1. Precautions

1-1. Safety Precautions

Follow these safety, servicing and ESD precautions to prevent damage and to protect against potential hazards such as electrical shock.

1-1-1. Warnings

WARNING For continued safety, do not attempt to modify the circuit board.
Disconnect the AC power and DC power jack before servicing.

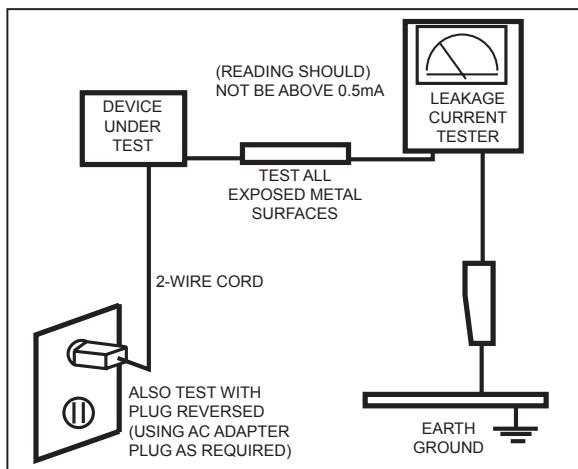

1-1-2. Servicing the LED TV

1. When servicing the LED TV, Disconnect the AC line cord from the AC outlet.
2. It is essential that service technicians have an accurate voltage meter available at all times. Check the calibration of this meter periodically.

1-1-3. Fire and Shock Hazard

Before returning the monitor to the user, perform the following safety checks:

1. Inspect each lead dress to make certain that the leads are not pinched or that hardware is not lodged between the chassis and other metal parts in the monitor.
2. Inspect all protective devices such as nonmetallic control knobs, insulating materials, cabinet backs, adjustment and compartment covers or shields, isolation resistorcapacitor networks, mechanical insulators, etc.
3. Leakage Current Hot Check:

Do not use an isolation transformer during this test.

Use a leakage current tester or a metering system that complies with American National Standards Institute (ANSI C101.1, Leakage Current for Appliances), and Underwriters Laboratories (UL Publication UL1410, 59.7).

4. With the unit completely reassembled, plug the AC line cord directly into a 120V AC outlet. With the unit's AC switch first in the ON position and then OFF, measure the current between a known earth ground (metal water pipe, conduit, etc.) and all exposed metal parts, including: metal cabinets, screwheads and control shafts. The current measured should not exceed 0.5 milliamp. Reverse the power-plug prongs in the AC outlet and repeat the test.

1-1-4. Product Safety Notices

Some electrical and mechanical parts have special safetyrelated characteristics which are often not evident from visual inspection. The protection they give may not be obtained by replacing them with components rated for higher voltage, wattage, etc. Parts that have special safety characteristics are identified by  on schematics and parts lists. A substitute replacement that does not have the same safety characteristics as the recommended replacement part might create shock, fire and/or other hazards. Product safety is under review continuously and new instructions are issued whenever appropriate.

1-2. Servicing Precautions

**WARNING**

An electrolytic capacitor installed with the wrong polarity might explode.

**CAUTION**

Before servicing units covered by this service manual, read and follow the Safety Precautions section of this manual.

**NOTE**

If unforeseen circumstances create conflict between the following servicing precautions and any of the safety precautions, always follow the safety precautions.

1-2-1. General Servicing Precautions

1. Always unplug the unit's AC power cord from the AC power source and disconnect the DC Power Jack before attempting to: (a) remove or reinstall any component or assembly, (b) disconnect PCB plugs or connectors, (c) connect a test component in parallel with an electrolytic capacitor.
2. Some components are raised above the printed circuit board for safety. An insulation tube or tape is sometimes used. The internal wiring is sometimes clamped to prevent contact with thermally hot components. Reinstall all such elements to their original position.
3. After servicing, always check that the screws, components and wiring have been correctly reinstalled. Make sure that the area around the serviced part has not been damaged.
4. Check the insulation between the blades of the AC plug and accessible conductive parts (examples: metal panels, input terminals and earphone jacks).
5. Insulation Checking Procedure: Disconnect the power cord from the AC source and turn the power switch ON. Connect an insulation resistance meter (500 V) to the blades of the AC plug. The insulation resistance between each blade of the AC plug and accessible conductive parts (see above) should be greater than 1 megohm.
6. Always connect a test instrument's ground lead to the instrument chassis ground before connecting the positive lead; always remove the instrument's ground lead last.

1-3. Static Electricity Precautions

Some semiconductor (solid state) devices can be easily damaged by static electricity. Such components are commonly called Electrostatically Sensitive Devices (ESD). Examples of typical ESD are integrated circuits and some field-effect transistors. The following techniques will reduce the incidence of component damage caused by static electricity.

1. Immediately before handling any semiconductor components or assemblies, drain the electrostatic charge from your body by touching a known earth ground. Alternatively, wear a discharging wrist-strap device. To avoid a shock hazard, be sure to remove the wrist strap before applying power to the monitor.
2. After removing an ESD-equipped assembly, place it on a conductive surface such as aluminum foil to prevent accumulation of an electrostatic charge.
3. Do not use freon-propelled chemicals. These can generate electrical charges sufficient to damage ESDs.
4. Use only a grounded-tip soldering iron to solder or desolder ESDs.
5. Use only an anti-static solder removal device. Some solder removal devices not classified as "anti-static" can generate electrical charges sufficient to damage ESDs.
6. Do not remove a replacement ESD from its protective package until you are ready to install it. Most replacement ESDs are packaged with leads that are electrically shorted together by conductive foam, aluminum foil or other conductive materials.
7. Immediately before removing the protective material from the leads of a replacement ESD, touch the protective material to the chassis or circuit assembly into which the device will be installed.

Be sure no power is applied to the chassis or circuit and observe all other safety precautions.

8. Minimize body motions when handling unpackaged replacement ESDs. Motions such as brushing clothes together, or lifting your foot from a carpeted floor can generate enough static electricity to damage an ESD.

1-4. Installation Precautions

1. For safety reasons, more than a people are required for carrying the product.
2. Keep the power cord away from any heat emitting devices, as a melted covering may cause fire or electric shock.
3. Do not place the product in areas with poor ventilation such as a bookshelf or closet. The increased internal temperature may cause fire.
4. Bend the external antenna cable when connecting it to the product. This is a measure to protect it from being exposed to moisture. Otherwise, it may cause a fire or electric shock.
5. Make sure to turn the power off and unplug the power cord from the outlet before repositioning the product. Also check the antenna cable or the external connectors if they are fully unplugged. Damage to the cord may cause fire or electric shock.
6. Keep the antenna far away from any high-voltage cables and install it firmly. Contact with the highvoltage cable or the antenna falling over may cause fire or electric shock.
7. When installing the product, leave enough space (0.4m) between the product and the wall for ventilation purposes. A rise in temperature within the product may cause fire.

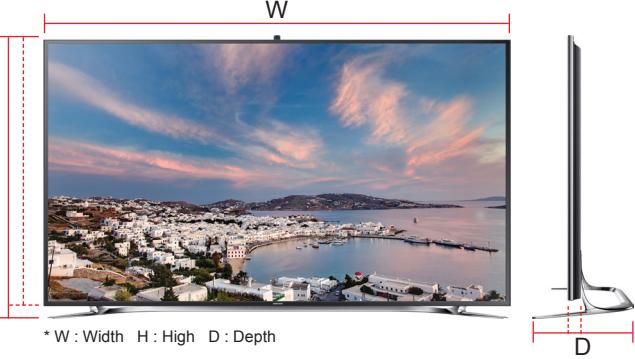

2. Product Specifications

2-1. Feature & Specifications

2-1-1. Features

- **3D:** This new feature enables you to view 3D content.
- **SMART HUB:** This TV features Smart Hub, a multi-purpose entertainment and family center. With Smart Hub, you can surf the web, download applications, and stay in touch with family and friends through social networking services. In addition, you can view or play photo, video, and music files stored on external storage devices. Press the  button to launch Smart Hub. Choose a service using the icons displayed in the top part of the screen. Smart Hub services and functionality include:
 - **Social:** Watch the latest YouTube videos and your and your friends' video posts on Facebook and Twitter. You can also make video calls to friends by the TV camera.
 - **Apps:** Samsung Apps offers an extensive collection of free and paid news, sports, weather, and gaming content you can directly download to and enjoy on your TV.
 - **On TV:** Check a listing of programs that are currently airing or are scheduled to air.
 - **Movies & TV Shows:** Purchase and watch movies and series without a separate external device.
 - **Photos, Videos & Music:** Play back photo, video, and music files from an external storage device.
- **Anynet+ (HDMI-CEC):** This allows you to control all connected Samsung devices that support Anynet+ with your Samsung TV's remote.
- **e-Manual:** Provides a detailed, on-screen user's manual built into your TV.
- **SMART Interaction:** Using this function, you can access and control menu options and functions using motions.
- **Device Manager:** Use the TV features with a USB or Bluetooth keyboard and mouse.
- **MHL & Screen Mirroring:** Displays mobile device screens on your TV using a wired or wireless connection.

