# Nexxiot Mounting App

Download the Nexxiot Mounting App on your smartphone

## Checklist of What You Need Before Starting:

- **Always Ensure the Latest Version:** Before proceeding, ensure you have the latest version of the Nexxiot Mounting App installed on your phone device.
- **Understanding “Mounting”:** In this context, “Mounting” refers to the process of digitally associating a Nexxiot device with an asset.
- **Detailed Information and Installation Guidelines:** For comprehensive information about the device and detailed installation instructions, please refer to the “Globehopper Crossmodal 3.0 User Manual.”
- **For Support and Inquiries:** If you need assistance or have any questions regarding device mounting, please contact us via email at [support@nexxiot.com](mailto:support@nexxiot.com).

# Nexxiot Mounting App

After downloading the Nexxiot Mounting App, log in using your Nexxiot credentials.

## Download the application

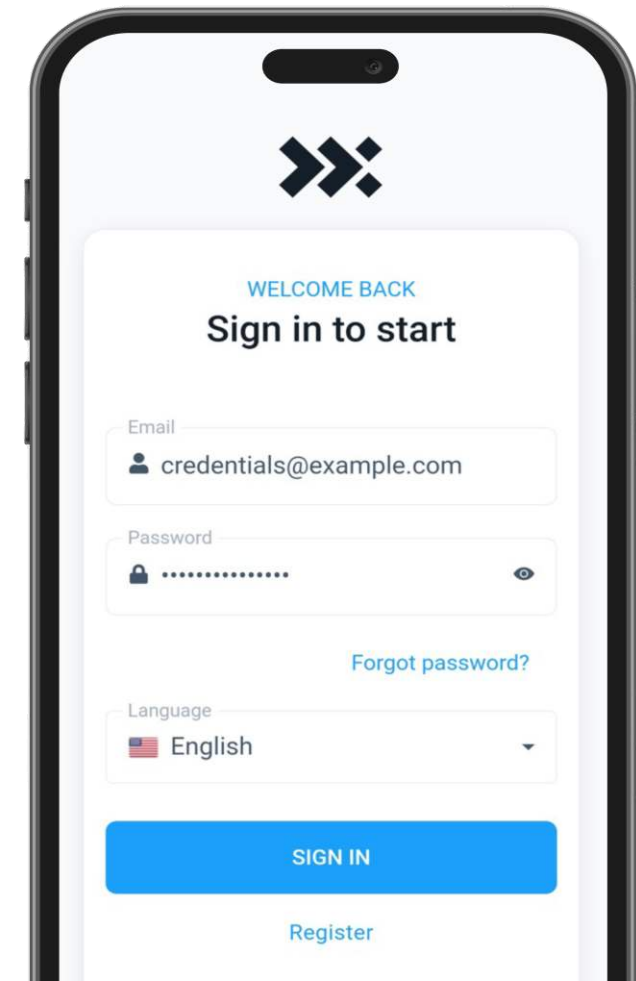

Download the application from the App Store (iOS) or Google Play Store (Android).

## Open the application

Tap on the application to open it and wait for the home screen to appear.

## Sign in

Enter your credentials and tap **“Sign In.”** If you are unsure about your credentials, please contact us.

# Nexxiot Mounting App

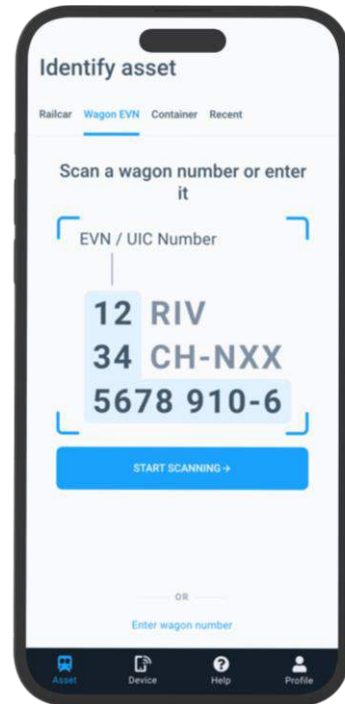

A Globehopper must first be physically **mounted** to its asset.

**Wagon EVN:** 11-digit number and 1 checksum.

**Tank container:** 4 letters and 7 numbers

**Railcar:** 3 letters and 5 numbers

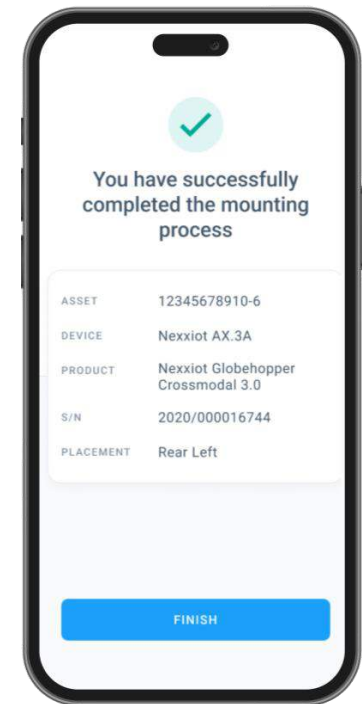

**Warning:** For more flexibility in naming, go to Connect and select the asset type **“Other”** to remove space and dash.

