- Spacious bottom freezer with easy-slide internal drawers to separate storage

DIMENSIONS

Height	1720 mm
Width	680 mm

Depth 695 mm

FEATURES & BENEFITS

Easy cleaning

No more permanent dirty marks with our EZKleen feature for stainless steel fridges. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.

Simple Storage

This refrigerator is designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Our flexible shelving also gives you more storage options.

Design Quality

Our fridges are designed and built using quality materials. We use real stainless steel on our fridges and solid glass for shelving as well as in our wine cabinet doors.

Clever Energy

Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means it uses the energy it needs without compromising on food care.

Easy Living

These refrigerators adapt to suit your lifestyle with accessible SmartTouch controls, flexible shelving and storage options, and slide-out bins and trays.

Easy Cleaning

Removable, spill-safe glass shelves are easy to clean and contain drips and spills. Storage bins and EZKleen stainless steel doors just need a wipe to keep spotless.

Humidity Control

Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.

SPECIFICATIONS

Capacity

Total gross capacity	442 L
Volume	413 L
Volume freezer	119 L
Volume refrigerator	294 L

Consumption

Energy rating	3 star
Energy usage	428kWh/year

In-use energy carbon emissions estimate **261.2kgCO2e/year**

Features

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
