Whether the need is for one room or many, this is what comfort looks like.

Preferred in homes throughout Europe and Asia for decades, ductless heating and cooling systems are now being widely adopted in the United States. That's because they can heat and cool any space with precise control and flexibility.

Whether it's through a Ductless unit to heat or cool one room or a VRF system that helps ensure desired comfort for multiple rooms or zones, Carrier offers solutions to make any space a more comfortable place.

Carrier Ductless & VRF systems are a smart way to heat and cool any space.

It's that simple.

Almost everyone has a room that always seems drafty, a sunroom that gets too hot to be enjoyable, a master bedroom that's just not cool enough at night or a basement that never gets quite warm enough to be comfortable.

A Ductless or VRF system can fix these problem areas with less expense and hassle than a traditional ducted system. Whether it's through a Single Zone Ductless system for one room or a Multi-zone VRF option to provide comfort to multiple areas, Carrier can help make any space more livable.

**Carrier Ductless & VRF systems
make any space a more comfortable place.**

5 Reasons Why Ductless Systems Are So Efficient

Inverter Technology

The compressors in most ducted systems only have two modes: on or off. Compressor start-up consumes a lot of energy, and it can be noisy, too. But the inverter technology inside every Carrier® Ductless system lets the compressor continually adjust its speed to keep the room temperature where it should be. Less energy use, less noise, more precise comfort.

Efficiency

SEER (Seasonal Energy Efficiency Ratio) is an efficiency rating, much like the MPG on a car. There is simply nothing more efficient than our newest 42 SEER Ductless system.*

Room-By-Room Comfort

With a Ductless system, you no longer need to overcool the whole house just to make an upstairs room more comfortable or turn up the heat to warm a basement playroom in the winter. Just room-by-room comfort and month-to-month energy savings.

Leading Heat Pump Technology

Carrier Ductless systems deliver comfort during extreme outdoor temperatures, with heating down to -22 degrees and cooling up to 122 degrees Fahrenheit.

Flexibility

With multiple Ductless or VRF solutions to choose from, a Carrier expert can help ensure a system is properly sized to ensure maximum comfort and efficiency.

*According to system ratings maintained by AHRI as of October 1, 2019 in accordance with the AHRI Unitary Small Equipment Operations Manual. The 9,000 Btu/h Single Zone ductless has a 42 SEER Rating.

Ductless & VRF Systems Make More of Your Home More Comfortable

Even the most challenging areas to control can be turned into comfortable, usable spaces with the addition of a Ductless system.

- 

Fresher, Cleaner Air
The washable filters inside Carrier® Ductless systems remove airborne particles and keep them from recirculating in your home's air, and they are easy to maintain. Plus, our top-of-the-line systems allow you to precisely control humidity levels so rooms never feel too damp or too dry.
- 

Smart Controls
Carrier Ductless systems have standard Wi-Fi® connectivity that lets you adjust settings from your smartphone and integrated sensors that can direct airflow toward the people in the room.
- 

Easy Install
A Ductless system consists of an outdoor unit and an indoor unit connected by refrigerant pipe and electric cable, which enter the house through a 3" hole in the wall. That's it. Installation is quick and minimally disruptive to your space.
- 

Multiple Zones
A Carrier Ductless Multi-zone or VRF condensing unit can power multiple indoor units simultaneously, helping to achieve the desired comfort level for each and every room.

More than one troubled spot? Carrier VRF systems offer solutions to heat and cool multiple areas throughout your home.

The Brand That Has Never Stopped Innovating

Built on Willis Carrier's invention of modern air conditioning in 1902, Carrier is a world leader in heating, air-conditioning and refrigeration solutions. We constantly build upon our history of proven innovation with new products and services that improve global comfort and efficiency.

But our innovation doesn't stop there. From the hiring of the first woman air-conditioning engineer to the creation of the first air-conditioning systems for skyscrapers, homes, factories and ships, Carrier continues to look for ways to advance comfort.

As a trusted partner for precise temperature and humidity control for highly regarded places such as the Sistine Chapel in Vatican City and George Washington's estate in Virginia, we know a thing or two about innovation. And it's this same innovation that we put to work in your home.

The Reviews Are in for Carrier® Ductless Systems.

*At the time Ductless products started getting popular, we were forced to use an inferior brand which caused installation issues in the field and plenty of warranty calls for our service department. When Carrier came out with its Ductless line, we were thrilled! As a factory authorized dealer for Carrier we already knew the **quality and reliability** would be there, and we were not disappointed.*

Shannon Nielsen
VICE PRESIDENT OF OPERATIONS OF
AIRPLUS OF CALIFORNIA, INC.

