How to use this guide:

- 1 Find your vehicle make, model* and number of doors
- 2 Find your vehicle year

What will the SportRack Fit Guide tell you?:

- a Provides you with the correct SportRack Roof Rack System part number for your vehicle
- b If your vehicle will need a SR1116 Short Roof Adapter (SR1116 sold separately)
- c The maximum weight your SportRack Roof Rack System will hold
- d What accessories will fit your SportRack Roof Rack System (sold separately)

Please read appropriate Fit Tips on page 34 before installing your SportRack Roof Rack System

*Additional vehicle fits may be found at www.sportrack.com.

If not listed, no SportRack Roof Rack System is currently available for that vehicle

Comment utiliser ce guide d'achat :

- ① Trouvez la marque, le modèle* et le nombre de portes de votre véhicule
- ② Trouvez l'année de votre véhicule

Que vous dit le Guide d'achat SportRack?

- a Vous fournit le numéro de pièce du système de support de toit SportRack convenant à votre véhicule
- b Si votre véhicule a besoin de l'adaptateur pour toit court SR1116 (SR1116 vendu séparément)
- c Le poids maximal que votre système de support de toit SportRack pourra supporter
- d Quels accessoires vont s'adapter à votre système de support de toit SportRack (vendus séparément)

⚠ Veuillez lire les Conseils d'installation appropriés à la page 34 avant d'installer votre système de support de toit SportRack

***Des réglages additionnels pour véhicules sont disponibles à l'adresse www.sportrack.com. Si aucun réglage n'est présenté, aucun système de support de toit SportRack n'est présentement disponible pour ce véhicule**

Cómo usar esta guía:

- ① Busque la marca, el modelo* y el número de puertas de su vehículo
- ② Busque el año de su vehículo

¿Qué encontrará en la Guía de compatibilidad de SportRack?:

- a Encontrará el número de pieza correcto de los sistemas de soporte de techo SportRack para su vehículo
- b Sabrá si su vehículo necesita un adaptador de techo corto SR1116 (el adaptador SR1116 se vende por separado)
- c Conocerá el peso máximo que su sistema de soporte de techo SportRack puede soportar
- d Conocerá los accesorios que se adaptan a su sistema de soporte de techo SportRack (se venden por separado)

⚠ Antes de instalar su sistema de soporte de techo SportRack, lea los Consejos de ajuste de la página 35

***En www.sportrack.com se puede encontrar ajustes de vehículos adicionales. Si no aparece en la lista eso significa que no hay ningún sistema de soporte de techo SportRack disponible para ese vehículo**

FIT TIPS

RESTRICTIONS

- 1a Do not exceed the maximum load recommended by the car manufacturer.
- 1b Do not load large, long, or heavy objects on rack (furniture, boats, sailboards, car top boxes, etc.).
- 1c Skis and/or snowboards only. The 2 door short roof adapter (SR1116) is required for any other loads. See other fit for this vehicle on next line.
- 1d Skis and/or snowboards only.
- 1f For vehicles with factory installed raised* longitudinal roof racks only (*as opposed to flush mounted rails).
- 1g For models with hard top only.
- 1i For vehicles without factory installed roof racks only.

MOUNTING INDICATIONS

- 3b Install hook in groove above door.
- 3c Insert hook between rubber molding and solid roof detail (use a plastic card, calling card type, to gently pry molding away from vehicle).
- 3h Separate rubber molding from roof sill, insert hook on sill, then reposition molding.
- 3m Anchor to roof edge.
- 3u Attachment mechanism must be extremely tight to secure bar on roof.
- 3x Do not overtighten the bars (may damage the roof contour).
- 3y Both sides of the bar must be tightened simultaneously.
- 4i Hold the hook while tightening the mechanism.
- 4j Tighten until the hook deforms. The deformation must be big enough so that the rubbered surface of the hook is fully in contact with the car anchoring surface.
- 4l Insert hook between rubber molding and plastic or chromed molding.
- 4o Tighten bars until they are firm. Overtightening may deform the roof panel of the vehicle.

INSTALLATION POSITIONS

- 5f Install hook at manufacturer's recommended point of attachment.

MISCELLANEOUS

- 9b Sun roof will not open.
- 9d Remove rack when not in use: the rubber door seal or trim may deform under prolonged contact with any roof rack hooks.
- 9f There is another reference on the next line for vehicles with factory installed raised* longitudinal roof racks (*as opposed to flush mounted rails).
- 9o The 2 door short roof adapter (SR1116) is required for any load other than skis and/or snowboards.
- 9q Skis and/or snowboards and bicycles only.
- 10a If your vehicle has factory crossbars, you do not need to purchase an additional rack system.
- 10b Factory crossbars are required to fit boxes and bags to this vehicle. Please contact your auto manufacturer to purchase these crossbars.

CONSEILS D'INSTALLATION

RESTRICTIONS

- 1a Ne pas dépasser la charge maximum prévue par le constructeur du véhicule.
- 1b Ne pas utiliser pour des objets volumineux ou des charges excessives (meuble, planche à voile, valise ou coffre de toit,...).
- 1c Seulement pour skis et/ou planches à neige. L'adaptateur de toit court (SR1116) est requis pour tout autre charge. Consulter l'autre référence pour ce véhicule à la ligne suivante.
- 1d Seulement pour skis et/ou planches à neige.
- 1f Seulement pour véhicules équipés de barres longitudinales d'origine surélevées.
- 1g Seulement pour véhicules munis de toit rigide (hard-top).
- 1i Seulement pour véhicules sans barres d'origine.

