

Scan for support

1 Plug the extender into the socket **near your router** and wait for it to boot up.

2 Pair the extender with your router using method A or B.

A Press the WPS buttons on your router and then the extender, and wait for the LED to light up.

B Connect your computer or phone to the extender's Wi-Fi and set it up in your browser. Follow the steps shown in the pictures.

3 Connect your device to the extended Wi-Fi and try accessing the Internet. By default, the password for the extended network will be the same as the original network.

Note: If you paired the extender with a "IIWUS Mesh" device by pressing the WPS buttons, the Wi-Fi name will be the same as the original Wi-Fi.

4 Relocate the extender between the Wi-Fi coverage area and the area where you want to expand the Wi-Fi signal.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment and it also complies with Part 15 of the FCC RF Rules. This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provided with antenna installation instructions and consider removing the no-collocation statement.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provided with antenna installation instructions and consider removing the no-collocation statement.

Caution!
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

1 Conecte el extensor al enchufe **cerca de su enrutador** y espere a que se inicie.

2 Empareje el extensor con su enrutador usando el método A o B.

A Presione los botones WPS en su enrutador y luego en el extensor, y espere a que se encienda el LED.

B Conecte su computadora o teléfono al Wi-Fi del extensor y configúrelo en su navegador. Sigue los pasos que se muestran en las imágenes.

3 Conecte su dispositivo al Wi-Fi extendido e intente acceder a Internet. De forma predeterminada, la contraseña de la red extendida será la misma que la de la red original.

Nota: Si emparejó el extensor con un dispositivo "IIWUS Mesh" presionando los botones WPS, el nombre de Wi-Fi será el mismo que el de Wi-Fi original.

4 Reubique el extensor entre el área de cobertura de Wi-Fi y el área donde desea ampliar la señal de Wi-Fi.

Canada Statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:
(1) This device may not cause interference.
(2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence. L'exploitation est autorisée aux deux conditions suivantes :
1) L'appareil ne doit pas produire de brouillage;
2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The device meets the exemption from the routine evaluation limits of RSS 102 and compliance with RSS-102 RF exposure, users can obtain Canadian information on RF exposure and compliance.
Le dispositif rencontre l'exemption des limites courantes d'évaluation dans de RSS 102 et la conformité à l'exposition de RSS-102 rf, utilisateurs peut obtenir l'information canadienne sur l'exposition et la conformité de rf.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.
Cet émetteur ne doit pas être Co-placé ou ne fonctionnant en même temps qu'aucune autre antenne ou émetteur. Cet équipement devrait être installé et actionné avec une distance minimum de 20 centimètres entre le radiateur et votre corps.

The device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems.
Les dispositifs fonctionnant dans la bande 5150-5250 MHz sont réservés uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux.
