Commercial Touch Display User Guide

IMPORTANT: Please read this User Guide to obtain important information on installing and using your product in a safe manner, as well as registering your product for future service. Warranty information contained in this User Guide will describe your limited coverage from ViewSonic® Corporation, which is also found on our web site at http://www.viewsonic.com in English, or in specific languages using the Regional selection box of our website.

# Thank you for choosing ViewSonic®

As a world-leading provider of visual solutions, ViewSonic® is dedicated to exceeding the world's expectations for technological evolution, innovation, and simplicity. At ViewSonic®, we believe that our products have the potential to make a positive impact in the world, and we are confident that the ViewSonic® product you have chosen will serve you well.

Once again, thank you for choosing ViewSonic®!

# **Safety Precautions**

Please read the following **Safety Precautions** before you start using the device.

- Keep this user guide in a safe place for later reference.
- Read all warnings and follow all instructions.
- Do not use the device near water. To reduce the risk of fire or electric shock, do not expose the device to moisture.
- Never remove the rear cover. This display contains high-voltage parts. You may be seriously injured if you touch them.
- Avoid exposing the device to direct sunlight or other sources of sustained heat.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other devices (including amplifiers) that may increase the temperature of the device to dangerous levels.
- Use a soft, dry cloth to clean the external housing. For more information, refer to the "Maintenance" section.
- When moving the device, be careful not to drop or bump the device on anything.
- Do not place the device on an uneven or unstable surface. The device may fall over resulting in an injury or a malfunction.
- Do not place any heavy objects on the device or connection cables.
- If smoke, an abnormal noise, or a strange odor is present, immediately turn the device off and call your dealer or ViewSonic<sup>®</sup>. It is dangerous to continue using the device.
- The device is a monitor with an LED backlight intended for general office use.
- Do not attempt to circumvent the safety provisions of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding-type plug has two blades and a third grounding prong. The wide blade and the third prong are provided for your safety. If the plug does not fit into your outlet, obtain an adapter and do not attempt to force the plug into the outlet.
- When connecting to a power outlet, DO NOT remove the grounding prong. Please ensure grounding prongs are NEVER REMOVED.
- Protect the power cord from being treaded upon or pinched, particularly at the plug, and at the point where it emerges from the equipment. Ensure that the power outlet is located near the equipment so that it is easily accessible.

- Only use attachments/accessories specified by the manufacturer.
- When a cart is used, use with caution when moving the cart/equipment combination to avoid injury from tipping over.
- Disconnect the power plug from the AC outlet if the device is not being used for a long period of time.
- Place the device in a well-ventilated area. Do not place anything on the device that prevents heat dissipation.

- Refer all servicing to qualified service personnel. Service will be required when the unit has been damaged in any way, such as:
  - » if the power supply cord or plug is damaged
  - » if liquid is spilled onto or objects fall in the unit
  - » if the unit is exposed to moisture
  - » if the unit does not operate normally or has been dropped

# Introduction

# **Package Contents**

- AAA Battery
- Camera Plate
- 5 x Clamp
- Compliance Statement
- HDMI Cable (3 m)
- Power Cord (3 m)
- Quick Start Guide

- 4 x Replacement Pen Nib
- USB Type C Cable (1.8 m)
- RS-232 Adapter
- 8 x Screw
- 2 x Touch Pen
- USB Touch Cable (3 m)
- Remote Control

**Note:** The cables included in your package may vary depending on your country. Please contact your local reseller for more information.

# Wall Mount Kit Specifications (VESA)

**Note:** Please follow the instructions in the wall mount installation guide to install your wall mount. If attaching to other building materials, please contact your nearest dealer.

| Model                      | VESA Spec. (A x B) | Standard Screw (C x D) | Quantity |
|----------------------------|--------------------|------------------------|----------|
| IFP6553-ED<br>IFP6553-ED-M | 600 x 400 mm       | M8 x 20 mm             | 4        |
| IFP7553-ED<br>IFP7553-ED-M | 800 x 400 mm       | M8 x 20 mm             | 4        |
| IFP8653-ED<br>IFP8653-ED-M | 800 x 600 mm       | M8 x 20 mm             | 4        |

**Note:** Do not use screws that are longer than the standard dimension, as they may cause damage to the inside of the display.

### **Front View**

### **Rear View**

### **Control Panel**

| Number | Item     | Description   |
|--------|----------|---|
| 1      | 0        | Ambient light sensor.   |
| 2      |          | Remote control IR receiver.   |
| 3      | (4)      | <ul> <li>Power indicator light.</li> <li>Press to turn on the display.</li> <li>Once on, press again to turn on or off the backlight only.</li> <li>Once on, press and hold to turn off the display.</li> </ul> |
| 4      |          | Return to the ViewBoard's main interface.   |
| 5      | <b>(</b> | Return to the previous interface level (i.e., go back to a previous screen).  |
| 6      |          | Enable or disable the touch screen function.  |
| 7      |          | Freeze the current image on the screen.   |
| 8      | (1)-     | Decrease the sound level.   |
| 9      | (rJ+)    | Increase the sound level.   |

# I/O Panels

# Front I/O

| Number | Item               | Description   |
|--------|--------------------|---|
| 1      | (FRONT TYPE C)     | <ul> <li>USB Type C input</li> <li>USB 3.0 standard</li> <li>Supports DP v. 1.2 with audio, video, and touch</li> <li>Supports LAN by 10M/100M</li> <li>Supports power charge up to 100W. Power charge supported: 5V/3A, 9V/3A, 15V/3A, 20V/3.25A, 20V/5A</li> </ul>                      |
| 2      | (FRONT HDMI)       | <ul> <li>HDMI input</li> <li>Connect to a computer with HDMI output, set-top box, or other video device</li> <li>Supports 4K display; HDMI v. 2.1; CEC</li> </ul>   |
| 3      | TOUCH<br>(TOUCH 3) | <ul> <li>USB Type B</li> <li>Touch signal output to external computer</li> <li>After connection (with an external computer), the device connected to the USB port can directly be used by the external computer.</li> <li>Note: Pairs with the FRONT HDMI port ( ) next to it.</li> </ul> |
| 4      | USB                | <ul> <li>USB Type A input</li> <li>USB 3.0 standard</li> <li>Connect USB devices such as hard disks, keyboard, mouse, etc.</li> <li>Automatically switches between the external computer and ViewBoard</li> <li>Supports: 5V/0.9A (x2)</li> </ul>   |
| 5      | NFC                | NFC reader  |

# Rear I/O

| Number | Item      | Description   |
|--------|-----------|---|
| 1      | RS232     | Serial interface; used for mutual transfer of data between devices  |
| 2      | AUDIO OUT | Audio output to an external speaker/headset   |
| 3      | LAN       | Standard RJ45 (10M/100M/1000M) Internet connection interface. Features hub support for network sharing.   |
| 4      | SPDIF     | Multichannel sound via optical signals.   |
| 5      | AUDIO IN  | External computer audio input   |
| 6      | VGA       | External computer video input   |
| 7      | TOUCH 2   | <ul> <li>USB Type B</li> <li>Touch signal output to external computer</li> <li>After connection (with an external computer), the device connected to the USB port can directly be used by the external computer</li> <li>Note: Pairs with the VGA and DP port.</li> </ul> |
| 8      | DP        | <ul><li>DisplayPort input, v. 1.2</li><li>Supports 4K display</li></ul>   |

# Side I/O

| Number | Item        | Description  |
|--------|-------------|--|
| 1      | TYPE C Data | <ul><li> USB Type C</li><li> For data read/write only</li><li> USB 3.0 standard</li></ul>  |
| 2      | USB         | <ul> <li>USB Type A input</li> <li>USB 3.0 standard</li> <li>Connect USB devices such as hard disks, keyboard, mouse, etc.</li> <li>Automatically switches between the external computer and ViewBoard</li> <li>Supports: 5V/0.9A (x2)</li> </ul>                          |
| 3      | HDMI 3      | <ul> <li>HDMI input</li> <li>Connect to a computer with HDMI output, set-top<br/>box, or other video device</li> <li>Supports 4K display; HDMI v. 2.0; CEC; ARC</li> </ul>   |
| 4      | HDMI 2      | <ul> <li>HDMI input</li> <li>Connect to a computer with HDMI output, set-top<br/>box, or other video device</li> <li>Supports 4K display; HDMI v. 2.0; CEC</li> </ul>  |
| 5      | HDMI 1      | <ul> <li>HDMI input</li> <li>Connect to a computer with HDMI output, set-top<br/>box, or other video device</li> <li>Supports 4K display; HDMI v. 2.1; CEC</li> </ul>  |
| 6      | TOUCH 1     | <ul> <li>USB Type B</li> <li>Touch signal output to external computer</li> <li>After connection (with an external computer), the device connected to the USB port can directly be used by the external computer</li> <li>Note: Pairs with the HDMI 1/2/3 ports.</li> </ul> |

| Number | Item       | Description  |
|--------|------------|--|
| 7      | (Type C 1) | <ul> <li>USB Type C input</li> <li>USB 3.0 standard</li> <li>Supports DP v. 1.2 with audio, video, and touch</li> <li>Supports power charge up to 100W. Power charge supported: 5V/3A, 9V/3A, 15V/3A, 20V/3.25A</li> </ul> |
| 8      | HDMI OUT   | Connect to devices with HDMI input function. Supports 1080p and 4K@60Hz.  Note: Supported by select models.  |
| 9      | TYPE C OUT | Connect to devices with Type C input function. Supports 1080p and 4K@60Hz.  Note: Supported by select models.  |
| 10     | USB        | <ul> <li>USB Type A input</li> <li>USB 2.0 standard</li> <li>Only for ViewBoard source use</li> </ul>  |

### **OPS and Wi-Fi Slot**

Note: OPS output: 18V/5A.