DÉTAILS DE MONTAGE

- 3b Accrocher dans la rainure au-dessus de la porte.
- 3c Accrocher entre la garniture de caoutchouc et un appui solide du toit (utiliser si nécessaire une carte de type téléphone pour introduire le crochet ou la contre-patte).
- 3h Écarter la garniture de caoutchouc, installer le crochet sur le longeron puis replacer la garniture.
- 3m Accrocher sur le rebord du toit.
- 3u Serrer très fortement la barre afin d'avoir un bon encrage au toit du véhicule.
- 3x Ne pas serrer les barres au maximum afin de ne pas endommager le toit du véhicule.
- 3y Le serrage doit être effectué simultanément des deux cotés.
- 4i Tenir le crochet bien enfoncé pendant le serrage.
- 4j Serrer jusqu'à ce que la déformation du crochet provoque un contact parfait entre la surface recouverte de l'autocollant de caoutchouc et le plan d'appui sur le véhicule.
- 4l Insérer le crochet entre le joint de caoutchouc et la moulure plastifiée ou chromée.
- 4o Serrer jusqu'à une bonne tenue des barres. Un trop fort serrage pourrait déformer le toit du véhicule.

POSITIONS D'INSTALLATION

5f Installer au point d'ancrage recommandé par le fabricant.

DIVERS

9b Le toit ouvrant ne pourra pas fonctionner.

9d Enlever les barres en cas de non utilisation : le joint de portière ou la garniture en caoutchouc pourrait se déformer en cas de contact prolongé avec les crochets.

9f Il existe une autre référence ci-dessous pour ce véhicule équipé de barres longitudinales d'origine surélevées.

9o L'adaptateur de toit court (SR1116) est requis pour toute charge autre que des skis et/ou planches à neige.

9q Seulement pour skis et/ou planches à neige et vélos.

10a Si votre véhicule est équipé de barres transversales d'origine, vous n'avez pas à acheter de système de support additionnel.

10b Des barres transversales d'origine sont requises pour accueillir des boîtes et des sacs sur ce véhicule. Veuillez communiquer avec le fabricant de votre véhicule pour acheter ces barres transversales.

CONSEJOS DEL AJUSTE

RESTRICCIONES

1a No supere la carga máxima recomendada por el fabricante del coche.

1b No cargue objetos grandes, largos o pesados en el portaequipajes (muebles, botes, tablas de windsurf, baúles de techo, etc...).

1c Sólo esquís y/o snowboards. Para cualquier otra carga se requiere el adaptador (SR1116) para techos pequeños de coches de 2 puertas. Vea otros adaptadores para este vehículo en la línea siguiente.

1d Sólo esquís y/o snowboards.

1f Sólo para vehículos con portaequipajes de techo longitudinales elevados* instalados de fábrica (*en contraposición a los rieles para montaje al ras).

1g Sólo para modelos con techo duro.

1i Sólo para vehículos sin portaequipajes de techo de fábrica.

INSTRUCCIONES DE MONTAJE

3b Instale el gancho en la ranura sobre la puerta.

3c Inserte el gancho entre la moldura de goma y el detalle del techo sólido (use una tarjeta de plástico, del tipo de las tarjetas telefónicas, para separar cuidadosamente la moldura del vehículo).

3h Separe la moldura de goma del panel inferior del techo, inserte el gancho en el panel inferior, y a continuación vuelva a colocar la moldura en su sitio.

3m Fíjelo al borde del techo.

3u El mecanismo de acople debe estar ajustado con una gran firmeza para fijar la barra en el techo.

3x No ajuste las barras excesivamente (podría dañar el contorno del techo).

3y Los dos lados de la barra se deben ajustar simultáneamente.

4i Sujete el gancho mientras ajusta el mecanismo.

4j Ajuste hasta que se deforme el gancho. La deformación debe ser lo suficientemente grande para que la superficie del gancho esté totalmente en contacto con la superficie de anclaje del coche.

4l Inserte el gancho entre la moldura de goma y la moldura de plástico o de cromo.

4o Ajuste las barras hasta que estén firmes. El ajuste excesivo puede deformar el panel del techo del vehículo.

POSICIONES DE INSTALACIÓN

5f Instale el gancho en el punto de anclaje recomendado por el fabricante.

VARIOS

9b El techo solar no se abrirá.

9d Quite el portaequipajes cuando no esté en uso: el sellado de goma o la tapicería de la puerta se pueden deformar tras un contacto prolongado con el gancho del portaequipajes de techo.

9f En la línea siguiente hay otra referencia para vehículos con portaequipajes de techo longitudinales elevados* de fábrica (*en contraposición a los rieles para montaje al ras).

9o Para cualquier otra carga que no sea esquís o snowboards se requiere el adaptador (SR1116) para los techos pequeños de coches de 2 puertas.

9q Sólo esquís y/o snowboards y bicicletas.

10a Si su vehículo cuenta con travesaños de fábrica, no necesita comprar un sistema portaequipajes adicional.

10b Se necesitan los travesaños de fábrica para cargar baúles y bolsos en este vehículo.

Consulte al fabricante de su automóvil para comprar estos travesaños.