*Hawaii has a very competitive mini-split/Ductless market. With many different options available, Carrier DLS provides **a good product with competitive pricing**. Backed by a big name in the industry, given time and good advertising, Carrier DLS/mini-splits will be a bigger player in this market.*

Richard Chong
DUCTLESS DEALER AND INNOVATIVE
AC OWNER

*Fayette Furnace Company has been installing ductless split units for at least the last decade. We started installing these units in homes and businesses that had areas that needed additional cooling. As time progressed and efficiencies improved, the systems became more and more desirable for use throughout the entire home or building for BOTH heating and cooling. Now we are doing very limited ducted attic jobs and increasing ductless split installations, with some applications using the ductless splits as the **primary heating and cooling year round**. These systems are **ideal for any application**.*

VRoom Selection Software
With VRoom Selection Software, engineers can easily design, lay out and prepare VRF and DLS systems for quotes. Features include:

- Auto updates
- Sleek drag-and-drop interface
- Table edit options for quick editing of multiple units
- Quick global edits for wired controllers

Single Zone

Infinity® Heat Pump With Basepan Heater

FEATURES OUTDOOR

- 100% cooling capacity at –22°F (–30°C) without additional kit
- Available in 208/230V
- Built-in basepan heater
- Auto-restart function
- Refrigerant leakage detection
- Quiet outdoor operation, as low as 55 dB(A)
- Aluminum golden hydrophilic pre-coated fins
- Piping length 98 ft (30m)
- Cooling operating range –22°~122°F (–30°~50°C)
- Heating operating range –22°~86°F (–25°~30°C)

COMPATIBLE WITH:

- 40MPHA High Wall (p 22)

Heat Pump With Basepan Heater

Inverter Compressor

Up to 42 SEER

Up to 15 HSPF

Sizes: 09/12/18/24

All Systems are ENERGY STAR® certified

KEY FEATURES

Extra-Low Temperature Heating

Heat output up to 75% of rated capacity down to –22°F (–30°C), so when it's cold outside, it will be warm inside, making this a primary heat source and eliminating the need for a backup heat source.

Stepless Frequency Adjustment

Precise control maintains stable and constant room temperature while reducing sound level and saving energy.

Infinity[®] High Wall Indoor Unit

FEATURES

- Available in 208/230V
- Modes: Cool, Heat, Dry, Fan, Auto
- Turbo Mode
- Fully modulating fan speeds
- Sleep Mode
- Up-down/right-left louver control (fixed or swing)
- **Relative Humidity Sensor**
- **Occupancy Sensor** (only sizes 09/12)
- **Wi-Fi[®] Smartphone Control Built-in**
- ECO Mode
- Carbon Filter
- *Follow Me* (senses temperature at handheld remote)
- Heating Setback (46°F Heating Mode)
- Quiet indoor operation, as low as 29 dB(A)
- Aluminum golden hydrophilic pre-coated fins

COMPATIBLE WITH:

- 38MPRA Outdoor Unit Single Zone (p 20)
- 38MGR Outdoor Unit Multi-zone (p 52)

Sizes: 09/12/18/24

KEY FEATURES

- Relative Humidity Sensor**
Increasing comfort customizing the relative humidity in 5% increments in a range of 35%~85%
- Occupancy Sensor**
Detects activity in the room and adjusts the horizontal angle of airflow to blow away from people or follow people.

Performance™ Heat Pump with Basepan Heater

FEATURES OUTDOOR

- 100% heating capacity at 5°F (-15°C) Sizes 9–24 (208/230V)
- Available in 115V and 208/230V
- Built-in basepan heater
- Auto-restart function
- Condenser high-temperature protection
- Refrigerant leakage detection
- Quiet outdoor operation, as low as 52.5 dB(A)
- Aluminum golden hydrophilic pre-coated fins
- Piping length 82~164 ft (25~50 m)
- Cooling operating range -13°~122°F (-25°~50°C)
- Heating operating range -22°~86°F (-30°~30°C) – Sizes 9–24 (208/230V) -13°~86°F (-25°~30°C) – Size 12 (115V) and 30, 36 (208/230V)

COMPATIBLE WITH:

- 40MAQ High Wall (p 28)
- 40MBCQ Cassette (p 30)
- 40MBDQ Ducted (p 32)
- 40MBFQ Console (p 34)
- FMA4X Fan Coil
- FMC-FMU Fan Coil
- FV4C Fan Coil

Performance™ High Wall Indoor Unit

FEATURES

- Available in 115V and 208/230V
- Modes: Cool, Heat, Dry, Fan, Auto
- Turbo Mode
- Four fan speeds
- Sleep Mode
- Up-down louver control (fixed or swing)
- *Follow Me* (senses temperature at handheld remote)
- Heating Setback (46°F Heating Mode)
- Quiet indoor operation, as low as 27 dB(A)
- Aluminum golden hydrophilic pre-coated fins

