

## Plugable Solutions for the Connected Classroom

At Plugable, we understand that the student and teacher experience goes beyond simply providing hardware. Our team of Education Technology Experts is here to assist buyers in finding affordable solutions that have undergone thorough testing to ensure they are secure, effective, and simple to use, for both K-12 and higher education. As an American brand, we take great pride in the quality of our products and the support we offer. Our support team in Washington is always available to provide expert advice tailored to meet the unique needs of your educational institution.

Explore our top USB solutions for the Connected Classroom. Eligible customers may qualify for a GEM discount at select distribution partners.