### **Remote Control**

| 17     | Adjust Aspect Ratio                         |  |

### **Installing the Batteries**

- 1. Open the battery compartment by removing the battery cover.
- 2. Insert two AAA batteries, ensuring correct polarity.
- **3.** Replace the battery cover until it clicks into place.

#### Note:

- Store the remote control and batteries away from heat and humidity.
- Use only recommended battery types.
- Remove batteries when not in use for extended periods.
- Dispose of old batteries following the manufacturer's instructions and local regulations.

### **Receiver Range**

The working range of the remote control is shown here. It has an effective range of 8 m in a straight line, 30 degrees left and right. Ensure there is nothing obstructing the remote control's signal to the receiver.

### **Using Gestures**

Touch gestures allow the user to use pre-determined commands without using a keyboard or mouse. Using gestures on the display, the user can select/deselect objects, change the location of an object, access settings, erase digital ink, and much more.

### **Select and Deselect an Object (Clicking)**

Press and release the display to select/ deselect options or objects. This is like a single, standard left mouse click.

### **Display Menu Options (Right-Clicking)**

Press and hold the display with your finger. This is like a single, standard right mouse click.

### **Double-Clicking**

Quickly press and release twice in the same location on the display. This is like a double, standard left mouse click.

### **Moving an Object**

Press and hold the object on the display and slowly drag it with your finger to your desired location.

### **Erasing Digital Ink**

Use your flattened hand, palm, or fist on the display and move your hand across the area which you wish to erase.

### **Swipe Up for General Settings**

Swipe up from the bottom of the display to launch the General Settings.

# **Making Connections**

# **Connecting to Power**

- 1. Connect the power cord to the AC IN jack at the rear of the display.
- 2. Plug the power cord plug into a power outlet.

# **Connecting to External Devices and Enabling Touch**

Your external device(s) can be connected in any of the following configurations:

Note: The TOUCH 1 port is for the HDMI 1/HDMI 2/HDMI 3 ports. The TOUCH 2 port is for the DP and VGA ports. The TOUCH 3 port is for the FRONT HDMI port.

### **USB Type C Connection**

Connect a USB Type C cable from your external device to the USB Type C port on the display.

#### **HDMI Connection**

- 1. Connect an HDMI cable from your external device to the FRONT HDMI/HDMI 1/HDMI 2/HDMI 3 port on the ViewBoard.
- **2.** Connect a USB Type B to A cable to your external device from the appropriate **TOUCH** port of the display.

### **DisplayPort Connection**

- **1.** Connect a DisplayPort cable from your external device to the **DP** port on the ViewBoard.
- **2.** Connect a USB Type B to A cable to your external device from the **TOUCH 1** port of the display.

#### **VGA Connection**

- **1.** Connect a VGA cable from your external device to the **VGA** port on the ViewBoard.
- 2. Connect a USB Type B to A cable to your external device from the **TOUCH 2** port of the display.

### **RS-232 Connection**

When you use a RS-232 serial cable to connect the display to an external computer or control system, certain functions can be controlled remotely such as: power on and off, volume adjustment, input select, brightness, and more.

### **USB Connection**

Just like any PC, it is easy to connect various USB devices and other peripherals to the display.

### **USB Type A**

Plug the USB device or storage drive into a USB Type A port of the display.

### **USB Type C**

Plug the USB device or storage drive into the USB Type C port of the display.

# **Network Connection**

To connect to a local network, connect an Ethernet cable to your network, then connect the other end to the **LAN** port of the display.

# **Media Connection**

- 1. Connect an HDMI cable to an HDMI port on the display and peripheral device.
- **2.** Press the **INPUT** button on the remote control and switch to the HDMI input source.

### **Audio Connections**

#### **Audio In**

To play audio from your external device, connect one end of an audio cable to your external device, and the other end to the **AUDIO IN** port of the display.

### **Audio Out**

To play audio from the display through an external speaker, connect one end of an audio cable to the external speaker, and the other end to the **AUDIO OUT** port of the display.

#### **SPDIF**

To connect to an external sound system, connect an optical cable from the display's **SPDIF** port to your sound system's optical connector.

### **Video Output**

#### **HDMI Out**

- **1.** Connect an HDMI cable to the HDMI IN port of your display device, then connect the other end to the **HDMI OUT** port of the display.
- **2.** Press the **INPUT** button on the remote control and switch to the HDMI IN input source.

### **Type C Out**

- **1.** Connect a USB Type C cable to the **Type C IN** port of your display device, then connect the other end to the **Type C OUT** port of the display.
- **2.** Press the **INPUT** button on the remote control and switch to the Type C IN input source.

# **Optional Connections**

The display comes with an **OPS Slot** as well as a **Wi-Fi Slot** for optional add-ons such as a slot-in PC (e.g., VPC-35) or Wi-Fi card (e.g., VB-WIFI-005).

### Slot-in PC (OPS Slot) Installation

1. Remove the OPS Slot cover of the display.

2. Carefully insert the slot-in PC into the OPS Slot of the display.

3. Secure the slot-in PC to the display.

# Wi-Fi Card (Wi-Fi Slot) Installation

1. Remove the Wi-Fi Slot cover of the display.

2. Carefully insert the slot-in Wi-Fi card into the Wi-Fi Slot of the display.

**3.** Secure the slot-in Wi-Fi card to the display.

# **Using the Display**

# **Turning the Display On/Off**

**1.** Make sure the power cord is connected, plugged into a power outlet, and the Power Switch is in the on position.

Note: The Power Switch is located at the bottom of the display.

2. Press the Power button on the display or remote control to turn on the display.

**3.** To turn the display off, press and hold the **Power** button.

# **Initial Launch Setup**

When you first turn on your display, an initial setup wizard will launch.

**1.** Choose your preferred Language.

2. Adjust accessibility features as needed.

**3.** Setup and connect to a network.

4. Set and adjust the Date and Time as needed.

**5.** Copy your apps and data from another device to the display.

- If you want a fresh start, tap **Don't copy**.
- To start copying and transferring your apps and data, tap Next.
  - » If you use a USB cable to copy and transfer data, connect the cable to your devices and follow the on-screen directions to start transfer.
  - » If you don't have a cable, tap No cable? to start transfer wirelessly.

**Note:** Before starting, make sure your another device is connected to power, turned on, and unlocked.

Transferring data wirelessly

6. Sign in with a Google account, or tap Skip to continue without signing in.

7. Accept or decline the Google services.

**8.** Set a PIN to setup a Screen lock. Then, tap **Next**, enter the PIN again, and tap **Confirm**.

**Note:** Personal Identification Number (PIN) helps prevent unauthorized use of the display. It is strongly recommended to set a pin for each of the owner profiles as only owners can manage access to the display(s) and more.

**9.** Select **Enable Device Owner Permissions** to confirm the ownership and gain access to the advanced features of the Manager application. Then, tap **Next**.

**10.** Select the preferred boot up mode, then tap **Next**.

- 11. Select the preferred Operating System (OS) launcher.
  - Select Enable ViewBoard Launcher for the ViewBoard launcher scheme.
  - Deselect Enable ViewBoard Launcher for the Android launcher scheme.

**Note:** You can always switch to the other launcher scheme later in the **System** settings. Go to "ViewBoard Settings" for more details.

ViewBoard Launcher (Scheme B)

**12.** Accept or decline the Privacy and Copyright Protection terms. Then, tap **Finish** to complete the initial setup.

### **Home Screen**

**Note:** The Home Screen layout varies between the two Launchers. Use the following display Launcher example as a general reference only.

On the Home Screen select from Use as Guest and Sign In.

### **How to Sign Up**

Select the **How to Sign Up** button at the bottom of the screen, then scan the QR code and follow the directions to log in.

#### **Use as Guest**

Select the **Use as Guest** button to log in with a guest account.

**Note:** Please note that user settings cannot be saved when logging in with a guest account.

# Sign In

Select the **Sign In** button to log in with various accounts.

# **Home Screen Message**

The Home Screen message can be edited by selecting it directly on the Home Screen.

Additionally, a password can be set by selecting the **Set Up Password** button.

### **Toolbar**

The Toolbar is where applications and tools can be found. Trigger icons are on the right, left, and bottom edge of the screen for quick access.

To launch an application or tool:

- 1. Tap a Toolbar trigger icon.
- 2. Tap on your desired application or tool.

**Note:** The default Toolbar setting is to be available for all input sources; however, users can go to: **Settings** > **Preference** > **Toolbar settings** to adjust the options: (1) Show side Toolbar, (2) Hide side toolbar, (3) Disable in all input sources.

# **Toolbar Icons**

| lcon         | Description   |  |
|--------------|---|--|
| Return       | Return to the previous operation screen.  Note: Only for the display source.  |  |
| Home         | Return to the Home Screen.  |  |
| Recent       | ViewBoard  ViewBoard  Select the small frame to display in a PIP window.  Note: Selecting the "X" will close the application. |  |
| Applications | View all installed applications.  |  |
| File Folder  | Browse and open files.  |  |

| lcon          | Description   |
|---------------|---|
| 44            | Quickly view and adjust various frequently used tools.  |
| Tools         |   |
| <b>Marker</b> | Annotate with underlying, highlighting, and more.  Note: Pick up the Touch Pen to turn on <b>Marker</b> . |
| Input Source  | Select and change the input source signal.  |

# **On-Screen Display (OSD) Menu - General Settings**

Access Input, Display, and other general settings through the OSD Menu.

Input Settings

**Display Settings** 

Open the OSD Menu by pressing **INPUT** on the remote control or tapping the **Input Source** icon.

The **Input** setting can also display by tapping the signal source icon.

#### **Input Settings**

To select an input source:

- 1. Press INPUT on the remote control or tap the Input Source icon to display the Input Settings menu.
- **2.** Press the **Navigation** buttons  $(\uparrow / \downarrow / \leftarrow / \rightarrow)$  on the remote control to select the input source you want.

**Note:** The PC source will only be visible when a slot-in computer is installed.

- **3.** Press **ENTER** on the remote control, or tap the desired input source.
- **4.** Press **BACK** on the remote control, or tap a blank area outside of the menu to exit.