COMPATIBLE WITH:

- 38MA*R Outdoor Unit Single Zone (p 24)
- 38MGR Outdoor Unit Multi-zone (p 52)

ACCESSORIES

Wi-Fi® Smartphone control kit
KSAIF0301AAA

24V Interface for third-party thermostat compatibility KSAIC0301230**

**Compatible with indoor units starting with Serial Number 4216V10001.

Sizes: 09/12/18/24/30/36

KEY FEATURES

Follow Me
Temperature sensor built in the remote controller will sense its surrounding temperature. The unit will adjust the room temperature more accurately to give you comfort.

CONTROLS

Wireless Remote Controller included with indoor unit

Wired Remote Controller KSACN0101AAA (Timer Function) (Optional)

Wired Remote Controller KSACN0401AAA (7-Day Programmable) (Optional)*

*7-Day Programmable compatible with indoor units starting with Serial Number 0216V10001.

Standard Wired Controller
(Timer Function)
KSACN0101AAA

Optional Wired Controller

Performance[™] Cassette Indoor Unit

FEATURES

- Modes: Cool, Heat, Dry, Fan, Auto
- Auto-restart function
- Louver control (fixed or swing)
- Three fan speeds
- Outside air intake
- Built-in condensate lift pump
- *Follow Me* (senses temperature at handheld remote)
- Heating Setback (46°F Heating Mode)
- Quiet indoor operation, as low as 34 dB(A)
- Aluminum golden hydrophilic pre-coated fins
- Grille/ceiling panel 2" x 2" sizes 9 to 18 40MBCQ01XXX3
- Grille/ceiling panel 3" x 3" size 24 P/N 40MBCQ02XXX3

COMPATIBLE WITH:

- 38MA*R Outdoor Unit Single Zone (p 24)
- 38MGR Outdoor Unit Multi-zone (p 52)

Sizes: 09/12/18/24

KEY FEATURES

Built-in Condensate Lift Pump
The cassette is supplied with a condensate lift pump that is capable of lifting the water 29.5in (750mm) above the top of the unit.

Integrated Electrical Components
Easy maintenance with the circuit box right inside the unit. The integrated design provides a more compact size for easier installation.

Performance™ Ducted Indoor Unit

FEATURES

- Modes: Cool, Heat, Dry, Fan, Auto
- Vertical or horizontal installation
- Up to 0.64 in WG
- Rear or bottom return
- Outside air intake
- *Follow Me* (senses temperature at handheld remote)
- Heating Setback (46°F Heating Mode)
- Quiet indoor operation, as low as 30 dB(A)
- Aluminum golden hydrophilic pre-coated fins
- External condensate lift pump shipped with the unit (sizes 09–18)
- Built-in condensate lift pump (size 24)

COMPATIBLE WITH:

- 38MA*R Outdoor Unit Single Zone (p 24)
- 38MGR Outdoor Unit Multi-zone (p 52)

Sizes: 09/12/18/24

KEY FEATURES

Vertical or Horizontal Installation
Designed for maximum installation flexibility. The secondary drain built-in allows the unit to be mounted vertically allowing either a floor or ceiling-concealed installation depending on existing conditions.

Flexible Air Intake
Air inlet can be installed either at the back or the bottom of the unit due to the small plate size on the flange, allowing for flexible installation to meet the needs of each job.

	38MGRQ30D--3			
	38MGRQ36D--3			
	38MGRQ48E--3			

For Sizes 36 and 48, refer to the Light Commercial Section
Backward compatible with 38MAQ Single Zone and 38MGQ Multi-zone Systems

Performance™ Floor Console Indoor Unit

FEATURES

- Modes: Cool, Heat, Dry, Fan, Auto
- Auto-restart function
- Louver control (fixed or swing)
- Three fan speeds
- Air discharge from top and bottom (size 12)
- *Follow Me* (senses temperature at handheld remote)
- Heating Setback (46°F Heating Mode)
- Quiet indoor operation, as low as 37 dB(A)
- Aluminum golden hydrophilic pre-coated fins

COMPATIBLE WITH:

- 38MA*R Outdoor Unit Single Zone (p 24)
- 38MGR Outdoor Unit Multi-zone (p 52)

Sizes: 12/18/24

KEY FEATURES

- 2-Way Optional Air Outlet**
Both up and down air-outlet or up air-outlet only. (Size 12 only.)
- Outside Air Intake**
Outside air is brought into the room via a connection pipe, which keeps the indoor air fresher and cleaner. (Sizes 18 to 24 only.)

