

# Neonate Workflow: Visits List for Maternity, NICU, and Pediatric Nursing Staff

Oracle Health PowerChart **EDUCATION**

## Neonate Workflow: Visits List Component

View a patient's appointments and encounters details directly from the Visits List Component within the Neonate Workflow located in Nurse View on the Menu.

1. Click on a visit to open a side panel view to review additional Encounter/Appointment Details.
2. Select Open to open that encounter from component view.
3. Click on Show Full View to view additional visits.
