

Wi-Fi® Gateway replacement

self-
installation
guide

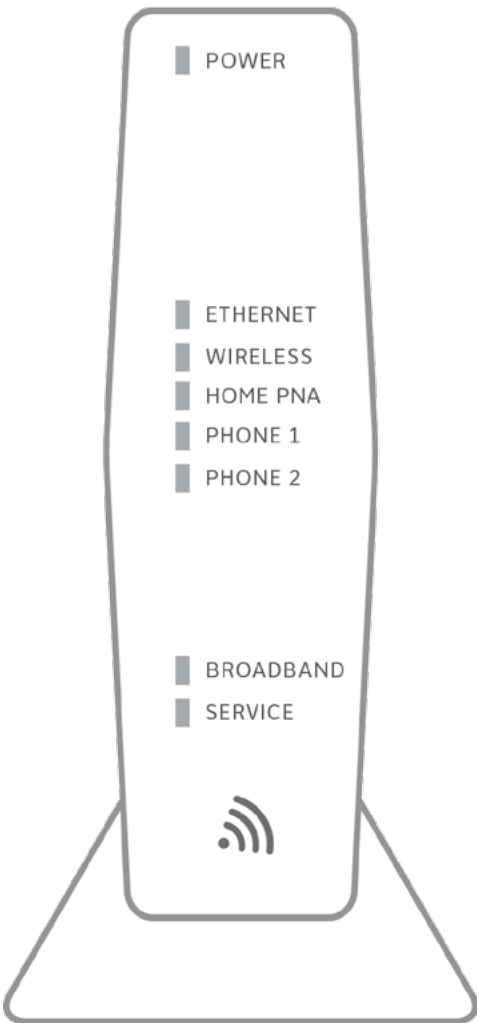

For use with High Speed Internet and TV

Get started

Approximate installation time: 20 minutes

These instructions will guide you through the process of replacing your Wi-Fi Gateway.

In the box:

Wi-Fi Gateway

1. Set up

• Approximate time: 10 minutes

Please note that your U-verse TV and Internet services will not operate during this process. This includes recording TV shows.

- | | | |
|---|--|---|
| A. • Unplug power cord from existing Wi-Fi Gateway
• Stand new Wi-Fi Gateway side by side with existing Wi-Fi Gateway | B. • Transfer one connection at a time from the existing Wi-Fi Gateway to new Wi-Fi Gateway | C. • Carefully read and remove yellow power sticker covering the Power port of new Wi-Fi Gateway
• Connect power cord to Power port of new Wi-Fi Gateway and into electrical outlet |
|---|--|---|

Below is a completed setup. Your existing Wi-Fi Gateway and connections may vary.

3. Go Wi-Fi

• Approximate time: 1-5 minutes

New Wi-Fi setup:

A. Select only one option to begin the Wi-Fi setup

Option 1: Connect using PC

- Connect laptop or PC with an Ethernet cable to your Wi-Fi Gateway
- Continue to **B**

Option 2: Connect using smartphone/tablet

- Establish a temporary connection using new Wi-Fi settings located on yellow sticker on new Wi-Fi Gateway
- Open your device's Wi-Fi connection settings and select your Wi-Fi Network Name and enter your Wi-Fi Password to connect to your network
- Continue to **B**

B.

Note: Please wait up to 10 minutes for the Wi-Fi Gateway to complete the power up process before attempting to restore your settings.

- Open a browser and go to **ufix.att.com/restore**
- Log in to your AT&T account. If you forgot your User ID (primary AT&T email address) and Password, help can be found on the account log-in screen.
- Follow the onscreen instructions to transfer the existing Wi-Fi settings.
- Record existing Network Name and Wi-Fi Password on separate yellow sticker from kit.
- Place new yellow sticker over your new Wi-Fi Gateway's yellow sticker.

NOTE: If Wi-Fi settings did not transfer or to use new Wi-Fi Network Name and Password, refer to the **Need more help?** section on the back of this guide.

NOTE: Any custom settings made for security cameras, game consoles, etc., on your original Wi-Fi Gateway will also need to be made on your new Wi-Fi Gateway.

2. Power up

• Approximate time: 1-5 minutes

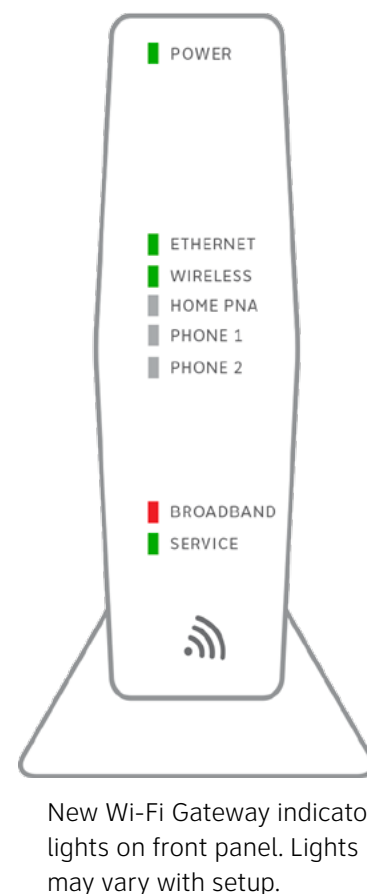

Your Wi-Fi Gateway is now powering up. During this time (up to 5 minutes), do not unplug the power cord or the green data cable, as this can permanently damage the Wi-Fi Gateway and significantly delay your service activation.

A. When complete, the Service light will begin flashing, then turn to solid green. If the Service light does not turn solid green or continues to blink after 5 minutes, see **Need more help?** on the back of this guide.

B. For U-verse TV, restart your TV receivers after the Service light is solid green. Go to each TV and hold down the Power button on the U-verse receiver and DVR for 10 seconds.

NOTE: Live TV may take a few minutes to display. If TV does not respond refer to **Need more help?** on the back of this guide.

New Wi-Fi Gateway indicator lights on front panel. Lights may vary with setup.

4. Easy return

• (Refer to return instructions in your kit.)

A. Avoid unnecessary charges by returning your equipment to AT&T at no charge to you within 21 days.

B. Two no-cost-to-you return options:

- **Option 1:** Do it yourself. Pack, label and drop-off your equipment
- **Option 2:** Let *The UPS Store* pack and ship your equipment

Refer to the Easy Return Instructions in your Kit.

Having Trouble?

No TV or Internet service:

Check your connections:
Cables usually make an audible click when secure.

Check Power: Power light on the Wi-Fi Gateway should be green; if not, try another electrical outlet.

Check Service light on front of the Wi-Fi Gateway: If after 5 minutes the light is red or off, power down the Wi-Fi Gateway by holding down red Reset button for 15 seconds.

TV receivers not responding: Confirm Service light is solid green on the Wi-Fi Gateway. If so, hold the TV receiver's Power button down for 10 seconds and release, then wait five minutes.

If your existing Wi-Fi settings did not transfer, you will need to set up a new Wi-Fi Network Name and Password. To do so, follow these steps:

- Use settings from new Wi-Fi Gateway yellow sticker
- Open your device's Wi-Fi connection settings, select your Wi-Fi Network Name, and enter Wi-Fi Password to connect
- Record and keep your Wi-Fi settings for future reference when connecting all your Wi-Fi devices

Wi-Fi Gateway power light is amber: Don't worry. This is a normal part of the power up sequence.