CONTROLS

- Wireless Remote Controller included with indoor unit
- Optional Wired Remote Controller KSACN0101AAA (Timer Function)
- Optional Wired Remote Controller KSACN0401AAA (7-Day Programmable) Size 12
- Optional Wired Remote Controller KSACN0501AAA (7-Day Programmable) Sizes 18 and 24

ACCESSORIES

- Wi-Fi® Smartphone control kit KSAIF0401AAA (sizes 18-24)
- 24V Interface for compatibility with conventional thermostat KSAIC0301230

Comfort™ Heat Pump

FEATURES OUTDOOR

- Cost competitive
- Available in 115V and 208/230V
- Built-in basepan heater on heat pump units
- Auto-restart function
- Refrigerant leakage detection
- Quiet outdoor operation, as low as 52 dB(A)
- Aluminum golden hydrophilic pre-coated fins
- Piping length 82~164 ft (25~50m)
- Cooling operating range 0°~122°F (-17°~50°C)
- Heating operating range 0°~86°F (-17°~30°C)

COMPATIBLE WITH:

- 40MHHC High Wall Cooling Only (p 40)
- 40MHHQ High Wall Heat Pump (p 42)

Cooling Only – 38MHRBC
Heat Pump – 38MHRBQ With Basepan Heater

Inverter Compressor
Up to 19.8 SEER
Up to 10.6 HSPF
Sizes: 09/12/18/24

KEY FEATURES

Economical Solution
An economical choice that can provide comfort when you need it.

Rapid Cooling and Heating
After startup, the compressor quickly gets up to maximum speed, cooling or heating the room in minutes.

High Wall

Comfort™ High Wall Indoor Unit

FEATURES

- Available in 115V and 208/230V
- Modes: Cool, Heat, Dry, Fan, Auto
- Turbo Mode
- Up-down louver control (fixed or swing)
- **Filter removal from the top**
- **Improved serviceability**
- Four fan speeds
- Sleep Mode
- *Follow Me* (senses temperature at handheld remote)
- Heating Setback (46°F Heating Mode)
- Quiet indoor operation, as low as 27 dB(A)
- Aluminum golden hydrophilic pre-coated fins

COMPATIBLE WITH:

- 38MHRB Outdoor Unit Single Zone (p 36)
- 38MGR Outdoor Unit Multi-zone (p 52)

Comfort™
S E R I E S

Cooling Only – 40MHHC
Heat Pump – 40MHHQ

Sizes: 09/12/18/24

KEY FEATURES

Improved Serviceability

Full access to the terminal connections and fan after lifting the front cover of the high wall for easy installation and service.

Convenient Filter Removal

The filter is conveniently located on the inlet, allowing direct removal from the top of the unit without opening the panel.

CONTROLS

Wireless Remote Controller included with indoor unit

Optional Wired Remote Controller (7-Day Programmable)

Infinity® Series VRF Heat Pump

FEATURES

- Up to 18.6 SEER cooling efficiency
- Up to 10.0 HSPF heating efficiency
- Available in 3-, 4- and 5-ton capacity range
- 208/230-1-60Hz power supply
- Ability to connect up to nine multiple-style indoor units on a 5-ton system
- Heat pump system
- High-performance outdoor unit with Inverter-driven scroll compressor
- Cooling operating range 5°~118°F
- Heating operating range -13°~64°F
- Connected capacity up to 130%
- Quiet outdoor operation, as low as 58.7 dB(A)

COMPATIBLE WITH:

The 38VMH heat pump system can be matched with the following indoor units and controls:

40VMA, 40VMC, 40VMF, 40VMH, 40VML, 40VMM, 40VMR, 40VMU, 40VMV, 40VMW & 40VM9 (controller)

CARRIER® VRF

Heat Pump System
36,000 to 60,000 Btu/h
3 to 5 tons

KEY FEATURES:

The Carrier 38VMH VRF heat pump system is a combination of an outdoor unit with multiple-style indoor units connected by refrigerant piping and wiring. The outdoor units have stacked dual-condenser fan with side-blow arrangement.

Specifications subject to change.

(*1) Rated conditions.

Cooling: Indoor air temperature 80 °F dry bulb/67 °F wet bulb, outdoor air temperature 95 °F dry bulb.

Heating: Indoor air temperature 70 °F dry bulb, outdoor air temperature 47 °F dry bulb/43 °F wet bulb.

(*2) The source voltage must not fluctuate more than +/-10%.

(*3) The amount does not consider extra piping length. Refrigerant must be added on site in accordance with the actual piping length.