To adjust the brightness:

- 1. Press INPUT on the remote control or tap the Input Source icon to display the Input Settings menu.
- 2. Drag the brightness slider directly to adjust the backlight value.
- **3.** Press **BACK** on the remote control, or tap a blank area outside of the menu to exit.

To adjust the volume:

- 1. Press INPUT on the remote control or tap the Input Source icon to display the Input Settings menu.
- **2.** Drag the volume slider directly to adjust the value, or press the **Volume** buttons on the remote control to adjust. Additionally, pressing **Mute** on the remote control will mute/unmute the volume.
- **3.** Press **BACK** on the remote control, or tap a blank area outside of the menu to exit.

### **Display Settings**

To adjust the display settings:

- 1. Press INPUT on the remote control or tap the Input Source icon to display the Input Settings menu. Then select the Display tab.
- **2.** Press the **Navigation** buttons ( $\uparrow/\downarrow/\leftarrow/\rightarrow$ ) on the remote control to select the menu option you want.
- 3. Press ENTER on the remote control to confirm or press the Navigation buttons (←/→) to adjust the menu option. Additionally, tap/adjust the menu option directly.
- **4.** Press **BACK** on the remote control, or tap a blank area outside of the menu to exit.

# **Display Settings - Menu Options**

| Item                 | Description  |   |  |
|----------------------|--|---|--|
| Auto Brightness      | Automatic brightness adjustment. Adjusts maximum brightness according to ambient light levels.   |   |  |
| Energy Saving        | Enable to red  | uce power consumption.  |  |
| Eye Care             |  | Adjusts the filter that blocks high-energy blue light for a more comfortable viewing experience.  |  |
|                      | Select a prede   | efined picture setting.   |  |
|                      | Mode   | Description   |  |
|                      | Standard   | Default picture mode.   |  |
| Picture Mode         | Bright   | Maximizes the brightness of the display. This mode is suitable for environments where extra-high brightness is required (e.g., well-lit rooms). |  |
|                      | Soft   | A high brightness level with lower contrast level.  |  |
|                      | Custom   | Customize the picture settings.   |  |
| Brightness           | Adjust the background black levels of the screen.  |   |  |
| Contrast             | Adjusts the difference between the image background (black level) and the foreground (white level). Use this to set the peak white level after you have previously adjusted the <b>Brightness</b> setting to suit your selected input and viewing environment. |   |  |
| Saturation           | Adjust the amount of color present.  |   |  |
| Sharpness            | A high value results in a sharper picture; a low value softens the picture.  |   |  |
| Color<br>Temperature | Adjust the color temperature value.  |   |  |

#### **Eye Care**

Eye Care blocks high-energy blue light for a more comfortable viewing experience.

#### **Calculating Breaks**

When viewing screens for extended periods, it is recommended to take periodic breaks from viewing. Short breaks of at least 10 minutes are recommended after one hour of continuous viewing.

Taking shorter, more frequent breaks are generally more beneficial than longer, less frequent breaks.

## Focus Fatigue (20-20-20 Rule)

To reduce the risk of eye fatigue by constantly looking at the screen, look away from the screen at least every 20 minutes and gaze at a distant object (at least 20 feet away) for at least 20 seconds.

## **Looking at Distant Objects**

While taking breaks, users can further reduce eye strain and dryness by focusing on objects that are further away from them for 10-15 seconds, then gaze at something up close for 10-15 seconds. Repeat this up to 10 times. This exercise reduces the risk of your eyes' focusing ability to "lock up" after prolonged computer work.

#### **Eye and Neck Exercises**

#### **Eye Exercises**

Eye exercises can help minimize eye strain. Slowly roll your eyes to the left, right, up, and down. Repeat as many times as needed.

# Exercises for the eyes

(1) Keep the body and the head upright. Move the eyes up to look at the ceiling, then turn down to look at the floor.

(2) Move the eyes left and right slowly to look at objects on the two sides.

(3) Move the eyes to look at objects at the right upper direction and then right lower direction.

Repeat for the left upper and left lower directions.

## **Neck Exercises**

Neck exercises can also help minimize eye strain. Relax your arms and let them hang at your sides, bend forward slightly to stretch the neck, turn your head to the right and to the left. Repeat as many times as needed.

# **Applications**

Much like any smart phone or tablet you can install several different applications.

Applications can be accessed from the Toolbar, directly from the Home Screen via shortcuts, or by selecting the **Applications** icon.

**Note:** The following included application descriptions are not a comprehensive list and will vary by the user.

| lcon       | Description  |
|------------|--|
|            | AirSync Wirelessly mirror screens to a larger display.               |
| M          | Manager Remotely manage multiple installations of ViewSonic devices. |
| <u>(My</u> | myViewBoard  A digital whiteboarding application.                    |
| *          | Settings Access the <b>System</b> Settings.                          |

# **ViewBoard Settings**

# **Android Launcher**

### **Network & Internet**

Check current connection status, set up and manage Wi-Fi, Ethernet, VPN, and wireless Hotspot.

| Item                | Description   |
|---------------------|---|
| Ethernet            | Set the Ethernet network settings.  |
| Internet            | Set up and manage Ethernet and Wi-Fi connection, as well as Network preferences.  |
| Airplane Mode       | When enabled, all wireless communication will be turned off.  |
| Hotspot & Tethering | Set and share your internet connection with other devices.  |
| Data Saver          | When enabled, most apps and services will get background data via an internet connection. Active apps will not be affected. |
| VPN                 | Set up and manage Virtual Private Networks.   |

| Item          | Description  |
|---------------|--|
| Share Network | Enable to share the network with other USB connected devices.                      |
| Private DNS   | Maintain an Automatic Private DNS or set one up manually for security and privacy. |

#### Note:

- Wi-Fi, Hotspot, and Bluetooth settings will appear when an optional Wi-Fi card (e.g., VB-WIFI-005) has been installed in the Wi-Fi Slot.
- Ethernet will take priority when both Ethernet and Wi-Fi are enabled.
- The device can connect to the Internet when Hotspot is enabled.

#### **Connected Devices**

Set up and manage Bluetooth connections, saved devices, and connection preferences for Bluetooth, Casting, and Print Services.

| Item                      | Description  |
|---------------------------|--|
| Pair New Device           | Enable Bluetooth to search for and connect to a Bluetooth device.                        |
| Saved Devices             | View all previously connected Bluetooth devices.  Note: Bluetooth will turn on.          |
| Connection<br>Preferences | View Bluetooth, Cast, and Print Service preferences and share files with nearby devices. |
| Audio & Video<br>Devices  | View all USB connected devices.  |

### **Apps**

View any running or installed applications. Tap on them for more detailed information and options.

| Item                 | Description  |
|----------------------|--|
| Recently Opened Apps | Any recently used applications will be listed here.                                    |
| Default Apps         | Set default applications for certain uses (e.g., default browser application).         |
| Screen Time          | Displays the total amount of time the ViewBoard has been in use by the day.            |
| Cloud Media App      | Set your cloud media items (e.g., photos, videos, etc.) locally on the ViewBoard.      |
| Unused Apps          | Applications that have not been used for a certain period of time will be listed here. |
| Special App Access   | Set several access permissions for applications.                                       |

### **Notifications**

Manage notification and conversation settings and preferences.

| Item                            | Description  |
|---------------------------------|--|
| App Notifications               | Set up notification settings for individual applications.                          |
| Notification History            | View recent notifications.   |
| Conversations                   | Set previously received notifications or messages as priority.                     |
| Bubbles                         | When enabled, conversations can appear as a floating icon on screen.               |
| Device & App<br>Notifications   | Control which applications and devices can read notifications.                     |
| Notifications on Lock<br>Screen | Choose to show all, some, or no conversations or notifications on the lock screen. |
| Do Not Disturb                  | Set notification preferences for when "Do Not Disturb" mode is turned on.          |
| Flash Notifications             | Set the screen or camera to light up every time a notification comes in.           |
| Wireless Emergency<br>Alerts    | Choose to receive or not receive Emergency Alerts.                                 |

| Item  | Description   |
|---|---|
| Hide Silent<br>Notifications in<br>Status Bar | When enabled, notifications that have been "silenced" will no longer appear in the status bar area.       |
| Allow Notification Snoozing                   | When enabled, notifications can be "snoozed" for a short period of time for applications.                 |
| Notification Dot on App Icon                  | When enabled, a small dot will appear on the application icon when there is a new notification available. |
| Enhanced<br>Notifications                     | When enabled, receive suggestions for actions, replies, etc.  |

# **Storage**

Check the storage status of the ViewBoard.

| Item              | Description  |
|-------------------|--|
| Storage Manager   | When enabled, the storage manager will remove backed up photos and videos. |
| Trash             | View and manage files that have been moved to the Trash.                   |
| System            | View the total storage space of system files.                              |
| Documents & Other | View and manage the Documents folder.                                      |
| Games             | View and manage the storage space used by gaming applications.             |
| Apps              | View and manage the storage space used by applications.                    |
| Audio             | View and manage the Audio folder.  |
| Videos            | View and manage the Video folder.  |
| Images            | View and manage the Images folder.   |

### Sound

Adjust the volume level and set up varies sound preferences.

| Item                          | Description   |
|-------------------------------|---|
| Media Volume                  | Adjust the volume level.  |
| Do Not Disturb                | Set sound preferences for when "Do Not Disturb" mode is turned on.                  |
| Live Caption                  | When enabled, automatically caption.  |
| Media                         | Set the media player preferences.   |
| Default Notification<br>Sound | Choose the default sound effect for notifications.                                  |
| <b>Default Alarm Sound</b>    | Choose the default sound for alarms.  |
| Tap & Touch Sounds            | When enabled, a sound effect will play every time a touch or tap input is received. |

# Display

Adjust Brightness, Timeout, Theme, HDMI CEC, and other display related settings.