2-1-2. Product View

Model	UN**F9000AF

2-4. Viewing the Functions

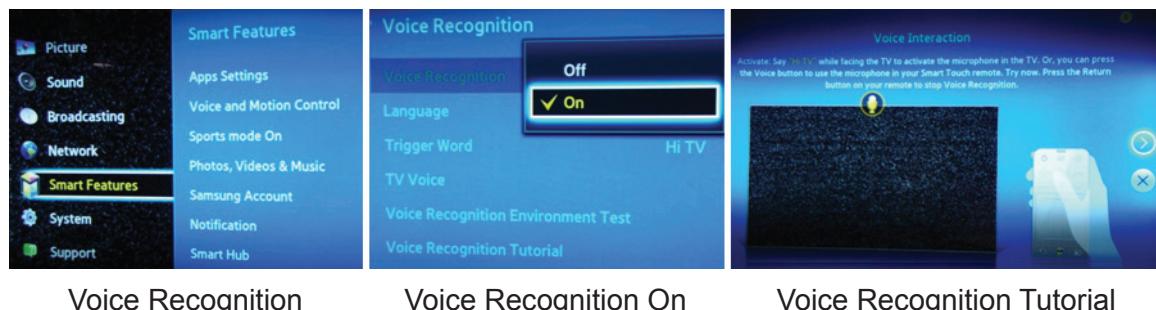

2-4-1. SMART Interaction

■ Voice Recognition

- Conversation with TV by Human Talks.
- TV answer or execute about User's Talks.

Start to use Voice Recognition

Example of Broadcasting & Contents

- Search Program title (on air)
 - Recommend/Search Program (Channel)
 - Search the specific Genre of contents
 - Search the specific Program title
 - Search the program by performer
 - Change Channel by calling the channel
- "What's the title?"
 "Something interesting program?"
 "Which channel is on NEWS?"
 "Find "American Idols"
 "Find channel which Oprah Winfrey appear"
 "FOX, USA Network, CWTY, NBC, ..."

- Support Genre

DRAMA	MOVIE	CARTOON	ENTERTAINMENT
SPORTS	HOBBY	MUSIC	EDUCATION
SHOPPING	NEWS	CURRENT EVENTS	CULTURE

■ Motion Recognition

- One-Hand Motion Control

Slightly shake the hand forward to TV

Degree : front/left/right 45 degree

- Two-Hand Motion Control

[Case 1] Recognize one hand

Slightly shake the hand forward to TV

[Case 2] Recognize two hands

Slightly shake two hands forward to TV

Motion Recognition

- Pointing Mode Command Set

Slap : Free Pointing

Grab : Execute

Grab & Move : Panning

CCW Rotation : Back

Same as "Return" key on remote.

- Special Command Set ('13 New Functions)

Slap : Move SMART HUB Window, Photo

Two-Handed : Zoom In/Out

Slap : Move SMART HUB Window, Photo

Rotation : Rotating Photo

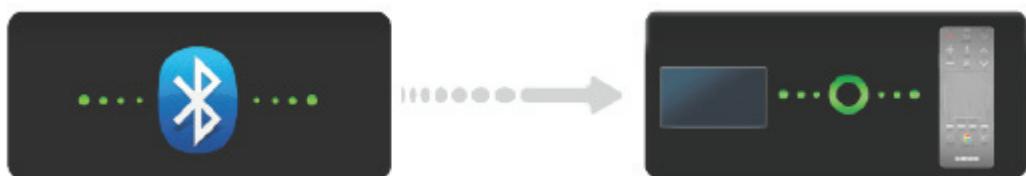

2-4-2. Smart Control

The Smart Touch Control makes it easier and more convenient to use the TV. For example, you can use the remote control's built-in touchpad to move the focus and make selections as you would on a computer using a mouse. In addition, you can use the virtual control panel displayed on the screen to change channels, play media files, and access favorites.

■ Connecting to the TV

In order to operate the TV using a Smart Touch Control unit, you must first pair it to the TV via Bluetooth.

1. To turn on the TV, point the Smart Touch Control at the remote control receiver of the TV and press the TV button. The remote control receiver's location may vary depending on the model.
2. A Bluetooth icon will appear at the bottom left of the screen as shown below. The TV will then attempt to connect to the Smart Touch Control unit automatically

<Attempting to connect and completion icons>

■ Reconnecting the Smart Touch Control Unit

If you need to reestablish the connection between the TV and the Smart Touch Control unit, press the pairing button at the back of the Smart Touch Control unit.

<The Smart Touch Control unit's pairing button>

The pairing button can be accessed by removing the control unit's battery cover. Pressing the pairing button automatically reestablishes the connection between the control unit and the TV.

■ Buttons and Descriptions

<The Smart Touch Control>

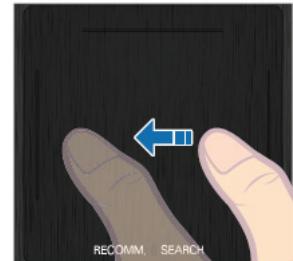

TV Turns the TV on/off.	RETURN/EXIT Returns to the previous menu. Press and hold this button to quit the current process or App.
SOURCE Changes the source.	SMART HUB Launch Smart Hub. While an application is running, pressing the Smart Hub button terminates the application.
STB Turns the cable box or satellite receiver on/off.	GUIDE Check the digital channel broadcasting schedule.
VOL Adjusts the volume.	RIGHT Turn on the backlight for the buttons. The backlight lasts for only a few seconds. Turns the remote control light on or off. When on, the buttons become illuminated for a moment when pressed.
VOICE Run Voice Recognition. To speak a voice command, press and hold the VOICE button and say a voice command.	DVR Displays the STB EPG (Electronic Program Guide).
MUTE Turns the TV sound on/off.	MENU Opens the OSD
MORE Displays a virtual remote control on the screen. The virtual remote control consists of a number panel, a playback control panel, and a quick access panel. Use the touchpad to select numbers and buttons.	3D Turns the 3D image on or off.

■ Reconnecting the Smart Touch Control Unit

Use the touchpad to perform various commands. Navigate to Guide (**System → Device Manager → Smart Touch Control Settings → Guide**) to view an on-screen guide to using the Smart Touch Control.

- **Dragging**

Drag on the touchpad in the desired direction. Move the focus or the pointer in the direction the finger is dragging.

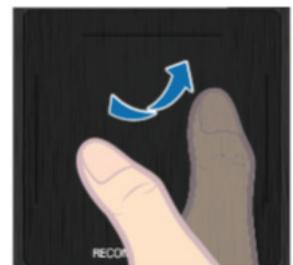

- **Tap**

Tap on the touchpad. This selects the focused item.

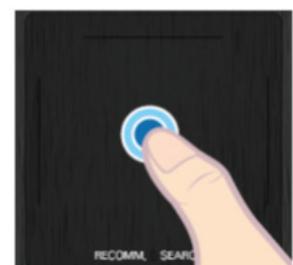

- **Flicking**

Flick on the touchpad in the desired direction. This moves the focus or scrolls the screen based on the direction and speed of the flick.

- **Tapping and Holding**

Tap and hold on the touchpad for at least 3 seconds. This gives you access to hidden features included in certain applications.

- **Tapping and Dragging**

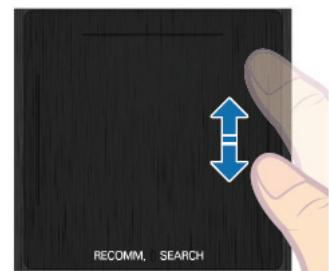

Tap on the touchpad, drag and release. This moves the selected web item in a webpage or your current location on a map.

2. Product specifications

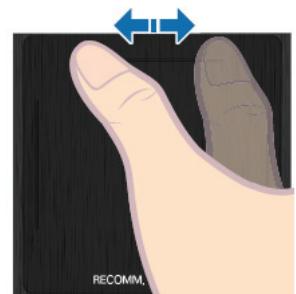

- Scrolling Up/Down

Scroll up/down the line on either the left or right edge of the touchpad. This scrolls a webpage or a list up/down. This scrolling feature easily accommodates both right-handed and left-handed users.

- Scrolling Left/Right

Scroll left/right on the line at the top or bottom edge of the touchpad. This scrolls a horizontal webpage or the Smart Hub panel to the left/right.

2-4-3. SMART HUB

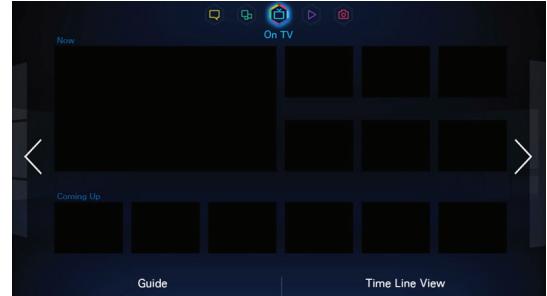

This TV features Smart Hub, a multi-purpose entertainment and family center. With Smart Hub, users can surf the web, download applications, and stay in touch with family and friends through social networking services. In addition, you can enjoy photo, video, and music files stored on external storage devices.

On TV

This function is only available on U.S and Canada.

While you watch TV, a list of recommended programs on other channels appears on the screen. You can use this list to change the channel and find out more information about the recommended programs including how much time is left until they air.

Movies & TV Shows

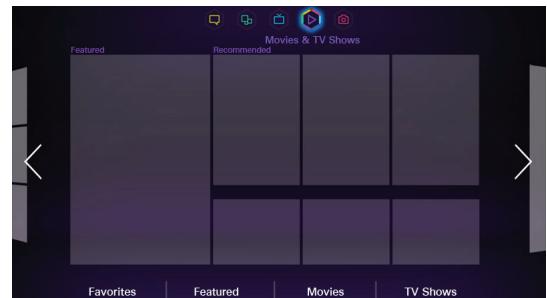

Purchase and watch movies and series without a separate external device.

This function is only available on U.S and Canada.