(*4) Select wire size based on larger value of MCA.

MCA: Minimum Circuit Amps (Minimum Circuit Amps required for power supply design).

(*5) These values, measured in anechoic chamber, at a point 1m in front of the unit at a height of 1.4m. During actual operation, these values are normally somewhat higher as a result of ambient conditions.

Toshiba Carrier VRF Heat Recovery

FEATURES

- Available in 6-ton single module which can be twinned up to 12-ton capacity
- Ability to connect up to 25 indoor units
- 3-pipe heat recovery system
- High-performance outdoor units with all Inverter-driven twin rotary compressor
- DC inverter condenser fan motor
- 208/230-1-60Hz voltage
- Cooling ambient operating temperature is 14°~122°F
- Heating ambient operating temperature is -13°~60°F
- Connected capacity up to 150%

COMPATIBLE WITH:

The MMYF-SP heat recovery unit is matched with multiple VRF fan coils.

TOSHIBA CARRIER VRF

Heat Recovery System
72,000 or 144,000 Btu/h
6 or 12 tons

The Toshiba Carrier VRF system is a combination of an outdoor unit with multiple-style indoor units connected by refrigerant piping and wiring. The VRF heat recovery outdoor unit is a single module with twinning capability up to 12 tons to achieve greater capacity.

Heating: Indoor 70° F Dry Bulb, Outdoor 47° F Dry Bulb/43° F Wet Bulb.

The standard pipe

144 type – 228 type

Equivalent piping length: 25 ft, Height difference: 0 ft

(2) The source voltage must not fluctuate more than ±10%.

(3) The amount does not consider extra piping length. Refrigerant must be added on site in accordance with the actual piping length.

(4) Select wire size based on the larger value of MCA.
MCA: Minimum Circuit Amps (Minimum Circuit Amps required for power supply design).

(5) In case the diversity exceeds 135%, the type of indoor unit is limited and the maximum number of indoor unit is reduced.

(6) Only for outdoor unit.

Toshiba Carrier VRF Heat Pump

FEATURES

- Available in 3-, 4- and 5-ton capacity range
- Ability to connect up to nine multiple-style indoor units on a 5-ton system
- Heat pump system
- High-performance outdoor unit with Inverter-driven twin rotary compressor
- 208/230-1-60Hz power supply
- Cooling operating range 23°~122°F
- Heating operating range –13°~60°F
- Connected capacity up to 135%
- Up to 21.5 SEER cooling efficiency
- Up to 11.5 HSPF heating efficiency
- Quiet outdoor operation

COMPATIBLE WITH:

The MCY7 heat pump is matched with multiple VRF fan coils.

TOSHIBA CARRIER VRF

Heat Pump System
36,000 to 60,000 Btu/h
3 to 5 tons

The Toshiba Carrier VRF System is a combination of an outdoor unit with multiple-style indoor units connected by refrigerant piping and wiring. The outdoor units have stacked dual-condenser fan with side-blow arrangement.

COMPATIBLE INDOOR UNITS:

The MCY7 heat pump is matched with multiple VRF fan coils.

Up to 11.5 HSPF

Sizes: 18/24/30/36/48

KEY FEATURES

Space-saving Installation

Up to five indoor units can be connected to a single outdoor unit, reducing the number of outdoor units. All indoor units can be individually controlled and do not need to be installed at the same time.

Multiple-style Indoor Units

Flexibility on the options of indoor unit styles to fit any application or need.

COMBINATIONS:

Light Commercial

PerformanceTM Commercial Heat Pump

FEATURES OUTDOOR

- Inverter Compressor
- Built-in basepan heater
- Condenser high-temperature protection
- Refrigerant leakage detection
- Quiet outdoor operation, as low as 62.5 dB(A)
- Aluminum golden hydrophilic pre-coated fins
- Piping length 213 ft (65 m)
- Cooling operating range -13°~122°F (-25°~50°C)
- Heating operating range -22°~86°F (-30°~30°C)

COMPATIBLE WITH:

- 40MBCQ Cassette (p 62)
- 40MBDQ Ducted (p 64)
- 40MBFQ Console (p 66)

Heat Pump With Basepan Heater

Inverter Compressor
Up to 18.0 SEER
Up to 11.5 HSPF
Sizes: 36/48/58

KEY FEATURES

Longer Piping Lengths
Piping flexibility up to a total piping length of 213 ft (65m)

Low Ambient Cooling
With built-in low ambient kit or special designed PCB, outdoor fan speeds can be changed automatically based on the temperature. The unit can run cooling operation even in low ambient temperatures.