| Item                  | Description  |
|-----------------------|--|
| Lock Screen           | Set lock screen preferences.   |
| Screen Timeout        | Set when the screen will lock after a period of inactivity.                          |
| Dark Theme            | When enabled, the brighter default background color will be changed to a darker one. |
| Display Size and Text | Adjust the overall display size or only the text size.                               |
| Screen Saver          | When enabled, a screen saver will play when the ViewBoard is not in use.             |

# Wallpaper & Style

Adjust and personalize the Wallpaper, Colors and theme of the ViewBoard.

| ltem             | Description  |
|------------------|--|
| Change Wallpaper | Select a wallpaper for the background.   |
| Dark Theme       | When enabled, the brighter default background color will be changed to a darker one.                     |
| Themed Icons     | Set a set of icons that match the style of the application icons on the Home Screen with your wallpaper. |

# **Accessibility**

View and adjust various tools that can help people with visual, auditory, speech, or physical disabilities use the ViewBoard.

| Item                  | Description   |
|-----------------------|---|
| Select to Speak       | When enabled, certain on-screen items will be read or described aloud when tapped (e.g., text or image).                              |
| Switch Access         | Allows the use of one or more switches (e.g., keyboard, controller, etc.) to control the ViewBoard.                                   |
| TalkBack              | When enabled, device actions will be described by audio so it can be used without looking at the screen.                              |
| Display Size and Text | Adjust the overall display size or only the text size.  |
| Color and Motion      | Apply color correction and inversion and enlarge the mouse pointer.   |
| Extra Dim             | Dim the screen for a more comfortable viewing experience.   |
| Magnification         | Zoom in on the screen to enlarge the content.   |
| Accessibility Menu    | Add a shortcut for a enlarged on-screen menu to control the device.   |
| Timing Controls       | Adjust how long temporary messages that ask for an action are on screen, enable Auto click, and adjust the touch and hold delay time. |
| System Controls       | Adjust the way to navigate the system.  |

| Item                       | Description  |
|----------------------------|--|
| Live Caption               | Set the live caption preferences.  |
| <b>Caption Preferences</b> | Enable captions and adjust the size and style.   |
| Audio Description          | When enabled, an audio description of what is happening on screen in supported movies and shows will be given. |
| Flash Notifications        | Set the screen or camera to light up every time a notification comes in.                                       |
| Audio Adjustment           | Combine audio channels into a single mono channel.   |
| Accessibility Shortcuts    | Adjust the shortcut settings and availability on the lock screen.  |
| Text-to-Speech<br>Output   | When set up, text can be read out loud.  |

# **Security & Privacy**

Review and adjust device security and privacy settings.

| Item                      | Description  |
|---------------------------|--|
| Device May Be at<br>Risk  | Scans regularly if the ViewBoard is safe from any harmful behaviors. Recommendations, and actions, will also be given to enhance the overall security and privacy. |
| Add Google Account        | Add, remove, and manage your Google accounts linked to your ViewBoard.   |
| App Security              | Manage permissions for installed applications.   |
| Device Unlock             | Set the preferred options to lock/unlock the ViewBoard.  |
| Account Security          | Manage security permissions for all accounts on the ViewBoard.   |
| Device Finders            | Locate the ViewBoard remotely.   |
| System & Updates          | Check for system and security updates.   |
| Privacy                   | Manage application access to your data (e.g., location or camera permissions, etc.)  |
| More Security & Privacy   | View and adjust additional security and privacy settings.  |
| More Security<br>Settings | View and adjust various security-related settings.   |

### Location

View and manage location settings.

| Item                     | Description  |
|--------------------------|--|
| Use Location             | When enabled, the location of the device will be accessible to applications.                     |
| Recent Access            | Review which applications recently accessed the device's location.                               |
| App Location Permissions | Review which applications have permission to access the device's location.                       |
| Location Services        | Turn on or off various alerts, services, and scanning related to location and location accuracy. |

#### **Passwords & Accounts**

Review saved passwords, select autofill services, and add accounts.

| Item                        | Description  |
|-----------------------------|--|
| Passwords                   | Review saved passwords.                                    |
| Autofill Service            | Select which autofill service to use, if any.              |
| Accounts for Owner          | Add or remove accounts.                                    |
| Automatically Sync App Data | When enabled, applications can refresh data automatically. |

## **Digital Wellbeing**

Review the ViewBoard's usage time, and set up various tools to promote a better balance with the device.

| Item                         | Description  |
|------------------------------|--|
| Your Digital Wellbeing Tools | A brief overview of device usage, unlocks, and notifications.              |
| Dashboard                    | Review screen time, number of notifications, and number of device unlocks. |
| Night Shift                  | Reduce the amount of blue light emitted by the ViewBoard's screen.         |
| Manage<br>Notifications      | Review which applications can send notifications.                          |
| Do Not Disturb               | Set notification preferences for when "Do Not Disturb" mode is turned on.  |
| Heads Up                     | Set notification preferences when you're moving with the ViewBoard.        |
| Show Icon in the<br>App List | Hide or display the Digital Wellbeing icon from your app list.             |

## Google

Review all of Google's services and set up preferences.

#### **Advanced**

View and adjust various system settings.

| Item               | Description  |  |  |
|--------------------|--|--|--|
| Startup & Shutdown | Set the startup and shutdown settings.   |  |  |
| Input Source       | Adjust the input source names, HDMI CEC, and other input source settings.  |  |  |
| Security Settings  | Set a password for the ViewBoard or the advanced settings, or manage the permissions to install applications from unknown sources. |  |  |
| Pen Detection      | Enable the Pen detection function.   |  |  |
| Pen Detection App  | Set the preferred app when the Touch Pen is detected.  |  |  |
| HDMI Out Format    | Se the preferred HDMI Out Resolution settings.   |  |  |

### **System**

View and adjust various system settings.

| ltem                       | Description  |
|----------------------------|--|
| Languages                  | Choose the preferred language and input method.                            |
| Launcher Scheme            | Choose between Scheme A and Scheme B to set the Home Screen layout.        |
| Sidebar                    | Adjust the side toolbar settings.  |
| Keyboard                   | Enable/disable the visual keyboard and/or change the default input method. |
| Gesture                    | Set the preferred touch gestures when using the ViewBoard.                 |
| Date & Time                | Set the date and time.   |
| Windows Ink                | Enable and set up Windows Ink support.                                     |
| Display ID                 | Assign a number to remote control the display by RS-232/LAN.               |
| Backup                     | With a Google account, back up the device's data.                          |
| ViewSonic System<br>Update | Check for system updates.  |
| Multiple Users             | Review who is signed in and the available user logins.                     |
| Reset Options              | Reset the ViewBoard to factory default settings.                           |

#### **About Device**

Review device information.

| Item                        | Description                                     |  |  |
|-----------------------------|---|--|--|
| Device Name                 | View the name of the device.                    |  |  |
| Legal Information           | View the relevant legal information.            |  |  |
| Model                       | View the model of the ViewBoard.                |  |  |
| Android Version             | View the installed version of Android.          |  |  |
| IP Address                  | View the IP Address.                            |  |  |
| Ethernet Address            | View the Ethernet Address.                      |  |  |
| Wi-Fi MAC Address           | View the Wi-Fi MAC Address.                     |  |  |
| Device Wi-Fi MAC<br>Address | View the Device Wi-Fi MAC Address.              |  |  |
| Bluetooth Address           | View the Bluetooth Address.                     |  |  |
| Up Time                     | View how long the device has been in operation. |  |  |
| Build Number                | View the build number.                          |  |  |

# ViewBoard Launcher

### **Network & Internet**

Check current network connection status, set up and manage Wi-Fi, Ethernet, Bluetooth, and VPN, and establish a Wireless hotspot

#### Note:

- Wi-Fi, Wireless hotspot, and Bluetooth settings will appear when an optional Wi-Fi card (e.g., VB-WIFI-005) has been installed in the Wi-Fi slot.
- Ethernet will disable automatically when Wi-Fi is enabled. Wi-Fi will disable automatically when Ethernet is enabled. Wi-Fi will disable when Wireless hotspot is enabled.
- The device cannot connect to the Internet when **Wireless hotspot** is enabled.

### Wi-Fi

Setup and manage wireless access points.

• Tap the toggle button to turn Wi-Fi On or Off.

• Once **On**, you can: **Add a Network**, view **Saved Networks**, **Refresh** the network list, or view **Advanced** settings.

• In **Advanced** settings, you can toggle **Network notifications On** or **Off** and view **Network card info**.

### **Ethernet**

Set the local network and proxy.

• Tap the drop down menu to connect/disconnect the Ethernet.

• You can adjust Local network and Proxy settings as well.

## **Wireless Hotspot**

Share an internet connection with other devices.

• Tap the toggle button to turn Wireless hotspot On or Off.

• Tap **Set up** to set the **Network name**, **Security**, and **Password**.

### **Bluetooth**

Manage connections, set the device name and discoverability.

• Tap the toggle button to turn Bluetooth **On** or **Off**. Once **On**, users can select a listed device to pair and connect to, rename their device, remove a device.

### **VPN**

Setup and manage Virtual Private Networks.

### To create a VPN profile:

1. Go to: Settings > Network & Internet > VPN and tap Add VPN.

2. Key in the Name.

**3.** Select the VPN **Type**.

**4.** Choose to enable/disable **PPP encryption (MPPE)** and/or show **Advanced options**.

**Display**Adjust the **Wallpaper**, **Protection**, and **HDMI Out** settings.

# Wallpaper

Users can change their wallpaper with default images, or use their own by tapping the add icon and selecting the image file.

## **Protection**

Set a **HDCP & Copyright** on or off.

### **HDMI Out**

Adjust the HDMI Out Resolution setting, enable video output, and mute/unmute the speakers when connected via HDMI Out.

### Note:

- The **Disable ViewBoard Speakers when using HDMI Out** option box is not selected by default.
- Swipe up on the listed resolutions to see more supported resolutions.