Users can buy movies and TV shows online.

Open Smart Hub and select Movies & TV Shows.

This service may be not available depending on the country or region.

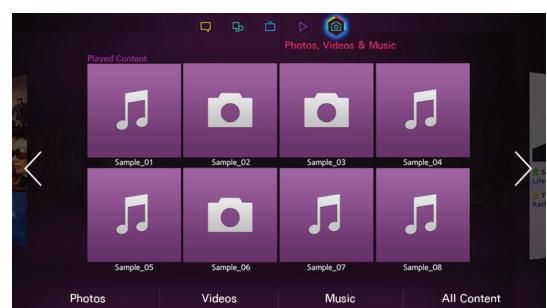

Movies & TV Shows

Play back photo, video, and music files from an external storage device.

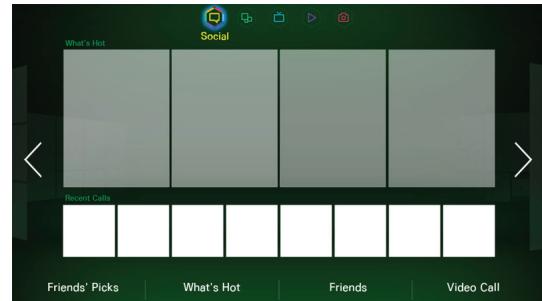

Open Smart Hub and select Photos, Videos & Music.

Enjoy photo, video and music files from an external storage device directly on your TV. Back up important files before connecting an external storage device to the TV. Samsung will not be held responsible for damaged or lost files.

Social

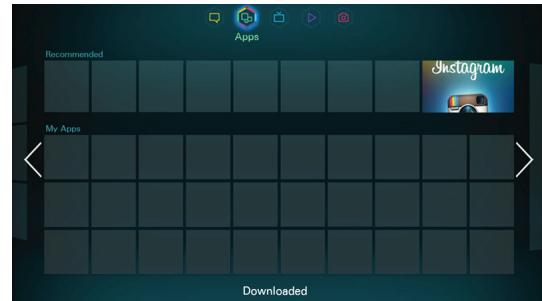

Watch the latest YouTube videos and you and your friends' video posts on Facebook and Twitter. You can also make video calls to friends by connecting the TV to a camera (sold separately).

Apps

Download and install applications such as WebBrowser and Family Tree.

Samsung Apps offers an extensive collection of free and paid news, sports, weather, and gaming content you can directly download to and enjoy on your TV. First, check the network and make sure the TV is connected to the Internet. Your TV needs to be connected to the Internet in order to use Apps.

- **Samsung Apps**

Samsung Apps offers various free and paid news, sports, weather, and gaming applications. Samsung Apps lets you search for applications and install them directly on your TV. Read and agree to the terms and conditions of use and then browse through the categories or directly search for applications.

- **Fitness**

Fitness is an application that helps you stay fit. Create a profile, set up an exercise plan, and start exercising according to a structured regimen. Read and agree to the terms and conditions before using Fitness.

- **Family Story**

Family Story allows people to share photos, messages and events with family and friends. Family Story is available on TVs, computers, and mobile devices, allowing you to stay connected with your friends and loved ones at home, at the office, and even while on the go. Read and agree to the terms and conditions before using Family Story.

- **Kids**

This is a quick launcher and recommended list for applications and content that is suitable for children and even provides services not currently installed on your TV. Using Kids, you can download applications and content for your children to your TV. Certain services, however, are fee-based.

- **WebBrowser**

WebBrowser is a web-browsing application. Using WebBrowser, you can browse the Internet on your TV as you would on your computer and even watch TV while you surf the web. The browsing experience, however, may not be the same as it is on your computer. Use a keyboard and mouse for a more convenient web browsing experience.

- **Social Networks**

Share your thoughts and comments about a program on the air through social networking services. Social Networks displays social network services such as Twitter, Facebook, Google Talk, and NateOn on a single screen. You can even post messages and comments in the same manner as you would using a computer. You must first link your Samsung account to the respective SNS accounts before you can access them using Social Networks.

2-4-4. Supported Formats

■ Supported Subtitle Formats

External

MPEG-4 Timed text	MP4

■ Supported Music File Formats

File Extension	Type	Codec	Comments
*.mp3	MPEG	MPEG1 Audio Layer 3	
*.m4a	MPEG4	AAC	
*.mpa			
*.aac	FLAC	FLAC	Supports up to 2 channel
*.flac			
*.ogg	OGG	Vorbis	Supports up to 2 channel
*.wma	WMA	WMA	WMA 10 Pro supports up to 5.1 channel. WMA lossless audio is not supported. Supports up to M2 profile (except LBR mode)
*.wav	wav	wav	
*.mid *.midi	midi	midi	type 0, type 1 are supported.
*.ape	ape	ape	

■ Supported Video Formats

File Extension	Container	Video Codec	Resolution	Frame rate (fps)	Bit rate (Mbps)	Audio Codec		
*.avi	AVI MKV ASF MP4 3GP MOV FLV VRO VOB PS TS SVAF	Divx 3.11 / 4 / 5 / 6	1920 x 1080	6~30	30	AC3 LPCM ADPCM(IMA, MS) AAC HE-AAC WMA DD+ MPEG(MP3) G.711(A-Law, μ -Law)		
*.mkv		MPEG4 SP/ASP						
*.asf		H.264 BP/MP/HP						
*.wmv		Motion JPEG	640 x 480	6~30	8			
*.mp4		Microsoft MPEG-4 v3	1280 x 720		30			
*.3gp		Window Media Video v7,v8	1920x1080					
*.vro		Window Media Video v9	24/25/30	60				
*.mpg		MPEG2			640 x 480			
*.mpeg		MPEG1			6~30			
*.ts		MVC	1920 x 1080		4	Vorbis		
*.tp		VP6						
*.trp								
*.mov								
*.flv								
*.vob								
*.svi								
*.m2ts								
*.mts								
*.divx								
*.webm	WebM	VP8	1920 x1080		20	Vorbis		

■ Other Restrictions

Codecs may not function properly if there is a problem with the content data. Video content does not play or does not play correctly if there is an error in the content or container. "Sound or video may not work if they have standard bit rates/frame rates above the TV's compatibility ratings." If the Index Table is wrong, the Seek (Jump) function does not work. "When playing video over a network connection, the video may not play smoothly because of data transmission speeds." Some USB/digital camera devices may not be compatible with the player.

■ Video Decoders

- Supports up to H.264, Level 4.1 (does not support FMO/ASO/RS)
- VC1 AP L4 is not supported.
- All video codecs excluding WMV v7, v8, MSMPEG4 v3, MVC, and VP6:
 - Below 1280 x 720: 60 frame max
 - Above 1280 x 720: 30 frame max
- GMC is not supported.
- Supports SVAF top/bottom and left/right only.
- Supports Blu-ray/DVD MVC specs only.

■ Audio Decoders

- WMA 10 Pro supports up to 5.1 channels. Supports up to M2 profile. (Excluding M0 LBR mode)
- WMA lossless audio is not supported.
- Vorbis is supported for up to 2 channels.
- DD+ is supported for up to 5.1 channels.

2-4-5. 3D Active Glasses

■ Features

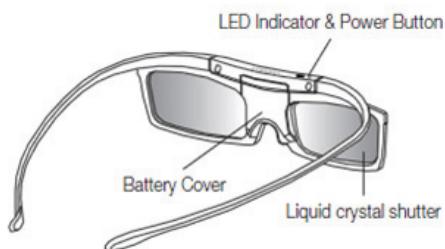

Samsung's SSG-5100GB 3D glasses enable you to view 3D images on your 3D TV. the Samsung 3D glasses communicate with Samsung 3D TVs via the 2.4 GHz RF band.

NOTE

The Samsung 3D glasses only compatible with Samsung D, E, and F series 3D TV's that were released in 2011, 2012, and 2013. these 3D glasses cannot be connected to other Bluetooth devices.

■ Parts

3. Disassembly and Reassembly

This section of the service manual describes the disassembly and reassembly procedures for the LED TV.

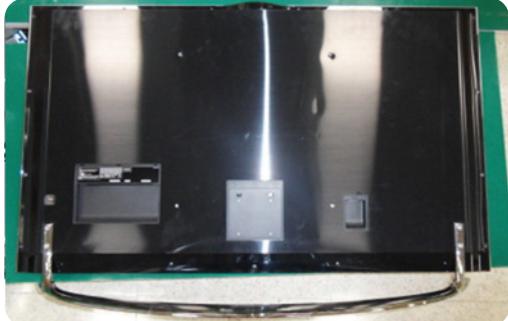

This LED TV contains electrostatically sensitive devices. Use caution when handling these components.