Performance™ Cassette Indoor Unit

FEATURES OUTDOOR

- Modes: Cool, Heat, Dry, Fan, Auto
- Auto-restart function
- Louver control (fixed or swing)
- Three fan speeds
- Outside air intake
- Built-in condensate lift pump
- *Follow Me* (senses temperature at handheld remote)
- Heating Setback (46°F Heating Mode)
- Quiet indoor operation, as low as 49 dB(A)
- Aluminum golden hydrophilic pre-coated fins
- Grille/ceiling panel 3" x 3" P/N 40MBCQ02XXX3

COMPATIBLE WITH:

- 38MBR Outdoor Unit Single Zone (p 58)

Sizes: 36/48

KEY FEATURES

Built-in Condensate Lift Pump
The cassette is supplied with a condensate lift pump that is capable of lifting the water 29.5in (750mm) above the top of the unit.

360° Airflow Panel
With the 360° Airflow panel, air is distributed to every corner of the room.

CONTROLS

Wireless Remote Controller included with indoor unit

Optional Wired Remote Controller KSACN0101AAA (Timer Function)

Optional Wired Remote Controller KSACN0501AAA (7-Day Programmable)

ACCESSORIES

Wi-Fi® Smartphone control kit KSAIF0401AAA

24V Interface for third-party thermostat compatibility KSAIC0301230

Grille is required; sold separately.

Indoor Unit	40MBCQ36---3	40MBCQ48---3
Outdoor Unit Single Zone	38MBRQ36A--3	38MBRQ48A--3

Performance™ Ducted Indoor Unit

FEATURES OUTDOOR

- Modes: Cool, Heat, Dry, Fan, Auto
- Vertical (sizes 36 & 48) or horizontal installation
- Up to 0.8 in WG
- Rear or bottom return
- Outside air intake
- Built-in condensate lift pump
- *Follow Me* (senses temperature at handheld remote)
- Heating Setback (46°F Heating Mode)
- Quiet indoor operation, as low as 38.5 dB(A)
- Aluminum golden hydrophilic pre-coated fins

COMPATIBLE WITH:

- 38MBR Outdoor Unit Single Zone (p 58)

Sizes: 36/48/58

KEY FEATURES

Vertical or Horizontal Installation
Designed for maximum installation flexibility. The secondary drain built-in allows the unit to be mounted vertically allowing either a floor or ceiling-concealed installation depending on existing conditions. (Sizes 36 and 48 only.)

Built-in Condensate Lift Pump
Supplied with a condensate lift pump that is capable of lifting the water 29.5in (750mm) above the top of the unit.

CONTROLS

Wireless Remote Controller included with indoor unit

Wired Remote Controller (7-Day Programmable) included with indoor unit

Toshiba Carrier Light Commercial Heat Pump

FEATURES

- Available in 208/230V
- Quiet outdoor operation, as low as 48 dB(A)
- Piping length 165~245 ft
- Cooling operating range 0°~110°F (-17°~44°C) (w/wind baffles) – Sizes 18 & 24 -13°~110°F (-25°~44°C) (w/wind baffles) – Sizes 36 & 42
- Heating operating range -4°~59°F (-20°~15°C)

Systems can be programmed to operate in cooling-only mode with heating locked out.

COMPATIBLE WITH:

- RAV*KRT High Wall (p 78)
- RAV*UT Cassette (p 80)
- RAV*BT Ducted (p 82)
- RAV*CT Underceiling (p 84)

Inverter Compressor
Up to 21 SEER
Up to 12 HSPF
Sizes: 18/24/30/36/42

Toshiba Carrier High Wall Indoor Unit

FEATURES

- Available in 208/230V
- Modes: Cool, Heat, Dry, Fan, Auto
- Turbo Mode
- One-touch memory
- Sleep Mode
- Filter maintenance indicator
- Quiet indoor operation, as low as 38 dB(A)

COMPATIBLE WITH:

- RAV*AT Outdoor Unit Single Zone (p 74)

Sizes: 18/24

CONTROLS

Wireless Remote Controller included with indoor unit

Optional Wired Remote Controller

ACCESSORIES

Condensate Pump (230V optional)

Insulated 25' Line Set

Systems can be programmed to operate in cooling-only mode with heating locked out

24V Interface for Third-Party Thermostat

FEATURES

- Control the Ductless System using a third-party thermostat¹
- One 24V Interface Kit per indoor head²
- Single and multi-zone applications
- Keeps the Inverter compressor operating as a variable-speed system³
- Rated for outdoor and indoor mounting
- Dry mode contact for active dehumidification control
- Remote on/off contact
- Auxiliary heat control through the thermostat⁴
- Diagnostic code display LEDs
- Power supplied through the outdoor unit

ACCESSORIES:

- 115V Transformer RCD#11203103000393 (Used only on Ductless Systems with 115V power.)

