

# 手冊「印刷」尺寸 90x110mm(1P)

The image shows the front cover of the HyRead Gaze Mini quick start guide. It features the product name 'HYREAD Gaze Mini' at the top, followed by '快速指南 quick start guide'. Below the title, there is a large image of the e-reader device. To its right are icons for a '快速指南 quick start guide', a '傳輸 / 充電線 cable', and a '充電器 power adapter'. At the bottom left, there is a section of Chinese text about wireless device usage regulations. The bottom right corner contains several international certification logos: CE, UKCA, FCC, RoHS, and a recycling symbol.

#### FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions,

may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on,

the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna.

. Increase the separation between the equipment and receiver.

. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

. Consult the dealer or an experienced radio/TV technician for help.

Cautions to this device not explicitly approved by manufacturer could Cautions:

. Any changes or modifications void your authority to operate this equipment. RF Exposure Information

The device was evaluated to meet general RF exposure requirements. This equipment should be installed and used with a minimum distance of 0 mm between the radiator and your body.
