# XCLEAR
## TRUE WIRELESS EARBUDS
## STEPS FOR WEARING THE EARBUDS

STEP 1: Place the XClear Earbud inside your ear.

STEP 2: Then, rotate Earbud, back and away, to find a snug and comfortable fit. (Earbud fitting varies due to ear size).

## EXAMPLES OF IMPROPER FIT

VERTICAL

Example 1

HORIZONTAL

Example 2

**Do Not Rotate Earbuds Fully Horizontal (doing so WILL cause Earbuds to fall out).**

## Pairing

1. Open up the case to automatically Power ON earbuds. LED Lights will flash and a voice prompt will say, "Pairing".

⚠️ **ATTENTION:** Earbuds will be activated if removed from the Charging Case or if the Charging Case reaches 0% battery. They can be turned off manually by holding the MFB buttons for 3-4 seconds.

‹ Settings   **Bluetooth**

**Bluetooth**

Car Receiver     Not Connected ⓘ
**XClear X1**

2. Go to Settings. Go to Bluetooth. Select "**XClear X1**". Earbuds are now connected.

### Factory Reset

**Follow the 2-Step Process to perform a Factory Reset.**

*IMPORTANT: You MUST turn OFF the earbuds first, before you RESET them. The Factory Reset is a 2-Step Process.*

**Step 1: TURN OFF**
Action: Hold MFB buttons for 3-4 seconds.
Result: (LED Lights will blink signalling the earbuds are OFF).

**Step 2: RESET**
Action: Hold MFB buttons for 10-15 seconds.
Result: (LED Lights will turn on, blink, then eventually stop).

**COMPLETE**
Earbuds are now RESET and enter OFF state.

**IMPORTANT:** Please remember to DELETE your previous pairing history BEFORE you perform a Factory Reset. The Factory Reset DOES NOT remove pairing history.

# FAQ

**Q:** What if I cannot find "**XClear X1**" in the Bluetooth Page?

**Reason 1:** Earbuds are paired to another device.
**Solution:** Turn OFF Bluetooth on the mistaken devices to disconnect the Earbuds. Then, pair to your preferred device.

**Reason 2:** Earbuds reached 0% battery life.
**Solution:** Place both Earbuds into Charging Case and close it. Then, charge Earbuds for 5 mins. If Charging Case has low battery, use Micro USB Cable to charge it as well.

**Reason 3:** Earbuds are OFF.
**Solution:** Press and hold MFB's for 3-4 secs. to turn ON the Earbuds.

**Q:** Why won't the Left and Right Earbud sync? Why is sound only emitting from one Earbud? What if there are 2 "**XClear X1**" choices on the Bluetooth page?

**Solution:** Complete the following process: Turn OFF Earbuds (hold MFB's for 3-4 secs.). Turn ON Earbuds (hold MFB's for 5 secs.). Voice prompt will say "Pairing". White & Red LED Lights will flash slowly. Double tap MFB's (both L/R). LED Lights will flash faster. Once LED Lights flashing slows, the synching process is complete.