COMPATIBLE WITH:

- | | |
|--------------------|--------|
| • 40MPHA High Wall | (p 22) |
| • 40MAQ High Wall | (p 28) |
| • 40MHH High Wall | (p 40) |
| • 40MBCQ Cassette | (p 30) |

| • 40MBFQ Console | (p 34) |

KSAIC0301230 Ductless Indoor + Outdoor Single Zone 208-230V

KEY FEATURES:

Maintain Inverter Compressor Technology
The new 24V Interface keeps the Inverter compressor operating as a variable-speed system when using a third-party thermostat, making adjustments to maintain more consistent operation.

Easy & Flexible Installation
Experience quick and easy installation between either a single or multi-zone outdoor unit and the fan coil. The interface can be installed either indoors or outdoors.

Consumer Choice & Control
Consumers can choose the type of thermostat they want to use without adversely affecting the efficiency or performance of their Ductless Systems.

COMPATIBILITY:

Compatibility Table				
Type of Indoor unit	Indoor Family Name	Single Zone Outdoor Family Name	Multi-zone Outdoor Family Name	208/230V
High Wall	40MPHA	38MPRA	38MGR	All Sizes
	40MAQ	38MA*R	38MGR	All Sizes
	40MHH	38MHR	38MGR	All Sizes
Cassette	40MBCQ	38MA*R	38MGR	All Sizes
Ducted	40MBDQ	38MA*R	38MGR	All Sizes Except Size 58 (See Note)
Console	40MBFQ	38MA*R	38MGR	All Sizes Except Sizes 12 and 58 (See Note)

Note: The indoor unit requires an updated control board for compatibility with the 24V Interface Kit. High Wall units starting with Serial #4316V10001 are shipped with the compatible control board. Ducted units starting with Serial #4616V10001 are shipped with the compatible control board. For other model numbers not shown on the table above, please contact your ductless representative. Ducted size 58 Console sizes 12 and 58 starting with serial #1419V1001 are shipped with compatible control board.

Notes:
¹ Third-party thermostats used with the 24V Interface Kit will replace the wireless Remote Controller included with the unit. Consult with dealer for more information.
² When using in a Multi-zone System not all the indoor heads require a 24V Interface Kit.
³ A conventional 5-wire thermostat is required.
⁴ A secondary output is necessary for auxiliary heat control.

24V Interface for Multi-Family Air Handler

FEATURES

- Match a multi-family air handler with a single zone outdoor and a third-party thermostat¹
- One 24V Interface Kit per system
- Keeps the Inverter compressor operating as a variable-speed system²
- Rated for outdoor and indoor mounting
- Remote on/off contact
- Auxiliary heat control through the thermostat³
- Diagnostic code display LEDs

COMPATIBLE WITH:

- 38MA*R Outdoor Unit Single Zone
- FMA4 Vertical Fan Coil
- FMC Cased Horizontal Fan Coil
- FMU Uncased Horizontal Fan Coil
- FV4C Fan Coil

KSAIC0301230 Ductless Outdoor*** Matched With Multi-Family Air Handler

KEY FEATURES:

Easy & Flexible Installation

Experience quick and easy installation of the condensing unit, the 24V Interface and the fan coil or furnace/cased coil. Features like customizable airflow adjustments and self-configuring/diagnostic capabilities ensure application flexibility and easier servicing, benefitting contractors and multi-family property managers.

Off-the-shelf Combinations

Reduce inventory management by using the 38MA*R Variable Speed Condensing unit, fan coils, furnaces and cased coils that are already available.

No Additional Heat Strip Needed

Due to the high heating capabilities, there is no need to purchase an additional heat strip to be installed on site, which reduces costs and installation times.

Note: Indoor unit's TXV/Piston required to be removed. It is recommended to use the Piping Adaptor Kit RCD#331831-701 sold separately facilitating the piping installation.

COMPATIBILITY:

Compatibility Table			
Indoor Unit	Nominal System Size MBTUH	Outdoor Model Number	Indoor Model Number

	30	38MAQB30R--3	FV4CNF003L00
	36	38MAQB36R--3	FV4CNF003L00

Note: The FMA4P units are not an acceptable match with these condensing units due to the PSC motor.

Select Proper Blower Speed

Before operating the unit, ensure that the proper blower speed has been selected. Fan speeds are selected manually. Refer to the installation manual of the indoor unit for instructions on how to change the fan speed on the indoor fan coil and select the taps (see Compatibility Table) for the proper matches.

