Installation Steps

01 Install the Light Bulb

Install the light bulb and turn on the power.

Note: 1. Make sure that the power is off when installing, removing, or examining the light bulb.

2. Do not use this product with a dimmer (e.g. a desk lamp with a dimmer switch) to avoid damaging the product.
3. Do not use this product in a damp environment.
4. Do not use the light bulb in a narrow and ill-ventilated lamp shade as it may cause weak signals or heat dissipation issues.

CAUTION - RISK OF ELECTRIC SHOCK. Do not use if outer lamp envelope is damaged or broken

02 Download the App

Search Yeelight in an app store or scan the QR code below to download the Yeelight App.

03 Use the App

Open the app and operate it in accordance with the instructions provided in the app.

* Make sure that the Wi-Fi network is available and is able to access the Internet properly.

04 Apple HomeKit Smart Control

1. Open the Home app on your iPhone or iPad.
2. Tap "Add Accessories" and follow the instructions in the app to scan the QR code on the product base, or enter the 8-digit setup code above the QR code to grant the Apple Home app access.

* Make sure a Wi-Fi network with Internet access is available (this product does not support 5G networks).

To control this HomeKit-compatible accessory, it is recommended that you use iOS 9.0 or above.

The HomeKit setup code is listed on the product base, do not lose it. After restoring factory settings, you will need the HomeKit setup code again to add the accessory.

iPad and iPhone are the trademarks of Apple Inc., and they are registered in the United States and other countries.

How to Restore to Factory Settings

Use the light switch to turn the light bulb on and off five times (on for two seconds, off for two seconds). For the light bulb (tunable white version), it will be in breathing mode. After 5 seconds, it will automatically reset itself. For the light bulb (color version), it will display a circling multi-colored effect, then automatically reset itself and display a white light after five seconds. This indicates that the light bulb has been restored to its factory settings.