### **Preference**

View and adjust Touch, Language, Keyboard & Input, Date & Time, Boot Mode & Advanced, Start up & Shut down, and Toolbar settings.

### Marker

Toggle WriteAway on or off.

# **ViewSonic Ink Pairing**

To pair a pen:

- 1. Select the Pair icon.
- **2.** On the pen, press the down button two times then hold the button until the pen indicator light flashes one time.

- 3. ViewSonic Ink status will change to "Pairing Successful".
- 4. Press the up or down button on the pen to change the pen color.

### **Touch**

Adjust Touch Settings and toggle Touch Sounds and Windows Ink on or off.

## Language

Adjust and choose the preferred language from the available languages.

## **Keyboard & Input Method**

Enable/disable the visual keyboard and/or change the default input method.

### **Date & Time**

Set the system time and format.

| Item                  | Description  |
|-----------------------|--|
| Automatic Date & Time | When enabled, the ViewBoard will automatically synchronize the date and time via the Internet. |
| Time Zone             | Select the appropriate time zone.  |
| Time Format           | Choose from 12-hour or 24-hour time format. Simply toggle 24-hour format on or off.            |
| Date Format           | Select from the available date formats.  |

## **Boot Mode & Advanced Settings**

Adjust the preferred boot up mode and set/reset a password.

| Item                               | Description   |  |
|------------------------------------|---|--|
| Normal Mode                        | The embedded screen sharing apps will run normally.                             |  |
| Secured Mode                       | The embedded screen sharing apps will be removed.                               |  |
| Disable Embedded OS                | The system will automatically reboot, and then the Embedded OS will not appear. |  |
| ViewBoard Settings Access Password | Toggle to lock/unlock the ViewBoard Settings.                                   |  |
| Password for Protection            | Modify the Boot mode and ViewBoard Settings entry password.                     |  |
| Local File Protection Policy       | Choose how long to keep local storage files in the Folder application.          |  |
| <b>Color Correction</b>            | Color correct the ViewBoard display screen.                                     |  |
| Reset ViewBoard                    | Reset the ViewBoard to its factory default settings.                            |  |

### **Startup & Shutdown**

Set the **Startup Input**, **Standby Mode**, **EnergyStar Mode**, **Black Screen After Startup**, **Power off Reminder** timer and **Schedule** settings.

| ltem                          | Description   |
|-------------------------------|---|
| Startup Input                 | Adjust the Startup Input preference.  |
| Standby Mode                  | Decide what happens when you press the Power button while the ViewBoard is on.          |
| Energy Star                   | Enable to automatically initiate Sleep Mode when the screen is idle for one hour.       |
| Black Screen After<br>Startup | When enabled, the ViewBoard will turn off the backlight automatically after booting up. |
| Schedule                      | Schedule a Boot and Shut off time.  |

# **Toolbar Setting**

Adjust the Side toolbar settings.

# **Input Source**

Adjust the input source names and settings, as well as the side toolbar settings.

# **Label Input Source**

Set labels for each input source that will be easily recognized when displayed.

### Source

Toggle Wake up by active HDMI input or HDMI CEC on or off, and select one of the Auto switch input ports options.

| Item                            | Description   |  |
|---------------------------------|---|--|
| Wake up by Active<br>HDMI input | The screen will turn on automatically after plugging in an HDMI cable when the screen is off. |  |
| Auto switch input ports         | The original signal will automatically switch to a new cable after it's plugged in.           |  |
| Energy Saving                   | Set a time period to power off if no signal is detected.                                      |  |
| HDMI CEC                        | Enable/disable HDMI CEC functions.  |  |

# **Apps**

The user can view application information and force stop, uninstall, move to USB storage, clear data, clear cache, and clear defaults.

### Note:

- Pre-loaded apps cannot be uninstalled.
- Not all apps support the move to USB storage feature.
- Not all apps support Clear Defaults.

#### **Apps**

View any running or installed applications. Tap on them for more detailed information and options.

• Selecting All will list all installed applications.

• Selecting **Download** will list all installed applications that can be uninstalled.

• Tapping on any application will display further information and options.

## **System**

View and adjust **Storage**, **Clone to USB**, **Display ID**, **Security**, **System Update**, and **About device** settings.

#### **Launcher Scheme**

Choose between Scheme A (Android Launcher) and Scheme B (ViewBoard Launcher) to set the Home Screen layout.

#### **Storage**

Displays all internal and external storage capacities.

## **Display ID**

Assign a number to remote control the display by RS-232/LAN.

• To assign or change the Display ID, tap **Change** and input a number.

**Note:** The Display ID is for RS-232 users, and the range is 01~99.

#### **Security**

Review **Certificate**, **Trusted Credential** storage, and **Unknown sources** install settings.

• Tap on **Install certificate from storage** to add additional certificates.

• Selecting Clear Credentials will remove all manually installed credentials.

**Note:** Pre-loaded credentials cannot be cleared.

• Under Trusted Credentials view and edit all trusted and installed CA certificates.

• Tapping on a credential will provide more detailed information.

• Allow the installation of applications from unknown sources by selecting the box under **Unknown source security**.

**Note:** Applications from unknown sources may not be compatible or work properly.

## **System Update**

The ViewBoard automatically searches for software updates whenever connected to the Internet (OTA). With just one click, users can update their version of ViewBoard software.

| Item          | Description                                       |
|---------------|---|
| Online Update | Manually check online for a new software version. |
| Schedule      | Set the update time.                              |

#### **About Device**

Display Embedded Player information, Legal information, and Asset Tagging.

• By selecting **Edit**, the asset information can be adjusted.

• Tap on **Legal information** to check open source licenses.

## **Pre-installed Applications and Settings**

## **AirSync**

Wirelessly share a device's screen to a large display.

**Note:** To learn more about AirSync, visit the <u>ViewSonic Apps and ViewBoard Knowledge Base</u>.

## Manager

Remotely manage multiple ViewSonic device installations.

**Note:** Only Entity Admins, after logging into myviewboard.com, have access to this feature.

After setting up devices and installing Manager, you can add them to an entity and manage them remotely from the Manager web application.

**Note:** To learn more about Manager, visit the <u>ViewSonic Apps and ViewBoard Knowledge Base</u>.

## myViewBoard

A digital whiteboarding application.

**Note:** To learn more about myViewBoard, visit the <u>ViewSonic Apps and ViewBoard Knowledge Base</u>.

## **RS-232 Protocol**

This document describes the hardware interface and software protocols of RS-232 interface communication between the ViewSonic LED Display and computers or other control units with RS-232 protocol.

The protocol contains three command sections:

- Set-Function
- Get-Function
- Remote control pass-through mode

**Note:** Below, "PC" represents all the control units that can send or receive the RS-232 protocol command.

## **Description**

## **RS-232 Hardware Specification**

ViewSonic LFD communication port on the rear side:

- 1. Connector type: DSUB 9-Pin Male (female or 3.5 mm barrel connector)
- 2. Use of crossover (null modem) cable for connection
- 3. Pin Assignment:

Male DSUB 9-Pin (preferred)

12345

- . - -

Female DSUB 9-Pin

3.5 mm barrel connector (alternative for limited space)

| Pin # | Signal | Remark              |
|-------|--------|---------------------|
| 1     | NC     |                     |
| 2     | RXD    | Input to Display    |
| 3     | TXD    | Output from Display |
| 4     | NC     |                     |
| 5     | GND    |                     |
| 6     | NC     |                     |
| 7     | NC     |                     |
| 8     | NC     |                     |
| 9     | NC     |                     |
| frame | GND    |                     |

| Item   | Signal | Remark              |
|--------|--------|---------------------|
| Tip    | TXD    | Output from Display |
| Ring   | RXD    | Input to Display    |
| Sleeve | GND    |                     |

### **LAN Hardware Specification**

ViewSonic LFD communication port on the rear side:

1. Connector type: 8P8C RJ45

2. Pin Assignment:

| Pin#  | Signal | Remark              |
|-------|--------|---------------------|
| 1     | TX+    | Output from Display |
| 2     | TX-    | Output from Display |
| 3     | RX+    | Input to Display    |
| 4     | BI_D3+ | For 1G case         |
| 5     | BI_D3- | For 1G case         |
| 6     | RX-    | Input to Display    |
| 7     | BI_D4+ | For 1G case         |
| 8     | BI_D4- | For 1G case         |
| frame | GND    |                     |

## **RS-232 Communication Setting**

Baud Rate Select: 9600bps (fixed)
Data bits: 8 bits (fixed)
Parity: None (fixed)

• Stop Bits: 1 (fixed)

## **LAN Communication Setting**

Type: Ethernet Protocol: TCP/IP

Port: 5000 (fixed)

WOL Port: 9 (fixed) for UDP\*3.2.0

Cross subnet: No Logon Credentials: No

## **Command Message Reference**

PC sends to LFD command packet followed by "CR". Every time PC sends control command to Display, the Display shall respond as follows:

- 1. If the message is received correctly it will send "+" (02Bh) followed by "CR" (00Dh)
- 2. If the message is received incorrectly it will send "-" (02Dh) followed by "CR" (00Dh)

#### **Protocol**

## **Set-Function Listing**

The PC can control the Display for specific actions. The Set-Function command allows you to control the Display behavior at a remote site through the RS-232 port. The Set-Function packet format consists of 9 bytes.

#### **Set-Function Description:**

**Length:** Total Byte of Message excluding "CR"

**LFD ID** Identification for each Display (01~98; default is 01)

ID "99" means to apply the set command for all connected displays. Under such circumstances, only ID#1 display has to

reply.

The LFD ID can be set via the OSD menu for each Display.