Notes:
¹ Third-party thermostats used with the 24V Interface Kit will replace the wireless Remote Controller included with the unit. Consult with dealer for more information.
² A conventional 5-wire thermostat is required.
³ A secondary output is necessary for auxiliary heat control.

Note:
The use of the 24V interface will disable system’s Wi-Fi® module. Please consider using a Wi-Fi® Thermostat when using the 24V interface.
Wi-Fi® kits cannot be used on networks requiring a user login.
Wi-Fi® kits are only supported with networks using WPA-PSK/WPA2-PSK encryption and no encryption. WPA-PSK/WPA2-PSK encryption is recommended.
Please consult the installation instructions and Owners Manuals of the individual kits for more information.

Standard Features Glossary

24-Hour Timer
Set the unit to start and stop automatically in a 24-hour period.

Airflow Panel
360° air outlet creates a soft and gentle airflow, which circulates throughout the whole space and provides an even temperature distribution in the room.

Auto Defrosting
Prevents the evaporator from freezing and maintains dehumidifying effect in low temperature environments.

Auto Restart Function
If the air conditioner shuts off unexpectedly due to a power outage, it will restart with the previous settings automatically when the power resumes.

Built-In Basepan Heater
A heating belt is fitted on the base plate of the outdoor unit to prevent water accumulation, which improves heat transfer efficiency.

Built-In Condensate Lift Pump
A powerful, built-in drain pump can lift the condensing water up to 29 inches.

Control Box Inside the Cassette
Easy maintenance with the box right inside the Cassette indoor unit. The integrated design provides a more compact size for easier installation.

Convenient Temperature Controls
An intuitive, easy-to-use remote control displays temperature and other functions on a bright, clear LCD screen.

Convertible Return Air Inlet
The air inlet can be installed either at the back or bottom of the ducted unit, allowing for flexible installation to meet the needs of each job.

Crankcase Heater
A heating belt is fitted on the compressor to prevent frosting water accumulation, which improves heat transfer efficiency.

Diamond Outdoor Unit Design
An innovative outdoor unit reduces noise level by more than 3 dB(A), with higher reliability, easier maintenance and improved performance.

Eco Mode
Provides the ultimate energy savings and a comfortable sleeping environment with an intelligent eight-hour night cycle program that saves up to 60% of energy.

Extra-Low Temperature Heating
When it's cold outside, it's warm inside. High Tier and Mid-Tier Ductless systems can be used as a primary heat source, with heat output down to -22° F.

Follow Me
A temperature sensor built into the Remote Controller will sense its surrounding temperature. The unit will adjust the room temperature more accurately to give you comfort.

Golden Fin Coating
A coating on the condenser preventing build-up of mold and bacteria while improving heat transfer efficiency.

High Ambient Cooling
The indoor space can be cooled to a desired, comfortable indoor temperature, even when outside temperatures reach up to 122° F.

High Heating Operation
The High Tier and Mid-Tier systems can be a primary heat source, with High Heating down to -22° F, so when it's cold outside, it's warm inside.

Independent Vane Control
Airflow direction from individual outlets can be controlled separately to achieve the optimal airflow based on a room's configuration.

Inverter Technology
With the Inverter, the outdoor unit uses only the energy required to meet the desired temperature requirements of the indoor unit, thus lowering energy consumption.

Louver Position Memory
A horizontal louver will automatically move to the same position that was set the last time the unit was on.

Low Ambient Cooling
Even when it's cold outside, but warm inside, the air conditioner will keep the area cool – perfect for server rooms and commercial kitchens.

Refrigerant Leak Detection
The indoor unit shows error code “EC” and stops automatically when refrigerant leakage is detected. This protects the compressor from high temperature damage due to refrigerant leakage.

Single and Multi-zone Compatible
A Single Zone outdoor unit can be paired with any indoor unit type. One Multi-zone unit can be leveraged for up to five indoor units of any style.

Sleep Mode
This function enables the system to automatically increase cooling or decrease heating by around four degrees for the first two hours, then holds steady for the next five hours. After that, it will switch off. This function achieves both energy savings and comfort at night.

Stepless Frequency Adjustment
Precise control maintains a stable and constant room temperature while reducing the sound level and saving energy.

Two-Way Draining
Connections, piping and drainage can be installed from both the left and right on the High Wall.

Universal Matching
Get maximum flexibility with up to five different indoor units connected to one outdoor unit. Maintain a different temperature in each room for ultimate comfort, with the best indoor unit choice for each. Universal matching units are also available for Single Zone outdoor units. One outdoor unit can match any type of indoor unit.

Wired Remote Controller
Compared to an infrared remote controller, a Wired Controller can be fixed on the wall and makes air conditioner operation more convenient for larger setups or ducted units.