WARNING

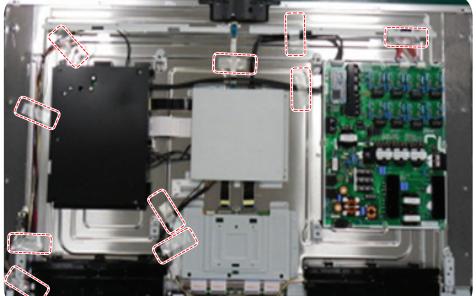

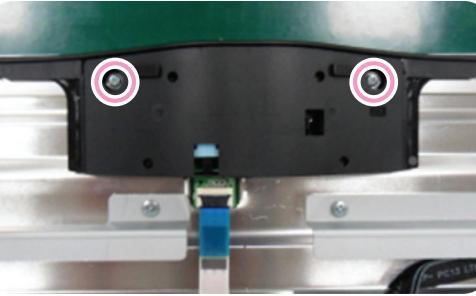

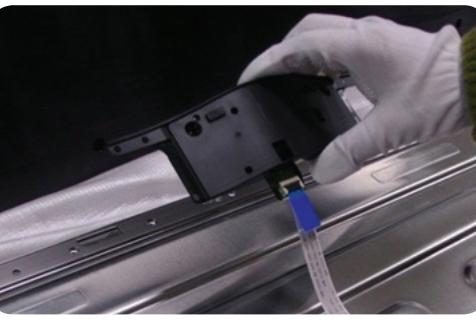

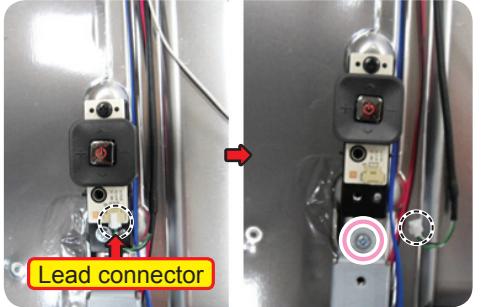

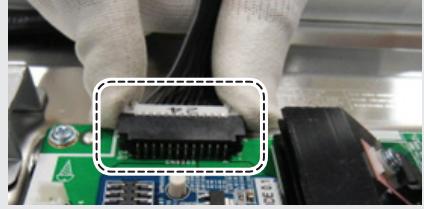

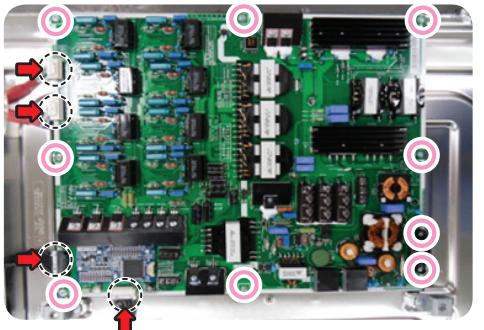

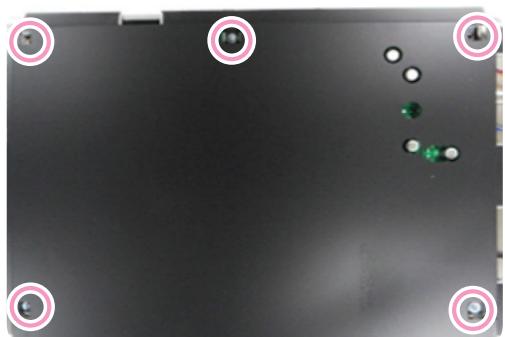

1. Disconnect the LED TV from the power source before disassembly.
2. Follow these directions carefully; never use metal instruments to pry apart the cabinet.

3-1-1. TV

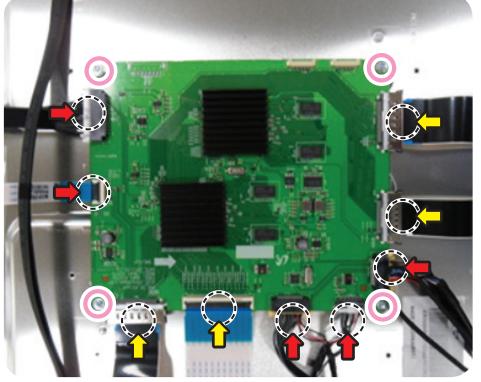

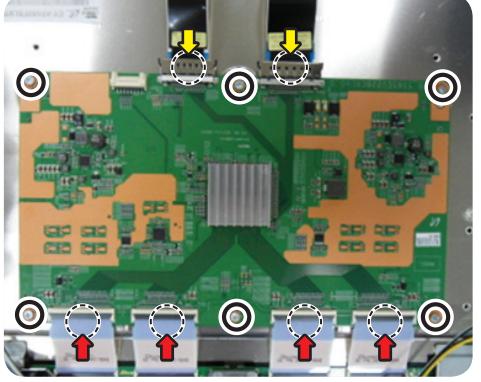

Description	Picture Description	Screws
1 Place TV face down on cushioned table.		
2 Remove 4 screws from the BRACKET-STAND,SUPPORT-R/L.		 6003-001321
3 Remove ASSY STAND P-BASE. CAUTION Be careful when you remove ASSY STAND P-BASE, It could be sharp as a metal parts.		

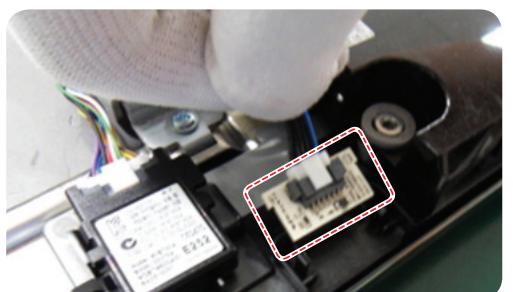

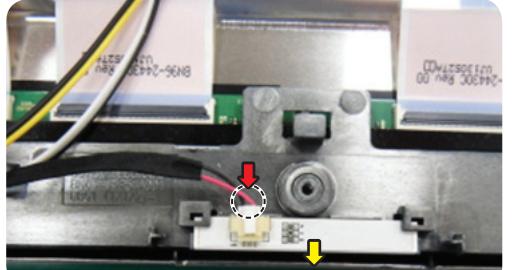

3. Disassembly and Reassemble

Description	Picture Description	Screws
<p>4 Remove the screws for the ASSY COVER P-REAR Then carefully remove the ASSY COVER P-REAR.</p> <ul style="list-style-type: none"> • 55 inch : 17 EA • 65 inch : 19 EA <p>• Panel View</p>		 Torque : 7~8Kgf.cm. 6001-002755
		
<p>5 Remove the electric tapes (□) shown on the image.</p> <p>CAUTION</p> <p>When assembling the TV, the electric tapes must be applied on the same locations.</p> <p>Please remember to take a picture of where the tapes were first applied.</p>		
<p>6 Remove the FFC Cable and screws(2EA) from the ASSY MISC P-AQUILA_UD6. Then carefully remove the ASSY MISC P-AQUILA_UD6.</p>	 	 Torque : 7~8Kgf.cm. 6001-003016

Description	Picture Description	Screws
7 Remove the Lead Connector and screws(1EA) from the ASSY BOARD P-JOG FUNCTION. Then carefully remove the ASSY BOARD P-JOG FUNCTION.	 Lead connector	 Torque : 7~8Kgf.cm 6001-003016
8 Remove the Lead Connectors and screws(9EA) from the DC VSS-LED PD BD unit. Then carefully remove the DC VSS-LED PD BD unit.	<p> NOTE</p> <p>How to disconnect a Side Locking Type Connector</p>   Lead connector	 Torque : 7~8Kgf.cm 6001-003016
9 Remove the screws(5EA) from the ASSY SHIELD P-PCB,MAIN.		 Torque : 7~8Kgf.cm 6001-003016
10 Then remove the Cables and screws (3EA) from the ASSY PCB MAIN. Finally carefully remove the ASSY PCB MAIN.	<p> NOTE</p> <p>How to disconnect the LVDS Cable</p>   Cable LVDS Cable	 Torque : 7~8Kgf.cm 6001-003016

3. Disassembly and Reassemble

Description	Picture Description	Screws
11 Remove the screws(4EA) from the ASSY SHIELD P-PCB,FRC.		 6001-003016
12 Remove the cables and screws(4EA) from the ASSY PCB MISC-FRC. Finally carefully remove the ASSY PCB MISC-FRC.	 ● : Cable ● : LVDS Cable	 6001-003016
13 Remove the screws(4EA) from the Cover of ASSY T CON P.		 6001-003016
14 Remove the cables and screws(6EA) from the ASSY T CON P. Finally carefully remove the ASSY T CON P.	 ● : Cable ● : LVDS Cable	 6001-003016

Description	Picture Description	Screws
<p>15 Remove the Cable and screws(1EA) from the ASSY BOARD P-RF-MODULE.</p> <p> NOTE Remove the ASSY BOARD P-RF-MODULE unit by toggling the unit left and right.</p>	 <p> : Cable</p>	 <p>Torque : 7~8Kgf.cm 6001-003016</p>
<p>16 Remove the IR unit by lifting it up.</p>		
<p>17 Remove the NETWORK unit by moving it from top to bottom.</p>		
<p>18 Remove the Cable from the ASSY BLU P-LOGO than remove the ASSY BLU P-LOGO unit by pushing the unit from top to bottom.</p>		
<p>19 Remove the ASSY SPEAKER P(R/L).</p> <p> NOTE If the 26p Cable that is connected to all of the modules from steps 15~18, the ASSY SPEAKER P(R/L) can be detached easily.</p>		

3. Disassembly and Reassemble

Description	Picture Description	Screws
20 Panel Back Side View. • Panel		

NOTE

Reassembly procedures are in the reverse order of disassembly procedures.