**Command Type** Identify command type,

"s" (0x73h): Set Command

"+" (0x2Bh): Valid command Reply "-" (0x2Dh): Invalid command Reply

**Command:** Function command code: One byte ASCII code.

**Value[1~3]:** Three bytes ASCII that defines the value.

CR 0x0D

#### **Set-Function Format**

## Send: (Command Type="s")

| Name           | Length | ID   | <b>Command Type</b> | Command | Value1 | Value2 | Value3 | CR     |
|----------------|--------|------|---------------------|---------|--------|--------|--------|--------|
| Byte<br>Count  | 1 Byte | 2    | 1 Byte              | 1 Byte  | 1 Byte | 1 Pyto | 1 Byte | 1 Pyto |
| Count          | 1 byte | Byte | 1 byte              | 1 byte  | 1 byte | твусе  | 1 byte | т вусе |
| Bytes<br>order | 1      | 2~3  | 4                   | 5       | 6      | 7      | 8      | 9      |

## Reply: (Command Type="+" or "-")

| Name                 | Length | ID     | Command Type | CR     |
|----------------------|--------|--------|--------------|--------|
| Byte<br>Count 1 Byte |        | 2 Byte | 1 Byte       | 1 Byte |
| Bytes<br>order       | 1      | 2~3    | 4            | 5      |

**Note:** When PC applies command to all displays (ID=99), only the #1 set needs to reply by the name of ID=1.

# Example 1: Set Brightness at 76 for Display (#02) and this command is valid Send (Hex Format)

| Name | Length | ID           | <b>Command Type</b> | Command | Value1 | Value2 | Value3 | CR   |
|------|--------|--------------|---------------------|---------|--------|--------|--------|------|
| Hex  | 0x38   | 0x30<br>0x32 | 0x73                | 0x24    | 0x30   | 0x37   | 0x36   | 0x0D |

## **Reply (Hex Format)**

| Name | Length | ID           | <b>Command Type</b> | CR   |
|------|--------|--------------|---------------------|------|
| Hex  | 0x34   | 0x30<br>0x32 | 0x2B                | 0x0D |

# Example 2: Set Brightness at 75 for Display (#02) and this command is NOT valid Send (Hex Format)

| Name | Length | ID           | <b>Command Type</b> | Command | Value1 | Value2 | Value3 | CR   |
|------|--------|--------------|---------------------|---------|--------|--------|--------|------|
| Hex  | 0x38   | 0x30<br>0x32 | 100/2               | 0x24    | 0x30   | 0x37   | 0x35   | 0x0D |

## Reply (Hex Format)

| Name | Length | ID           | <b>Command Type</b> | CR   |
|------|--------|--------------|---------------------|------|
| Hex  | 0x34   | 0x30<br>0x32 | 0x2D                | 0x0D |

## **Set-Function Table**

## A. Basic Function

| Set Function                      | Length | ID | Command      | Comi            | mand          | Value Range   | Comments   |
|-----------------------------------|--------|----|--------------|-----------------|---------------|---|--|
|                                   |        |    | Type (ASCII) | Code<br>(ASCII) | Code<br>(Hex) | (Three ASCII bytes)   |  |
| Power ON *3.2.1/<br>OFF (standby) | 8      |    | S            | !               | 21            | 000: STBY<br>001: ON  | 1. The Power-on via<br>LAN control may work<br>only under specific<br>modes. See display UG<br>for details. *3.1.1<br>2. "WOL by MAC<br>address" maybe avail-<br>able as an alterna-<br>tive. *3.2.1   |
| Input Select                      | 8      |    | S            | u               | 22            | 000: TV 001: AV 002: S-Video 003: YPbPr 004: HDMI1 014: HDMI2 024: HDMI3 034: HDMI4 005: DVI 006: VGA1 016: VGA2 026: VGA3 007: Slot-in PC (OPS/SDM)/HDBT 008: Internal memory 009: DP1 *3.2.4 023: DP2 019: Type-C 1 *3.3.2 039: Type-C 2 00A: Embedded/Main (Android) | 1. No need for USB 2. For the case of two or more same sources, the 2nd digital is used to indicate the extension. 3. The HEX of 00A is 30 30 41. 4. 00Z is reserved for cycle mode *3.3.1 5. Using 2nd digito identify DP or Type C. 0 and even numbers stand for DP; odd numbers stand for Type C *3.3.2 |
| Brightness                        | 8      |    | S            | \$              | 24            | 000 ~ 100<br>900: Bright down (-1)<br>901: Bright up (+1)<br>*3.1.1   |  |

|-------------------|--------|----|---------|-----|------|---|--|
| Number *3.1.1     | 8      |    | S       | @   | 40   | 000~009   |  |
| Key Pad *3.1.1    | 8      |    | S       | А   | 41   | 000: UP 001: DOWN 002: LEFT 003: RIGHT 004: ENTER 005: INPUT 006: MENU/(EXIT) 007: EXIT |  |
| Remote<br>Control | 8      |    | S       | В   | 42   | 000: Disable<br>001: Enable<br>002: Pass through  | Disable: RCU will have no function Enabled: RCU controls normally Pass through: Display will bypass the RC code to connected device via the RS-232 port, but not react itself. |
| Restore default   | 8      |    | S       | ~   | 7E   | 000   | Recover to factory settings  |

#### Note:

## 1. Behavior at Lock Modes

| Lock Mode                 | Behavior   |
|---------------------------|--|
| Button Lock               | <ol> <li>Lock all buttons on the front panel and RCU, except for "Power"</li> <li>All the SET functions should be workable via RS-232, even the ones with according hot key in RCU like Mute,etc.</li> </ol>   |
| MENU Lock                 | <ol> <li>Lock the "MENU' key of front panel and RCU</li> <li>The Factory and Hospitality modes should not be blocked for the model using MENU-combined key to enter these two modes.         Alternative approach will be indicated separately if any limitation by model.     </li> </ol>   |
| POWER Lock                | <ol> <li>Lock the "POWER" key on the front and RCU.</li> <li>The SET_POWER ON/OFF should be workable via RS-232, but does not mean the POWER lock will be released under this case.</li> <li>Can not be unlocked by reset in OSD setting</li> <li>Will auto AC power-on in power-lock</li> <li>Under power-lock, the set will not enter power saving when no PC signal and neither turn off when no other video signals after 15 minutes.</li> </ol> |
| Remote Control<br>Disable | Lock the RCU keys, but keep the front panel buttons workable.  |

## 2. Wake-on-LAN by MAC address as alternative for SET Power on

(Length=126 Bytes)

| 6 Bytes    | 6 Bytes (#1) | 6 Bytes (#2) | <br>6 Bytes (#16) | 24 Bytes   |
|------------|--------------|--------------|-------------------|------------|
| 0xFF FF FF | MAC address  | MAC address  | <br>MAC address   | 0x00 00 00 |

## **B. Optional Function**

| Set Function     | Length | ID | Command      | Com             | ımand      | Value Range   | Comments  |
|------------------|--------|----|--------------|-----------------|------------|---|---|

#### Note:

## 1. Tiling definition of H Monitors, V Monitors, and Position

|            |    |    | H MONITORS |    |    | 1         |
|------------|----|----|------------|----|----|-----------|
|            | 1  | 2  | 3          | 4  | 5  | -Position |
| RS         | 6  | 7  | 8          | 9  | 10 |           |
| V MONITORS | 11 | 12 | 13         | 14 | 15 |           |
| >          | 16 | 17 | 18         | 19 | 20 |           |
|            | 21 | 22 | 23         | 24 | 25 |           |

## 2. Set Date example

Date: 2017-3/15

Send: 0x 38 30 31 73 56 59 31 37 0D ("Y17")

Send: 0x 38 30 31 73 56 4D 30 33 0D ("M03")

Send: 0x 38 30 31 73 56 44 31 35 0D ("D15")

### 3. Set Time example

Time: 16:27:59

Send: 0x 38 30 31 73 57 48 31 36 0D ("H16")

Send: 0x 38 30 31 73 57 4D 32 37 0D ("M27")

Send: 0x 38 30 31 73 57 53 35 39 0D ("S59")

#### **Get-Function Listing**

The PC can interrogate the LFD for specific information. The Get-Function packet format consists of 9 bytes which is similar to the Set-Function packet structure. Note that the "Value" byte is always = 000.

#### **Get-Function Description:**

**Length:** Total Byte of Message excluding "CR".

TV/DS ID Identification for each of TV/DS (01~98; default is 01).

**Command Type** Identify command type,

"g" (0x67h): Get Command

"r" (0x72h) : Valid command Reply "-" (0x2Dh) : Invalid command Reply

**Command:** Function command code: One byte ASCII code.

**Value[1~3]:** Three bytes ASCII that defines the value.

CR 0x0D

#### **Get-Function Format**

## Send: (Command Type="g")

| Name           | Length | ID        | <b>Command Type</b> | Command | Value1 | Value2 | Value3 | CR     |
|----------------|--------|-----------|---------------------|---------|--------|--------|--------|--------|
| Byte<br>Count  | 1 Byte | 2<br>Byte | 1 Byte              | 1 Byte  | 1 Byte | 1 Byte | 1 Byte | 1 Byte |
| Bytes<br>order | 1      | 2~3       | 4                   | 5       | 6      | 7      | 8      | 9      |

## Reply: (Command Type="r" or "-")

## If the Command is valid, Command Type = "r"

| Name          | Length | ID        | <b>Command Type</b> | Command | Value1 | Value2 | Value3 | CR     |
|---------------|--------|-----------|---------------------|---------|--------|--------|--------|--------|
| Byte<br>Count | 1 Byte | 2<br>Byte | 1 Byte              | 1 Byte  | 1 Byte | 1 Byte | 1 Byte | 1 Byte |
| Bytes         | 1      | 2~3       | 4                   | 5       | 6      | 7      | 8      | 9      |

## If the Command is NOT valid, Command Type = "-"

| Name           | Length | ID     | Command Type | CR     |
|----------------|--------|--------|--------------|--------|
| Byte<br>Count  | 1 Byte | 2 Byte | 1 Byte       | 1 Byte |
| Bytes<br>order | 1      | 2~3    | 4            | 5      |

