception. GPS signal, enabled push notifications and other factors outside Toyota's control which can limit functionality. Mobile and data usage at user's cost. Features vary depending on vehicle model and subscription choice, and subject to change. For details and T&Cs see toyota.com.au/fleet/halo-teleatics
13. Toyota Genuine Parts/Accessories purchased at and fitted to a Toyota vehicle by a Toyota Dealer are warranted for the remainder of that vehicle's Toyota Warranty Advantage period, or 2 years from installation (whichever is greater). Genuine Parts/Accessories purchased from, but not fitted by, a Toyota Dealer are warranted for 2 years from date of purchase. See toyota.com.au for T&Cs. This warranty does not limit and may not necessarily exceed your rights under the Australian Consumer Law.

18. Terms and conditions apply. This advice is general in nature and does not take into account your objectives, financial situation or needs. Before making a decision to purchase any of the insurance products you should consider the appropriateness of the advice taking into account your own objectives, financial situation and needs and refer to the current PDS and Target Market Determination for the relevant product available from participating Dealers, via our website at toyotainsurance.com.au or by calling 137 200. Toyota Car Insurance purchased in a dealership or via the Toyota Insurance National Customer Solutions Centre is facilitated by Toyota Finance Australia Limited ABN 48 002 435 181, AFSL and Australian Credit Licence 392536 as agent for, and on behalf of, the insurer. The insurer of Toyota Car Insurance is Aioi Nissay Dowa Insurance Company Australia Pty Ltd ABN 11 132 524 282, AFSL 443540 (Adica). If Toyota Car Insurance is purchased online, the insurer and insurer is Adica. *This figure represents the total number of Toyota vehicles that have been insured by Toyota Insurance as at November 2021.
19. Lower monthly repayments compared to a similar term with no Guaranteed Future Value (GFV) or equivalent balloon final payment. Total interest charges will be higher if a GFV or balloon final payment is selected.
20. The Guaranteed Future Value (GFV) is the minimum value of your Toyota at the end of your finance contract, as determined by Toyota Finance. If you decide to return your car to Toyota Finance at the end of your term, Toyota Finance will pay you the agreed GFV, which will be put against your final payment subject to fair wear and tear conditions and agreed kilometres being met. Terms, conditions, fees, charges and lending criteria apply. Approved applicants only. Toyota Finance is a division of Toyota Finance Australia Limited ABN 48 002 435 181, AFSL and Australian Credit Licence 392536.
21. Applicable to pre-owned vehicles purchased as a Toyota Certified Pre-Owned (TCPO) vehicle on or after 01/01/2022. TCPO 2022 Warranty expires 1 year after sale, or 1 year after the current New Vehicle Warranty expires (if applicable), or 10 years from date of registration in original owner's name, or at 160,000kms (whichever occurs first). TCPO Warranty does not apply to vehicles used for commercial purpose (eg taxi or rideshare). See toyota.com.au/tcpowarranty for T&Cs. This warranty does not limit and may not necessarily exceed your rights under the Australian Consumer Law.
22. The Toyota Warranty Advantage Extended Engine and Driveline coverage is for 7 years from delivery, provided your vehicle is properly serviced and maintained per its Warranty and Service Book. Excludes vehicles used for a commercial purpose, such as taxis, hire vehicles and vehicles transporting people or goods for payment including rideshare. See toyota.com.au/owners/warranty for details. This warranty does not limit and may not necessarily exceed your rights under the Australian Consumer Law.