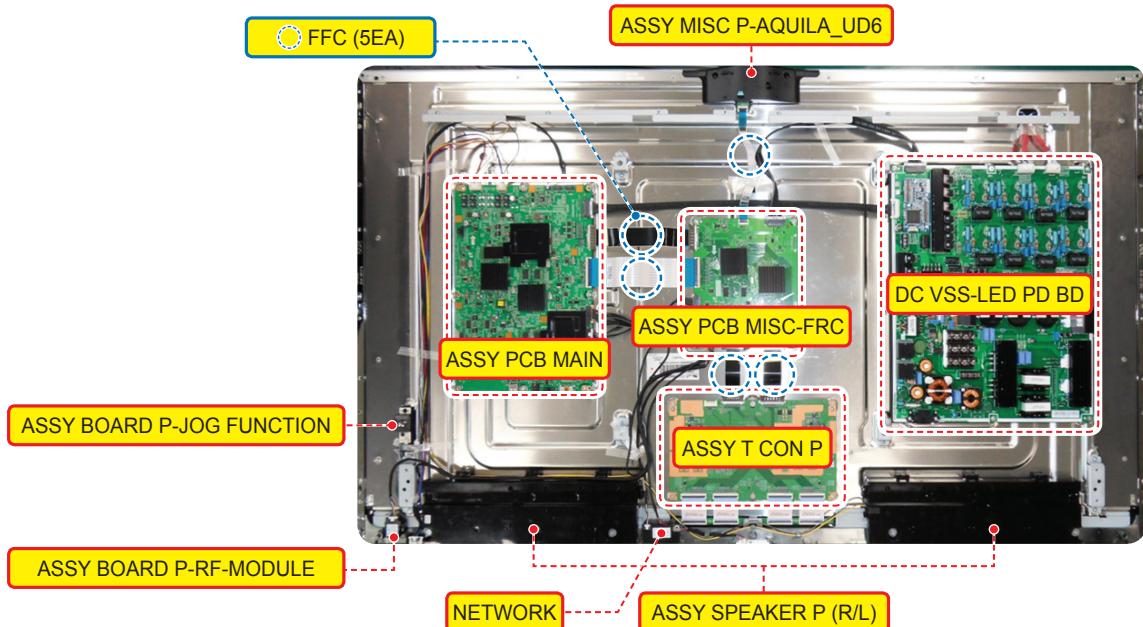

- Always remember to disconnect the Power Cord before assembling or disassembling the LED TV.
- Always take precautions and follow the steps properly. Remember to take a picture before disassembling.
- Recommended screwdriver torque : 5 ~ 7kgf (The torque may need to be adjusted accordingly.)

4. Troubleshooting

4-1. Troubleshooting

4-1-1. Previous Check

1. Check the various cable connections first.
 - Check to see if there is a burnt or damaged cable.
 - Check to see if there is a disconnected or loose cable connection.
 - Check to see if the cables are connected according to the connection diagram.
2. Check the power input to the Main Board.

3. Determining if the failure resulted from the Main Board, FRC Board, or T-CON Board

- **Nothing on screen:** If the 'Backlight' is on but nothing appears on screen and the LED signal in front of the TV is blinking, please first check the connection of the LVDS cable. If problem persists, please replace in the following order: (1) FRC Board (2) T-CON Board (3) Main Board
- **Screen distortion:** Go under 'SVC' in the Service Mode and check the internal pattern.
 - For All mode

pattern sel	FRC Pre	FRC POST	NT72314 OSD Pre	NT72314 OSD Post	Problem
OK	OK	OK	OK	OK	Main Board or Signal Input Source
NG	OK	OK	OK	OK	Main Board
NG	NG	OK	OK	OK	Main Board, LVDS, or FRC
NG	NG	NG	OK	OK	Main Board, LVDS, or FRC
NG	NG	NG	NG	OK	Main Board, LVDS, or FRC
NG	NG	NG	NG	NG	Main Board, LVDS, or FRC T-CON, or Panel

- HDMI Mode (Additional Inspection)

HDMI	Picture	Problem
OK	NG	HDMI Input Source, HDMI Cable, or HDMI Jack
NG	NG	HDMI Switch Failure. Check starting with the pattern for Echo-P

■ How to check inner pattern?

