- Easy to install in thin-set mortar below tile and stone floors

- Easy to install in thin-set mortar below tile and stone floors
  Wire directly to thermostat and can be wired in parallel to fit larger areas
  Operates on 120VAC to produce 12 watts/sq. ft.
  Must be connected for a GFCI, unless a Sun Touch Floor Stat is used
  New improvements: A new dual wire construction eliminating all
  electromagnetic fields, fully armored and grounded power lead making it much
  stronger and easier to install because electrical conduit in the wall is not
  required and a heavier ground shield on the wire making it more job-site tough

	MADE IN THE USA

## **MOLDSTAT**<sup>TM</sup>

## Innovative Solutions for Mold Remediation & Decontamination

While mold, fungi, yeast and bacteria are crucial for many environmental functions, these microbes can create havoc and damage to building surfaces and potentially create fatal health problems. Simple signs of mold presence may include rotting lumber, moldy bathroom tiles, shower curtains and offensive odors with some health reactions like sore throats, aggravated allergies or respiratory problems. However, in certain cases, these microbes and biofilms (the food source, breeding ground & hiding place for mold & bacteria) can also climb to carcinogenic levels creating diseases ranging from cystic fibrosis to Legionnaire's disease.

### Moldstat™ 3-Step Mold Removal Process

**#1** Moldstat™ *Peroxy Kling* 

A Patent Pending Formula That Removes All Biofilm Accumulation From Mold Affected Surfaces

**#2** Moldstat™ *PLUS* 

EPA Registered Fungicide, Mildewstat & Disinfectant Which Effectively Eliminates A Broad Spectrum of Bacteria Including Mold & Mildew

#3 Moldstat™ Mold Resistant Coating & Encapsulator

Places A Clear, Protective, Fungicide Barrier To Prevent The Future Growth of Harmful Mold & Microbes

## PEROXY KLING

- Concentrated multi-surface cleaner/degreaser specifically formulated for the mold remediation, decontamination, housekeeping and facility maintenance industry • Highly fortified hydrogen peroxide formulation and color safe bleaching action, product oxidizes any soils, stains and bacteria while eliminating all associated odors • Fresh, pleasant fragrance • Peroxy Kling meets or exceeds Green Seal and DFE compliance standards
- Seal and DFE compliance standards
   Contains a unique clinging property which allows active ingredients to adhere to treated areas resulting in longer saturation periods and increased effectiveness

880344

QUART

## TRACTION MELT CI ICE AND SNOW MELTEI

Each granule is encapsulated by Liquid Magnesium Chloride.

Instant traction on sidewalks, driveways and steps. Ideal for icy situations on the road where additional traction is needed. Safe on concrete and vegetation when used correctly. Effective in cold temperatures, melts ice down to zero degree Fahrenheit. Corrosion inhibitor is added to reduce damage to metal surfaces. Easy to handle, no gloves or masks required. 50 lb. bag, 50 bags per pallet.

558669

# Calcium Chloride 94-97% Pellets The Pramium Shuan & Ibe Maller

## CALCIUM CHLORIDE

Effectively melts down to -25°F. Begins melting immediately upon impact - generates melting heat fast. Quickly penetrates through frozen surfaces to undercut the ice. Most

frozen surfaces to undercut the ice. Most efficient de-icer on the market - melts more so application rate is less. Long-lasting melting action - requires fewer applications than other de-icers. No powdery residue - odorless and colorless. Safe on concrete and vegetation when used correctly. 50 lb. bag. 50 bags per pallet.