## Example 1: Get Brightness from TV-05 and this command is valid. The Brightness value is 67.

## **Send (Hex Format)**

| Name | Length | ID           | <b>Command Type</b> | Command | Value1 | Value2 | Value3 | CR   |
|------|--------|--------------|---------------------|---------|--------|--------|--------|------|
| Hex  | 0x38   | 0x30<br>0x35 | ()y6/               | 0x62    | 0x30   | 0x30   | 0x30   | 0x0D |

## **Reply (Hex Format)**

| Name | Length | ID           | <b>Command Type</b> | Command | Value1 | Value2 | Value3 | CR   |
|------|--------|--------------|---------------------|---------|--------|--------|--------|------|
| Hex  | 0x38   | 0x30<br>0x35 | 0x72                | 0x62    | 0x30   | 0x36   | 0x37   | 0x0D |

## Example 2: Get Color from Display (#05), but the Color command is not supported by this model.

## **Send (Hex Format)**

| Name | Length | ID           | <b>Command Type</b> | Command | Value1 | Value2 | Value3 | CR   |
|------|--------|--------------|---------------------|---------|--------|--------|--------|------|
| Hex  | 0x38   | 0x30<br>0x35 | 0x67                | 0x26    | 0x30   | 0x30   | 0x30   | 0x0D |

## **Reply (Hex Format)**

| Name | Length | ID           | <b>Command Type</b> | CR   |
|------|--------|--------------|---------------------|------|
| Hex  | 0x34   | 0x30<br>0x35 | 0x2D                | 0x0D |

## **Get-Function Table**

## A. Basic Function

| Get Function                  | Length | ID | Command      | Comr            | nand          | Response<br>Range                                    | Comments   |

#### Note:

#### 1. Get Date example

Assumed the current date of display#01 as below:

Date: 2017-3/15

Send: 0x 38 30 31 67 32 59 30 30 0D (Get Date:Year)

Reply: 0x 38 30 31 72 32 59 31 37 0D ("Y17")

Send: 0x 38 30 31 67 32 4D 30 30 0D (Get Date:Month)

Reply: 0x 38 30 31 72 32 4D 30 33 0D ("M03")

Send: 0x 38 30 31 67 32 44 30 30 0D (Get Date:Day)

Reply: 0x 38 30 31 72 32 44 31 35 0D ("D15")

#### 2. Get Time example

Assumed the current time of display#01 as below:

Time: 16:27:59

Send: 0x 38 30 31 67 33 48 30 30 0D (Get Time:Hour)

Reply: 0x 38 30 31 72 33 48 31 36 0D ("H16")

Send: 0x 38 30 31 67 33 4D 30 30 0D (Get Time:Min)

Reply: 0x 38 30 31 72 33 4D 32 37 0D ("M27")

Send: 0x 38 30 31 67 33 53 30 30 0D (Get Time:Sec)

Reply: 0x 38 30 31 72 33 53 35 39 0D ("S59")

## 3. Get RS232 version example

Assumed the version is 3.0.1

Send: 0x 38 30 31 67 36 30 30 30 0D (Get RS232 version)

Reply: 0x 38 30 31 72 36 33 30 31 0D ("301")

### C. Auto Reply \*3.2.1

The display will send out the updated data/status automatically without GET query from the host whenever the following data/status is changed by the user through any of the available ways like: remote control unit, front control panel keys, or touch screen.

- Power On/Off
- Input Select
- Brightness
- Backlight
- Volume
- Mute On/Off

## **Remote Control Pass-through Mode**

When the PC sets the Display to Remote Control Pass through mode, the Display will send a 7-byte packet (followed by "CR") in response to remote control unit (RCU) button activation.

In this mode the RCU will have no effect on the Display function. For example: "Volume+" will not change the volume of the Display, but instead only send the "Volume+" code to the PC over the RS-232 port.

### **IR Pass Through-Function format**

## Reply: (Command Type="p")

| Name           | Length | ID        | Command Type | RCU Code1<br>(MSB) | RCU Code2<br>(LSB) | CR     |

#### Note:

- 1. This IR-pass-through code is different from the RCU key code.
- 2. Special control sequence for POWER key under IR-pass through mode.
- **2-1.** When Display is OFF and receives the IR POWER code: Display will turn itself ON, then forward the POWER code to the host via RS-232.
- **2-2.** When Display is ON and receives the IR POWER code: Display will forward the POWER code to the host via RS-232, then turn OFF itself.
- **2-3.** When SET-POWER LOCK is enabled, the Display will not respond to POWER key pressing.
- **3.** The VOLUME UP and VOLUME DOWN code will repeatedly output when you press and hold the keys.

## **Troubleshooting**

This section describes some common problems that you may experience when using the ViewBoard.

| Problem or Issue              | Possible Solutions  |  |  |  |  |
|-------------------------------|---|--|--|--|--|
|                               | <b>1.</b> Check whether something is obstructing the display's remote control receiver.     |  |  |  |  |
| Remote Control is not working | 2. Check whether the batteries in the remote control are installed correctly.               |  |  |  |  |
|                               | 3. Check whether the batteries need to be replaced.   |  |  |  |  |
|                               | 1. Check whether Sleep mode is enabled.   |  |  |  |  |
| The unit turns off            | 2. Check if there is a power outage in your area.   |  |  |  |  |
| unexpectedly                  | <b>3.</b> Turn on the display and see if the problem is with the signal and control system. |  |  |  |  |

### **PC Mode**

| Problem or Issue     | Possible Solutions   |  |  |  |  |  |
|----------------------|--|--|--|--|--|--|
|                      | 1. Check the display settings.   |  |  |  |  |  |
| No PC signal         | 2. Check the display resolution.   |  |  |  |  |  |
| ivo i e signai       | <b>3.</b> Adjust the Hs &Vs (synchronization) settings using the OSD menu. |  |  |  |  |  |
| Background streaking | 1. Choose auto adjust.   |  |  |  |  |  |
| background streaking | 2. Adjust clock and phase.   |  |  |  |  |  |
| Uncurported format   | 1. Choose auto adjust.   |  |  |  |  |  |
| Unsupported format   | 2. Adjust clock and phase settings.  |  |  |  |  |  |

### **Touch Function**

| Problem or Issue    | Possible Solutions                                  |  |  |  |
|---------------------|---|--|--|--|
|                     | 1. Check that drivers are installed correctly.      |  |  |  |
| Touch function does | 2. Reinstall driver(s).                             |  |  |  |
| not work            | 3. Check setup and align it.                        |  |  |  |
|                     | 4. Check whether the touch pen is working properly. |  |  |  |

## **Video Not Working Properly**

| Problem or Issue      | Possible Solutions   |
|-----------------------|--|
|                       | 1. Check the Power status.                                       |
| No picture/ No sound  | 2. Check the signal cable.                                       |
|                       | <b>3.</b> Check that the internal PC is installed correctly.     |
| Picture is unclear or | 1. Check the signal cable.                                       |
| cuts in and out       | 2. Check if other electronics are interrupting the signal.       |
| Poor picture          | 1. Adjust chroma, brightness, and contrast settings in the menu. |
|                       | 2. Check the signal cable.                                       |

## **Audio Not Working Properly**

| Problem or Issue | Possible Solutions   |
|------------------|--|
|                  | 1. Press the Mute/Unmute button.                           |
| No sound         | 2. Adjust the volume.                                      |
|                  | 3. Check the audio cable.                                  |
|                  | 1. Adjust the sound balance in the menu.                   |
| One speaker only | 2. Check the sound control panel settings of the computer. |
|                  | 3. Check the audio cable.                                  |

### **Maintenance**

### **General Precautions**

- Make sure the device is turned off and the power cable is unplugged from the power outlet.
- Never spray or pour any liquid directly onto the screen or case.
- Handle the device with care, as a darker-colored device, if scuffed, may show marks more clearly than a lighter-colored device.
- Do not use the system continuously for long periods of time.

### **Cleaning the Screen**

- Wipe the screen with a clean, soft, lint-free cloth. This removes dust and other particles.
- If the screen is still not clean, apply a small amount of non-ammonia, nonalcohol based glass cleaner onto a clean, soft, lint-free cloth; then wipe the screen.

### **Cleaning the Case**

- Use a soft, dry cloth.
- If the case is still not clean, apply a small amount of non-ammonia, non-alcohol based, mild non-abrasive detergent onto a clean, soft, lint-free cloth, then wipe the surface.

### **Disclaimer**

- ViewSonic® does not recommend the use of any ammonia or alcohol-based cleaners on the display screen or case. Some chemical cleaners have been reported to damage the screen and/or case of the device.
- ViewSonic® will not be liable for damage resulting from use of any ammonia or alcohol-based cleaners.

**Note:** If condensation appears between the glass and the panel, keep the display turned on until the moisture disappears.

## **Regulatory and Service Information**

## **Compliance Information**

This section addresses all connected requirements and statements regarding regulations. Confirmed corresponding applications shall refer to nameplate labels and relevant markings on the unit.

### **CE Conformity for European Countries**

The device complies with the EMC Directive 2014/30/EU and Low Voltage Directive 2014/35/EU, Radio Equipment Directive 2014/53/EU and RoHS2 Directive 2011/65/EU & Annex II EU/2015/863.

### The following information is only for EU-member states:

The mark shown to the right is in compliance with the Waste Electrical and Electronic Equipment Directive 2012/19/EU (WEEE). The mark indicates the requirement NOT to dispose of the equipment as unsorted municipal waste, but use the return and collection systems according to local law.