1. Enter the service mode ... Choose 'SVC' ... Check the 'internal pattern.'

2. Enter 'Service Mode.'

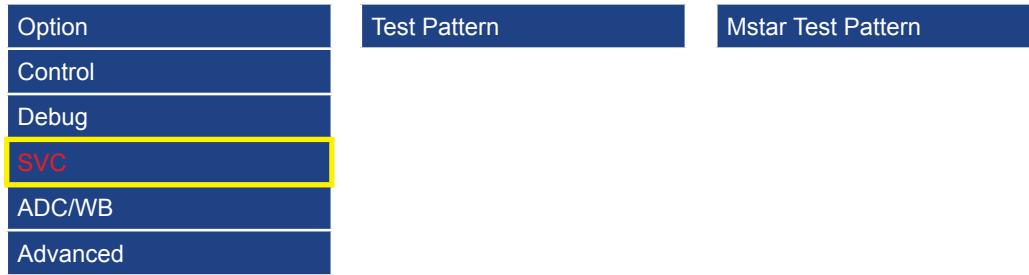

- If you do not have Factory remote control

- If you have Factory remote control

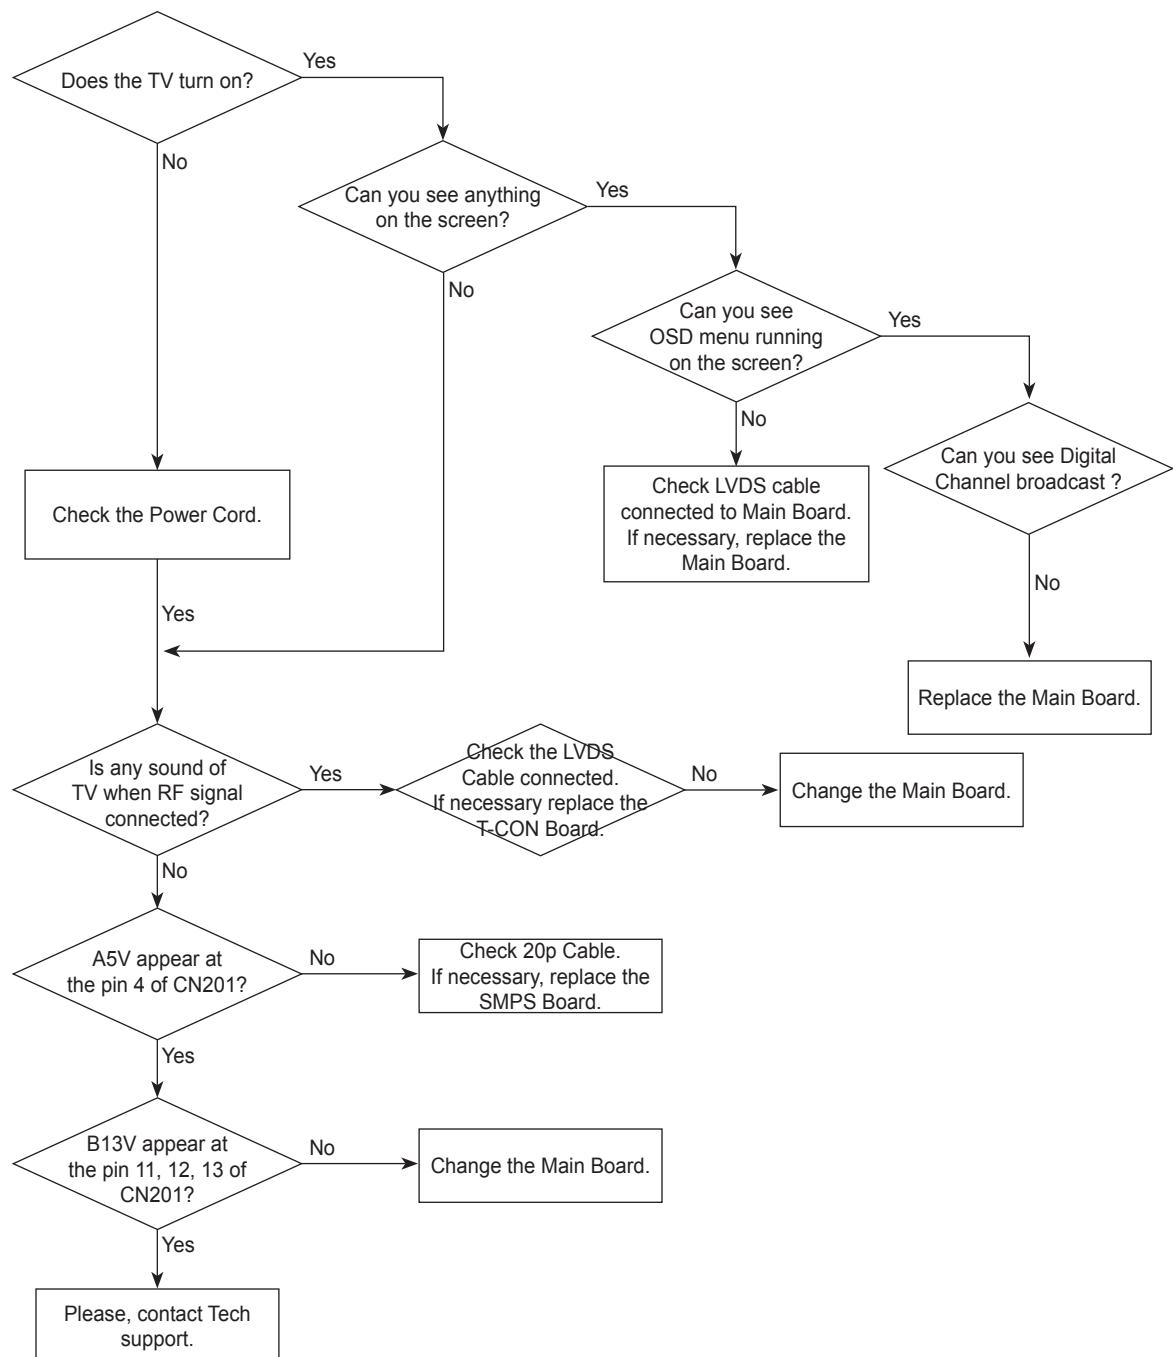

3. Choose 'SVC' ... Test pattern'.

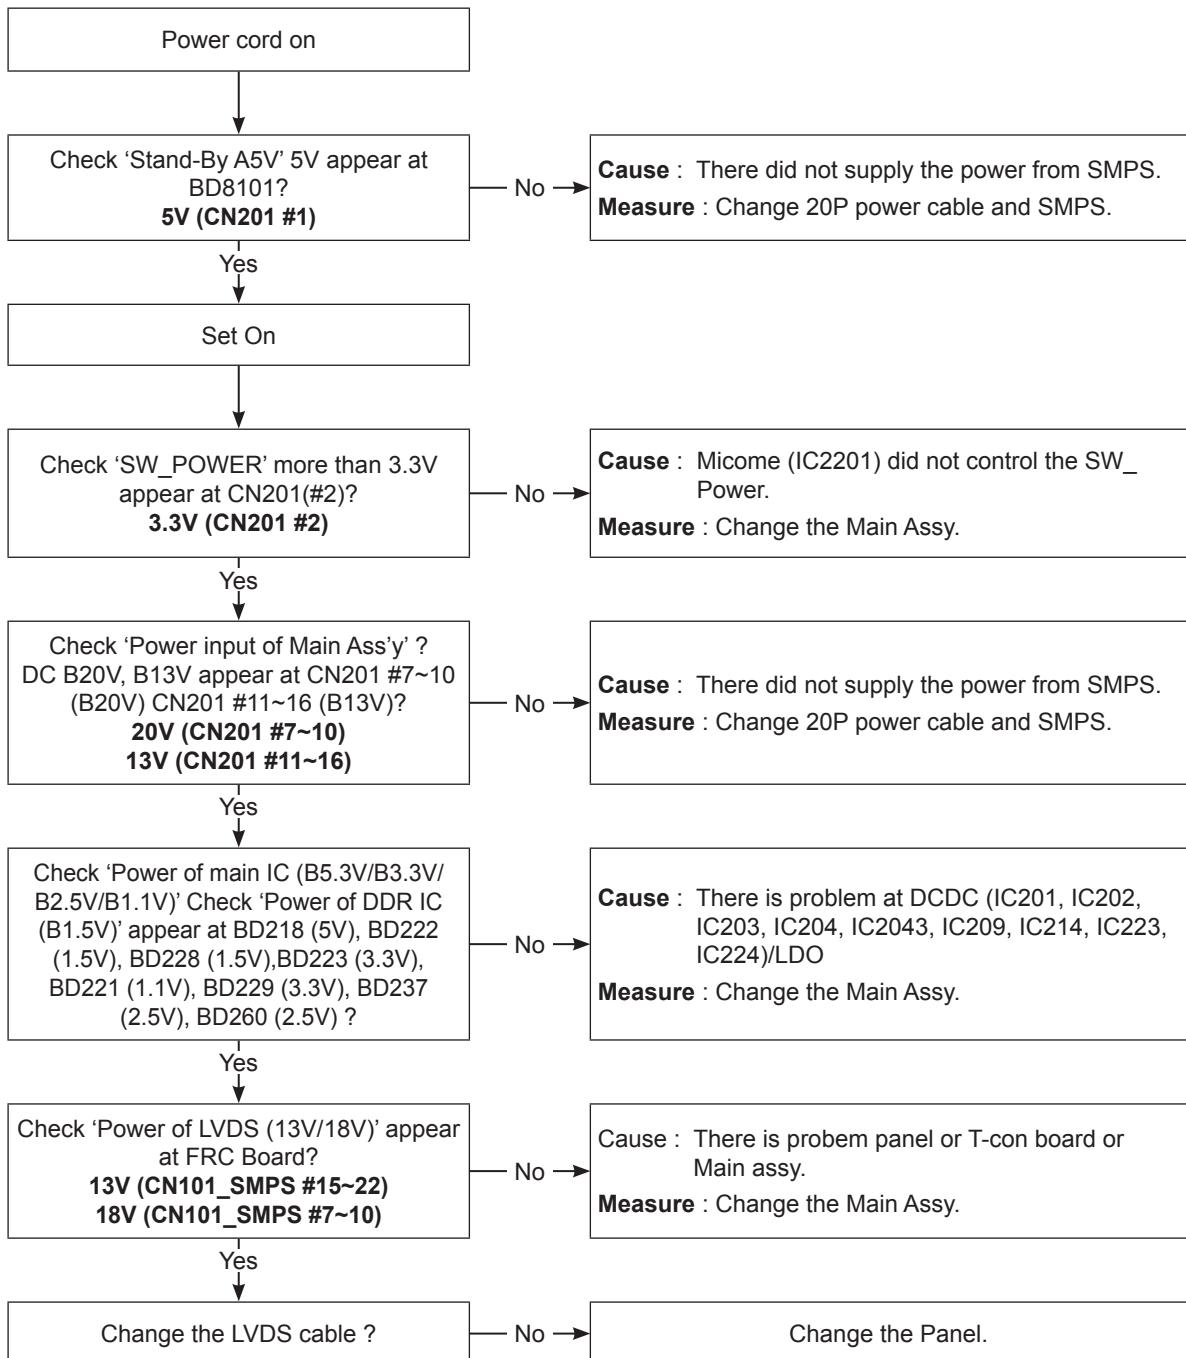

4. Select each type of pattern by toggling left and right and make sure that the patterns show properly.

4-1-2. Simple flow chart of malfunction

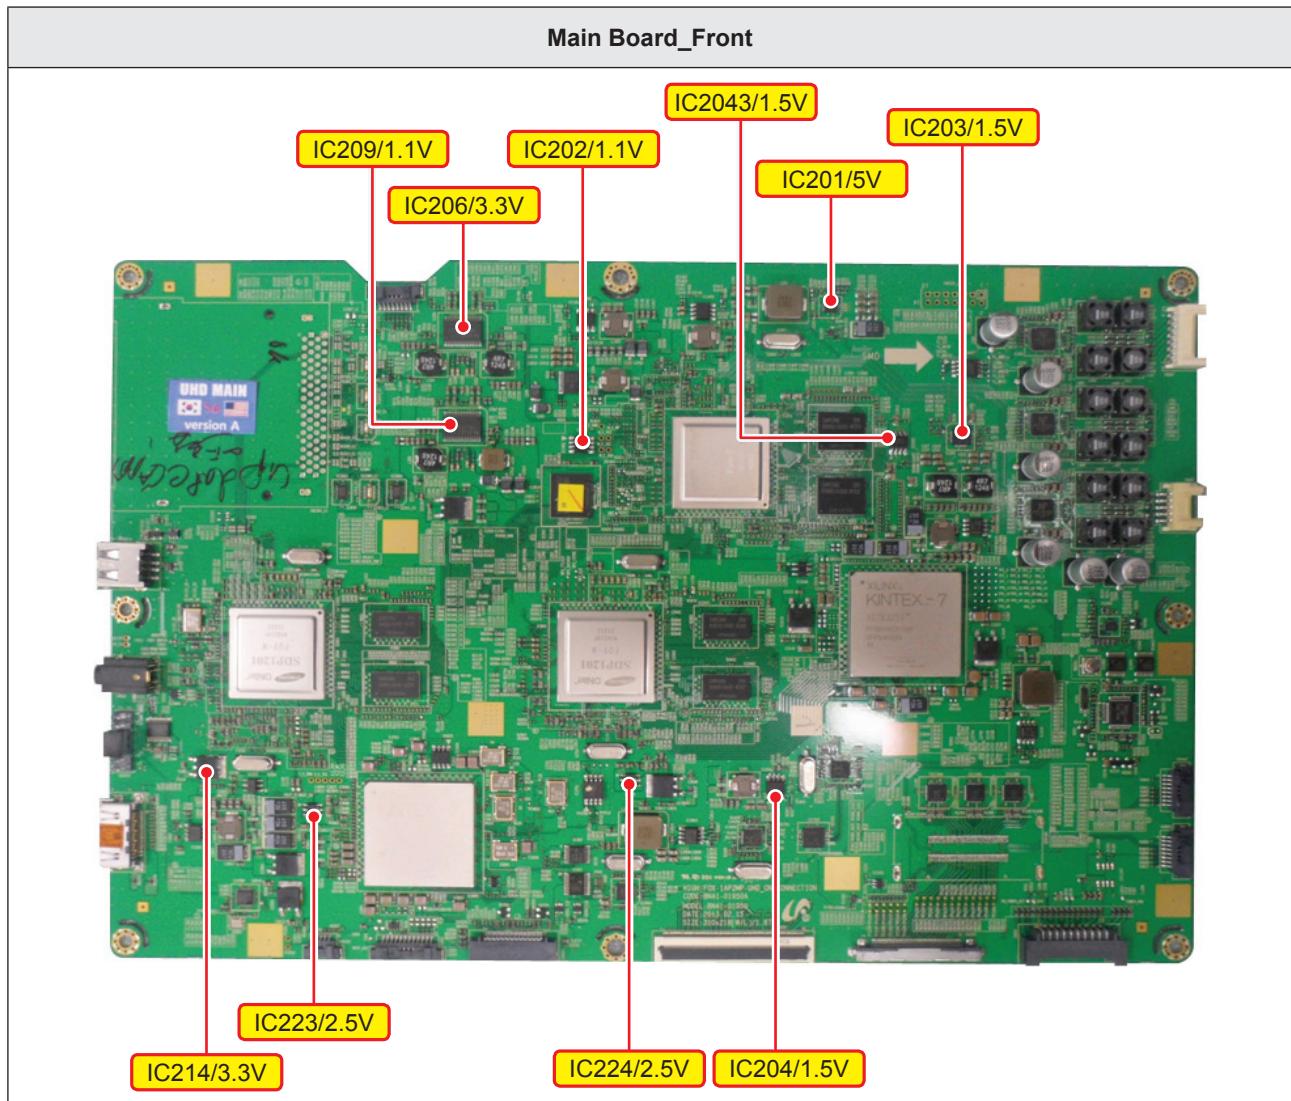

4-2. How to Check Fault Symptom

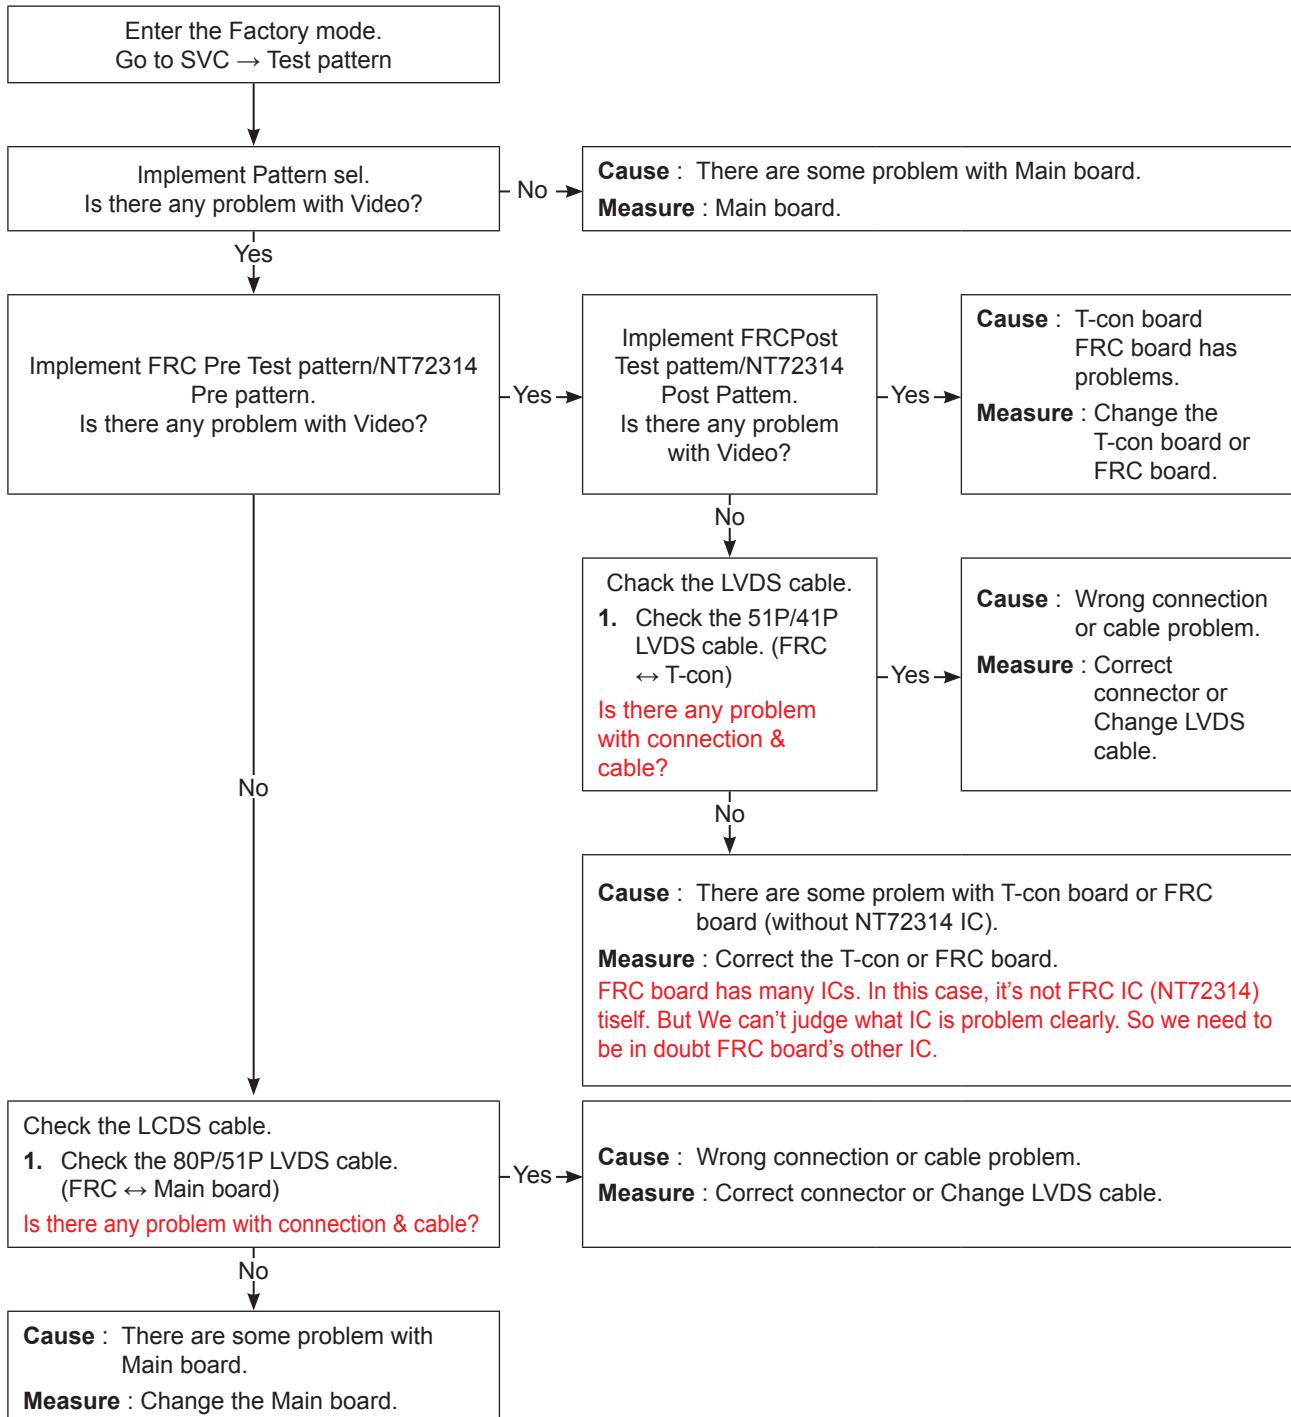

4-2-1. NO Power and No Video

■ Location of Parts

4-2-2. Video trouble shooting

NOTE

We can't supply to **T-CON test pattern**. Because there are many issues to produce test pattern for two T-con (Top and Bottom).

And we'll supply to Service like below.

- United service material code: T-con (Top) + T-con (Bottom) + FRC board
- Reason: We can't separate T-CON & FRC board from Video problem easily. the best method is chang the both of FRC board & T-con board.

4-2-4. Problems and Solutions

■ Apps

There is something wrong with the TV.	Try this!
Some application content only appears in English. How can I change the language?	<ul style="list-style-type: none"> The application content language may be different from the user interface language. The ability to change the language depends on the service provider.
Some application services do not work.	<ul style="list-style-type: none"> Check with the service provider. Refer to the help section on the application service provider's website.

■ Photos, Videos & Music

There is something wrong with the TV.	Try this!
Some files can't be played back.	<ul style="list-style-type: none"> This problem may occur with high-bitrate files. Most files can be played back, but you might experience problems with high-bitrate files.

