**THINKCAR**  
VENU4 Pro TPMS  
Intelligent Detection Tool  
Quick Start

**1 Product Overview**

**2 Equipment parameters**

Model name	VENU4 Pro
Model number	VENU4-001
Equipment type	TPMS
Equipment version	V1.0.0
Equipment ID	VENU4-001

**3 Equipment check**

The equipment must be checked for the following items before use:

- 1. Power supply: The battery must be fully charged.
- 2. Antenna: The antenna must be clean and free of damage.
- 3. Software: The software must be updated to the latest version.
- 4. Calibration: The equipment must be calibrated according to the user manual.
- 5. Accuracy: The equipment must be calibrated according to the user manual.

**4 Download VENU4 tool app**

**5 Usage**

1. Turn on the power switch.
2. Connect the antenna to the vehicle.
3. Press the "Start" button to start the detection.
4. Press the "Stop" button to stop the detection.
5. Press the "Print" button to print the results.
6. Press the "Exit" button to exit the application.

The VENU4 Pro will appear in the upper left corner of the VENU4 Pro app.

**1. TPMS Functions**

The VENU4 Pro can detect and learn the TPMS ID, frequency, and signal strength of the TPMS. It can also detect and learn the TPMS ID, frequency, and signal strength of the TPMS. It can also detect and learn the TPMS ID, frequency, and signal strength of the TPMS.

The VENU4 Pro can detect and learn the TPMS ID, frequency, and signal strength of the TPMS. It can also detect and learn the TPMS ID, frequency, and signal strength of the TPMS. It can also detect and learn the TPMS ID, frequency, and signal strength of the TPMS.

**2. Sensor Registration**

The VENU4 Pro can register the TPMS ID, frequency, and signal strength of the TPMS. It can also register the TPMS ID, frequency, and signal strength of the TPMS. It can also register the TPMS ID, frequency, and signal strength of the TPMS.

The VENU4 Pro can register the TPMS ID, frequency, and signal strength of the TPMS. It can also register the TPMS ID, frequency, and signal strength of the TPMS. It can also register the TPMS ID, frequency, and signal strength of the TPMS.

**3. Data Management**

The VENU4 Pro can manage the TPMS ID, frequency, and signal strength of the TPMS. It can also manage the TPMS ID, frequency, and signal strength of the TPMS. It can also manage the TPMS ID, frequency, and signal strength of the TPMS.

The VENU4 Pro can manage the TPMS ID, frequency, and signal strength of the TPMS. It can also manage the TPMS ID, frequency, and signal strength of the TPMS. It can also manage the TPMS ID, frequency, and signal strength of the TPMS.

**4. Learning**

The VENU4 Pro can learn the TPMS ID, frequency, and signal strength of the TPMS. It can also learn the TPMS ID, frequency, and signal strength of the TPMS. It can also learn the TPMS ID, frequency, and signal strength of the TPMS.

The VENU4 Pro can learn the TPMS ID, frequency, and signal strength of the TPMS. It can also learn the TPMS ID, frequency, and signal strength of the TPMS. It can also learn the TPMS ID, frequency, and signal strength of the TPMS.

**5. Querying Status**

The VENU4 Pro can query the TPMS ID, frequency, and signal strength of the TPMS. It can also query the TPMS ID, frequency, and signal strength of the TPMS. It can also query the TPMS ID, frequency, and signal strength of the TPMS.

## FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

## **IC Warning**

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.

Cet appareil est conforme aux CNR exemptes de licence d'Industrie Canada .

Son fonctionnement est soumis aux deux conditions suivantes :

- ( 1 ) Ce dispositif ne peut causer d'interférences ; et
- ( 2 ) Ce dispositif doit accepter toute interférence , y compris les interférences qui peuvent causer un mauvais fonctionnement de l'appareil.

Le dispositif a été conçu pour répondre à la demande générale de radioexposition.