### **Declaration of RoHS2 Compliance**

This product has been designed and manufactured in compliance with Directive 2011/65/EU of the European Parliament and the Council on restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS2 Directive) and is deemed to comply with the maximum concentration values issued by the European Technical Adaptation Committee (TAC) as shown below:

| Substance                               | Proposed Maximum<br>Concentration | Actual Concentration |  |  |
|---|-----------------------------------|----------------------|--|--|
| Lead (Pb)                               | 0.1%                              | < 0.1%               |  |  |
| Mercury (Hg)                            | 0.1%                              | < 0.1%               |  |  |
| Cadmium (Cd)                            | 0.01%                             | < 0.01%              |  |  |
| Hexavalent Chromium (Cr6 <sup>+</sup> ) | 0.1%                              | < 0.1%               |  |  |
| Polybrominated biphenyls (PBB)          | 0.1%                              | < 0.1%               |  |  |
| Polybrominated diphenyl ethers (PBDE)   | 0.1%                              | < 0.1%               |  |  |
| Bis (2-ethylhexyl) phthalate (DEHP)     | 0.1%                              | < 0.1%               |  |  |
| Butyl benzyl phthalate (BBP)            | 0.1%                              | < 0.1%               |  |  |
| Dibutyl phthalate (DBP)                 | 0.1%                              | < 0.1%               |  |  |
| Diisobutyl phthalate (DIBP)             | 0.1%                              | < 0.1%               |  |  |

# Certain components of products as stated above are exempted under the Annex III of the RoHS2 Directives as noted below:

- Copper alloy containing up to 4% lead by weight.
- Lead in high melting temperature type solders (i.e. lead-based alloys containing 85% by weight or more lead).
- Electrical and electronic components containing lead in a glass or ceramic other than dielectric ceramic in capacitors, e.g. piezoelectronic devices, or in a glass or ceramic matrix compound.
- Lead in dielectric ceramic in capacitors for a rated voltage of 125V AC or 250V DC or higher.

### **ENERGY STAR Statement**

ENERGY STAR is a U.S. Environmental Protection Agency voluntary program that helps businesses and individuals save money and protect our climate through superior energy efficiency. Products that earn the ENERGY STAR prevent greenhouse gas emissions by meeting strict energy efficiency criteria or requirements set by the U.S. Environmental Protection Agency.

As an ENERGY STAR Partner, ViewSonic is determined to meet the Energy star Guidelines and mark all certified models with the ENERGY STAR logo.

The following logo appears on all ENERGY STAR-certified models:

**Note:** The power management features significantly reduce energy consumption when the product is not in use. Power management allows the device to automatically enter a low power "sleep" mode after a defined period of inactivity. And the power management features also enter Sleep Mode or Off Mode within 5 minutes of being disconnected from a host computer. Please note any change in energy settings will increase energy consumption.

### **Indian Restriction of Hazardous Substances**

Restriction on Hazardous Substances statement (India). This product complies with the "India E-waste Rule 2011" and prohibits use of lead, mercury, hexavalent chromium, polybrominated biphenyls or polybrominated diphenyl ethers in concentrations exceeding 0.1 weight % and 0.01 weight % for cadmium, except for the exemptions set in Schedule 2 of the Rule.

### **Product Disposal at End of Product Life**

ViewSonic® respects the environment and is committed to working and living green. Thank you for being part of Smarter, Greener Computing. Please visit the ViewSonic® website to learn more.

### **Limited Warranty**

ViewSonic® Smart White Board

### What the warranty covers:

ViewSonic® warrants its products to be free from defects in material and workmanship during the warranty period. If a product proves to be defective in material or workmanship during the warranty period, ViewSonic® will, at its sole option, and as your sole remedy, repair or replace the product with a similar product. Replacement Product or parts may include remanufactured or refurbished parts or components. The repair or replacement unit or parts or components will be covered by the balance of the time remaining on the customer's original limited warranty and the warranty period will not be extended. ViewSonic® provides no warranty for any third-party software whether included with the product or installed by the customer, installation of any unauthorized hardware parts or components (e.g. Projector Lamps). (Please refer to: "What the warranty excludes and does not cover" section).

### Who the warranty protects:

This warranty is valid only for the first consumer purchaser.

### What the warranty excludes and does not cover:

- Any product on which the serial number has been defaced, modified, or removed.
- Damage, deterioration, or malfunction resulting from:
  - » Accident, misuse, neglect, fire, water, lightning, or other acts of nature, unauthorized product modification, or failure to follow instructions supplied with the product.
  - » Repair or attempted repair by anyone not authorized by ViewSonic®.
  - » Damage to or loss of any programs, data, or removable storage media.
  - » Normal wear and tear.
  - » Removal or installation of the product.
- Software or data loss occurring during repair or replacement.
- Any damage of the product due to shipment.
- Causes external to the product, such as electric power fluctuations or failure.
- Use of supplies or parts not meeting ViewSonic's specifications.
- Failure of owner to perform periodic product maintenance as stated in the User Guide.
- Any other cause which does not relate to a product defect.

- Damage caused by static (non-moving) images displayed for lengthy periods of time (also referred to as image burn-in).
- Software Any third-party software included with the product or installed by the customer.
- Hardware/Accessories/Parts/Components Installation of any unauthorized hardware, accessories, consumable parts or components (e.g. Projector Lamps).
- Damage to, or abuse of, the coating on the surface of the display through inappropriate cleaning as described in the product User Guide.
- Removal, installation, and set-up service charges, including wall-mounting of the product.

### How to get service:

- For information about receiving service under warranty, contact ViewSonic® Customer Support (Please refer to the "Customer Service" page). You will need to provide your product's serial number.
- To obtain warranty service, you will be required to provide: (a) the original dated sales slip, (b) your name, (c) your address, (d) a description of the problem, and (e) the serial number of the product.
- Take or ship the product, freight prepaid, in the original container to an authorized ViewSonic® service center or ViewSonic®.
- For additional information or the name of the nearest ViewSonic® service center, contact ViewSonic®.

### **Limitation of implied warranties:**

There are no warranties, express or implied, which extend beyond the description contained herein including the implied warranty of merchantability and fitness for a particular purpose.

### **Exclusion of damages:**

ViewSonic's liability is limited to the cost of repair or replacement of the product. ViewSonic® shall not be liable for:

- Damage to other property caused by any defects in the product, damages based upon inconvenience, loss of use of the product, loss of time, loss of profits, loss of business opportunity, loss of goodwill, interference with business relationships, or other commercial loss, even if advised of the possibility of such damages.
- Any other damages, whether incidental, consequential or otherwise.
- Any claim against the customer by any other party.
- Repair or attempted repair by anyone not authorized by ViewSonic<sup>®</sup>.

### Effect of state law:

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Some states do not allow limitations on implied warranties and/or do not allow the exclusion of incidental or consequential damages, so the above limitations and exclusions may not apply to you.

### Sales outside the U.S.A. and Canada:

For warranty information and service on ViewSonic® products sold outside of the U.S.A. and Canada, contact ViewSonic® or your local ViewSonic® dealer.

The warranty period for this product in mainland China (Hong Kong, Macao, and Taiwan Excluded) is subject to the terms and conditions of the Maintenance Guarantee Card.

For users in Europe and Russia, full details of warranty provided can be found at: http://www.viewsonic.com/eu/ under "Support/Warranty Information".

### **Mexico Limited Warranty**

ViewSonic® Smart White Board

### What the warranty covers:

ViewSonic® warrants its products to be free from defects in material and workmanship, under normal use, during the warranty period. If a product proves to be defective in material or workmanship during the warranty period, ViewSonic® will, at its sole option, repair or replace the product with a like product. Replacement product or parts may include remanufactured or refurbished parts or components & accessories.

### Who the warranty protects:

This warranty is valid only for the first consumer purchaser.

### What the warranty excludes and does not cover:

- Any product on which the serial number has been defaced, modified or removed.
- Damage, deterioration, or malfunction resulting from:
  - » Accident, misuse, neglect, fire, water, lightning, or other acts of nature, unauthorized product modification, unauthorized attempted repair, or failure to follow instructions supplied with the product.
  - » Causes external to the product, such as electrical power fluctuations or failure.
  - » Use of supplies or parts not meeting ViewSonic®'s specifications.
  - » Normal wear and tear.
  - » Any other cause which does not relate to a product defect.
- Any product exhibiting a condition commonly known as "image burn-in" which results when a static image is displayed on the product for an extended period of time.
- Removal, installation, insurance, and set-up service charges.

### How to get service:

For information about receiving service under warranty, contact ViewSonic® Customer Support (Please refer to the attached "Customer Service" page). You will need to provide your product's serial number, so please record the product information in the space provided below on your purchase for your future use. Please retain your receipt of proof of purchase to support your warranty claim.

| ı | E, | $\sim$ | r | V | <u></u> |   | r | D | Δ | _ | $\overline{}$ | r | ٦ | c |
|---|----|--------|---|---|---------|---|---|---|---|---|---------------|---|---|---|
|   | Г( | u      | ı | T | u       | u | 1 | П | C | U | u             |   | u | 5 |

| Product Name:                          | Model Number:               |       |
|--|-----------------------------|-------|
| Document Number:                       | Serial Number:              |       |
| Purchase Date:                         | Extended Warranty Purchase? | (Y/N) |
| If so, what date does warranty expire? |                             |       |

- To obtain warranty service, you will be required to provide (a) the original dated sales slip, (b) your name, (c) your address, (d) a description of the problem, and (e) the serial number of the product.
- Take or ship the product, in the original container packaging, to an authorized ViewSonic® service center.
- Round trip transportation costs for in-warranty products will be paid by ViewSonic<sup>®</sup>.

### **Limitation of implied warranties:**

There are no warranties, express or implied, which extend beyond the description contained herein including the implied warranty of merchantability and fitness for a particular purpose.

### **Exclusion of damages:**

ViewSonic®'s liability is limited to the cost of repair or replacement of the product. ViewSonic® shall not be liable for:

- Damage to other property caused by any defects in the product, damages based upon inconvenience, loss of use of the product, loss of time, loss of profits, loss of business opportunity, loss of goodwill, interference with business relationships, or other commercial loss, even if advised of the possibility of such damages.
- Any other damages, whether incidental, consequential or otherwise.
- Any claim against the customer by any other party.
- Repair or attempted repair by anyone not authorized by ViewSonic®.