■ Web Browser

- Select Web Browser. The browsing screen may differ from the one on your computer.
- The web browser is not compatible with Java applications.
- You cannot download files. If you attempt to download a file, you will receive an error message instead.
- The web browser may not be able to access certain websites.
- Playing Flash videos may be restricted.
- E-commerce for online purchases is not supported.
- With websites that have scrollable windows, scrolling through such a window can result in corrupted characters.
- ActiveX is not supported.
- Certain options are not accessible in Link Browsing mode. (Switch to Pointer Browsing to activate this.)
- Only a limited number of fonts are supported. Certain symbols and characters may not be displayed properly.
- The response to remote commands and the resulting on-screen display may be delayed while a webpage is loading.
- Loading a webpage may be delayed or suspended completely with certain operating systems.
- The copy and paste operations are not supported.
- When composing an email or a simple message, certain functions such as the font size and color selection may not be available.
- There is a limit to the number of bookmarks and the size of the log file that can be saved.
- The number of windows that can be opened concurrently varies depending on the search conditions and the TV model.
- The web browsing speed will vary depending on the network environment.
- Playing embedded video automatically disables PIP. Video playback may not commence after PIP is disabled. In this case, you will have to reload the page.
- The web browser supports .mp3 audio files only.
- The web browser supports a specific file format for importing and exporting bookmarks. (Compatible Format: Netscape-bookmarkfile- 1)
- The folder tree information is not included when importing and exporting bookmarks.

