## Remote control

This section describes the controls and functions of the remote control when it is set in AMP mode. Please make sure to select AMP mode before beginning operation. See “REMOTE CONTROL FEATURES” on page 43 to operate other components with this remote control.

### ① Infrared emitter

Outputs infrared control signals. Aim this emitter at the component you want to operate.

### ② Input selector buttons

Select the input source and change the control area.

### ③ Sound field program/Numeric buttons

Use to select sound field programs or input numbers.

### ④ LEVEL

Selects the effect speaker channel to adjust.

### ⑤ Cursor buttons $\wedge/\vee/\langle/\rangle/\text{SELECT}$

Use to select and adjust sound field program parameters or SET MENU items.

### ⑥ TEST

Outputs the test tone to adjust the speaker levels.

### ⑦ STANDBY

Sets this unit in standby mode.

### ⑧ SYSTEM POWER

Turns on the power of the unit.

### ⑨ SLEEP

Sets the sleep timer.

### ⑩ 6CH INPUT

Selects the audio source connected to the 6CH INPUT jacks.

### ⑪ CODE SET

Used to set up manufacturer codes (see page 44).

### ⑫ AMP

Switches control from a previously selected component by using the input selector buttons to this unit.

### ⑬ VOLUME +/–

Increases or decreases the volume level.

**⑯ MUTE**

Mutes the sound. Press again to restore the audio output to the previous volume level.

**⑰ 6.1/5.1**

Switches on or off the Dolby Digital + Matrix 6.1 or DTS + Matrix 6.1 decoder.

**⑱ STEREO**

Switches between normal stereo and DSP effect reproduction. When you select STEREO the unit mixes down all Dolby Digital and DTS signals (except the LFE channel) as well as those 2-channel signals without effect sounds, to the front left and right speakers.

**⑲ NIGHT**

Sets the unit in night listening mode.

**⑳ SET MENU**

Selects the set menu mode.

**■ Using the remote control**

The remote control transmits a directional infrared beam. Be sure to aim the remote control directly at the remote control sensor on the main unit during operation.

**■ Handling the remote control**

- Do not spill water or other liquids on the remote control.
- Do not drop the remote control.
- Do not leave or store the remote control in the following types of conditions:
  - high humidity such as near a bath
  - high temperature such as near a heater or stove
  - extremely low temperature
  - dusty places

# REMOTE CONTROL FEATURES

In addition to controlling this unit, the remote control can also operate other A/V components made by YAMAHA and other manufacturers. To control other components, you must set up remote control with the appropriate manufacturer codes.

## Control area

### ■ Controlling this unit

The shaded areas below can be used to control this unit when the AMP mode is selected. Press AMP to select the AMP mode.

### ■ Controlling other components

The shaded areas below can be used to control other components. Each button has a different function depending on the selected components. Select the component you want to control by pressing an input selector button.

### Component control area

You can control up to 7 different components by setting appropriate manufacturer codes (see page 44).

## Setting manufacturer codes

You can control other components by setting the appropriate manufacturer codes. Codes can be set up for each input area.

The following table shows the default component (Library: component category) and the manufacturer code for each area.

Input area	Component category (Library)	Manufacturer	Code
CD	CD player	YAMAHA	199
MD/CD-R	CD recorder	YAMAHA	499
TUNER* <sup>1</sup>	Tuner	YAMAHA	Fixed
DVD	DVD player	YAMAHA	699
D-TV/CBL* <sup>2</sup>	—	—	—
V-AUX	—	—	—
VCR	—	—	—

\*<sup>1</sup> You can control this unit and other Yamaha tuners only.

\*<sup>2</sup> You can only set TV manufacturer codes for the D-TV/CBL buttons.

- 1 Press and hold CODE SET. With CODE SET depressed, press an input selector button to select the component you want to set up.

### Note

- You must press and hold CODE SET throughout this procedure.

- 2 With CODE SET depressed, use the numeric buttons to enter the 3 digit code of your component's manufacturer.

- Refer to the LIST OF MANUFACTURER'S CODES at the end of this manual.
- To reset the code, enter the factory-set code for each component shown in the above table.

### Notes

- If the manufacturer of your component has more than one code, try each of them until you find the correct one.
- You can only assign one manufacturer code to each input selector button.

## Controlling other components

Once you set the appropriate manufacturer codes, you can use this remote to control your other components. Note that some buttons may not correctly operate the selected component. Use the input selector buttons to select the component you want to operate. The remote control automatically switches to the appropriate control mode for that component.
