

Medeco Nexgen Collector Key

The Medeco Nexgen heavy duty collector key is strong and smart. The key is designed and built to handle demanding requirements of on-street parking meter collections and maintenance, while providing the intelligence of a stand-alone access control system.

- Heavy duty weather resistant construction
- Key provides all power to the lock, no hard wiring required
- Rechargeable Battery - Up to 8,000 cycles per charge
- Stores access codes for up to 11,000 locks
- Records maximum of 6,000 access audit events
- Programmed for daily activation schedules
- Keys will not operate beyond expiration date and time