4. Troubleshooting

- 22.** Exporting bookmarks to a USB device connected to the TV saves the bookmarks under a folder named "Samsung SmartTV Bookmark".
- 23.** If Clock (System > Time > Clock) has not been enabled, the browsing history will not be saved.
- 24.** The browsing history is saved in the order of latest to oldest, with the oldest entries being overwritten first.
- 25.** Depending on the types of video/audio codecs supported, it might not be possible to play back certain video and audio files during Flash playback.
- 26.** A sudden change in the picture brightness inside a video window may affect the brightness of the screen. This problem applies to PDP TVs only.
- 27.** Video sources from PC-optimized streaming service providers may not play properly on our proprietary web browser.
- 28.** Using the on-screen QWERTY keyboard automatically disables PIP. (Except when entering a URL.)

4-3. Factory Mode Adjustments

4-3-1. Detail Factory Option

If you replace the main board with new one, please change the factory option as well.
The options you must change are "Type".

4-4. White Balance

4-4-1. Calibration

1. Into the Factory Mode.
2. Select **ADC/WB** menu.
3. Select **ADC** menu.

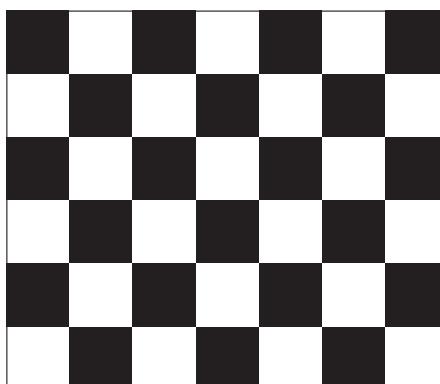

4-4-2. Service Adjustment

You must perform Calibration in the Lattice Pattern before adjusting the White Balance.

■ Color Calibration

- Adjust Specification

Source	Setting Mode	Pattern	Use Equipment
HDMI	1280 x 720@60 Hz	Pattern #24 (Chess Pattern)	CA210 & Master MSPG925 Generator

(Chess Pattern)

- Use other equipment only after comparing the result with that of the Master equipment.

Input mode	Calibration	Pattern
CVBS IN (Model_#1)	Perform in NTSC B&W Pattern #24	Lattice
Component IN (Model_#6)	Perform in 720p B&W Pattern #24	Lattice
HDMI IN	Perform in 720p B&W Pattern #24	Lattice

Method of Color Calibration (AV)

1. Apply the NTSC Lattice (N0. 3) pattern signal to the AV IN 1 port.
2. Press the Source key to switch to “AV1” mode.
3. Enter Service mode.
4. Select the “ADC” menu.
5. Select the “AV Calibration” menu.
6. In “AV Calibration Off” status, press the “▶” key to perform Calibration.
7. When Calibration is complete, it returns to the high-level menu.
8. You can see the change of the “AV Calibration” status from Failure to Success.

Method of Color Calibration (Component)

1. Apply the 720p Lattice (N0. 6) pattern signal to the Component IN 1 port.
2. Press the Source key to switch to “Component1” mode.
3. Enter Service mode.
4. Select the “ADC” menu.
5. Select the “Comp Calibration” menu.
6. In “Comp Calibration Off” status, press the “▶” key to perform Calibration.
7. When Calibration is complete, it returns to the high-level menu.
8. You can see the change of the “Comp Calibration” status from Failure to Success.

Method of Color Calibration (PC)

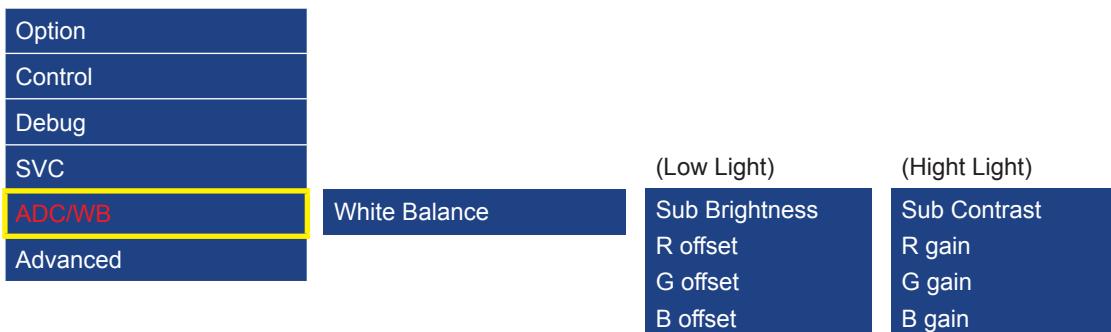

1. Apply the VESA XGA Lattice (N0. 21) pattern signal to the PC IN port.
2. Press the Source key to switch to “PC” mode.
3. Enter Service mode.
4. Select the “ADC” menu.
5. Select the “PC Calibration” menu.
6. In “PC Calibration Off” status, press the “▶” key to perform Calibration.
7. When Calibration is complete, it returns to the high-level menu.
8. You can see the change of the “PC Calibration” status from Failure to Success.

Method of Color Calibration (HDMI)

1. Apply the 720p Lattice (N0. 6) pattern signal to the HDMI1/DVI IN port.
2. Press the Source key to switch to “HDMI1” mode.
3. Enter Service mode.
4. Select the “ADC” menu.
5. Select the “HDMI Calibration” menu.
6. In “HDMI Calibration Off” status, press the “▶” key to perform Calibration.
7. When Calibration is complete, it returns to the high-level menu.
8. You can see the change of the “HDMI Calibration” status from Failure to Success.

4-4-3. Adjustment

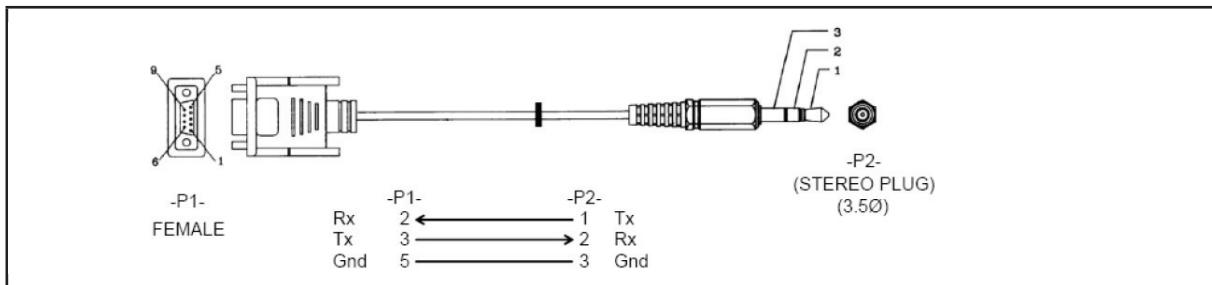

1. Into the Factory Mode.
2. Select **ADC/WB** menu.
3. Select **White Balance** menu.

4-5. RS-232C

• RS232C Control

- Port : COM#(Serial)
- Bit rate : 115200
- Data Bit : 8 bit
- Parity : None
- Stop Bits : 1
- Flow Control : None

- Description of RS232C

Pin#	Name	Full Name	Pin#	Name	Full Name	Pin#	Name	Full Name

4-7. Software Upgrade

Software Upgrade can be performed by downloading the latest firmware from samsung.com to a USB memory device.

- Current Version - The software already installed in the TV.

Software is represented as 'Year/Month/Day_Version'.

4-7-1. How to Check the Software Version

■ Use the Main Menu

1. Click the "MENU" key in remote controller.
2. Select "Support" menu.
3. Locate the menu cursor "Software Upgrade" menu.
4. Click the "INFO" key.
 - Check the Main SW and Micom version.

■ Use the Factory Mode

Option	
Control	T-FXPAKUC-xxxx
Debug	T-FOXAUSS3-xxxx
SVC	BT Version :
ADC/WB	E-Manual : EPATSCE-xxxx
Advanced	Camera Version : x.xx
	Mic Version : x.xx
	Blaster-Version : x.xx
	EDID SUCCESS
	CALIB : AV / COMP / PC / HDMI /
	Option : xxxx xxxx xxx
	CPLD/LD : T-FOXCPLD 0003

4-7-2. How to Upgrade Software

1. Insert a USB drive containing the firmware upgrade downloaded from samsung.com into the TV.

Please be careful not to disconnect the power or remove the USB drive while upgrades are being applied.

2. The TV will turn off and turn on automatically after completing the firmware upgrade.
3. Please check the firmware version after the upgrades are complete.
 - the new version will have a higher number than the older version.

- When software is upgraded, video and audio settings you have made will return to their default (factory) settings.
- We recommend you write down your settings before beginning firmware update.

4. After update is completed, restore your previous settings.

■ Main Software Upgrade

1

Store the sw program named "**T-FXPAKUC**" in USB memory stick.

2

Click the " **MENU**" key in Remote Controller.

3

Select "**Support - Software Update - Update Now**" menu.

4

- Click the "**ENTER**" key.
- Wait for upgrade complete.
 - Check the Software Version.

■ Sub Software Upgrade

USB Download

1. After Main Software upgrade, Enter the Factory menu by below method.

- Factory Remocon
 - Click the Remocon button continuedly. (Info key+ Factory key)

- Nomal Remocon

- ① Turn off the TV. → ② Click the Remocon button continuedly.

2. Select the “SVC”.

3. Select the “SUBMICOM UPGARADE”.

Test pattern		DCC CHK SEL	0

5-3. Connector Functions

Connector	Function
CN201 ↔ CN100_MAIN	Supply main power from FRC board to Main Board.
CN101_SMPS ↔ CNM804	Supply main power from SMPS board to FRC Board.
CN3501 ↔ CN301 / CN3301 ↔ CN300	The LVDS signal transferred from Main Board to FRC.