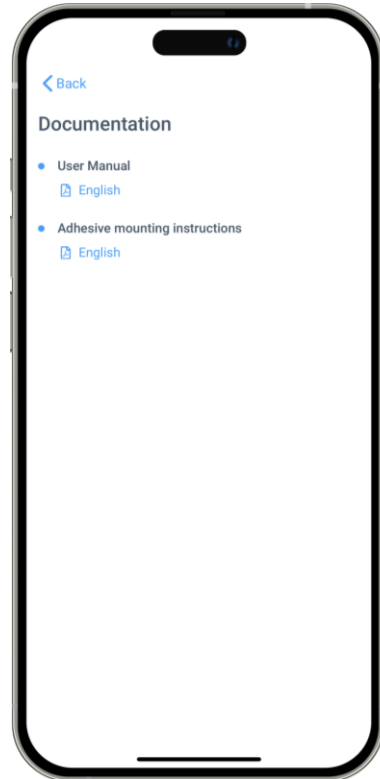

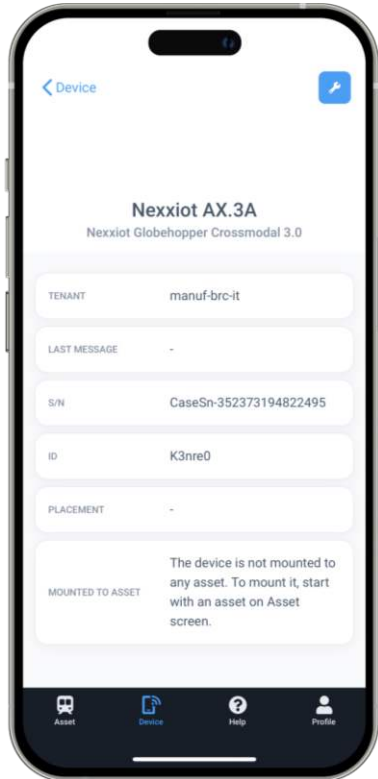

Afterward, the digital **mounting** can be started using the Mounting App

The **NFC** tag is located under the Nexxiot logo on the Globehopper.

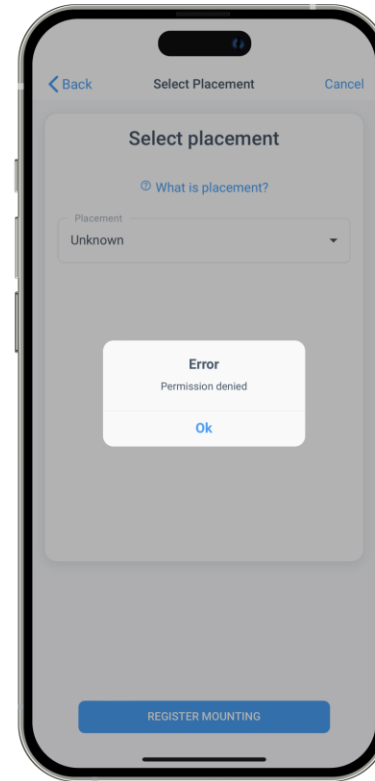

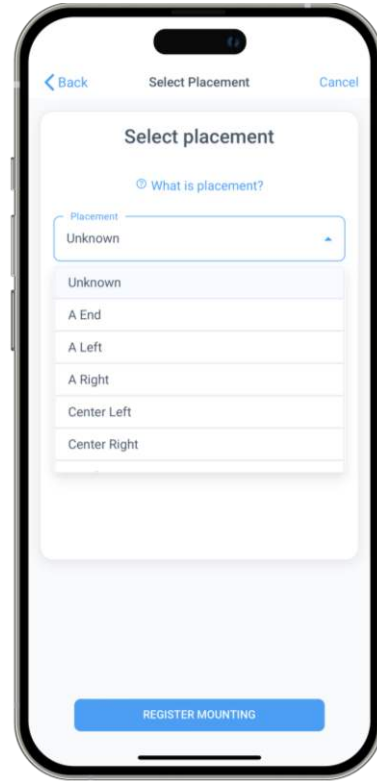

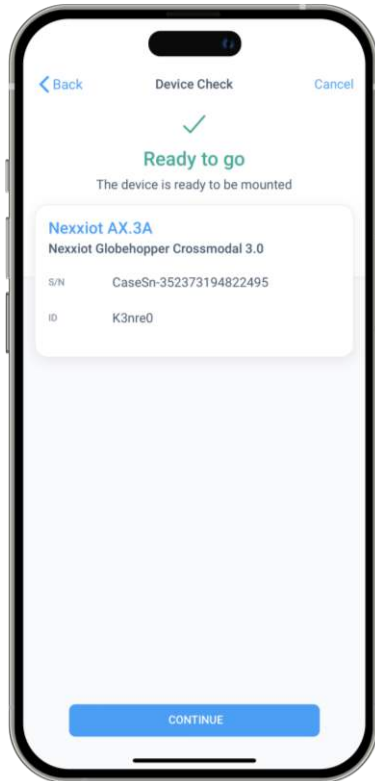

# Nexxiot How to Mount a Globehopper

- In the 'Device' tab, you can get a snapshot of a Globehopper by scanning its NFC chip.
- If you require instructions on how to mount a Globehopper to an asset, click on the wrench icon and refer to the user manual.
- Once you are ready, select the 'Asset' tab and add the asset ID.

# Nexxiot How to Mount a Globehopper

- When a Globehopper has been scanned, it can be mounted.

- Ideally, select the option that best matches the placement of the Globehopper.

- “Permission denied” means you do not have the necessary rights to register the device. Email the support team at [support@nexxiot.com](mailto:support@nexxiot.com), providing the email address used to log in and the device serial number.

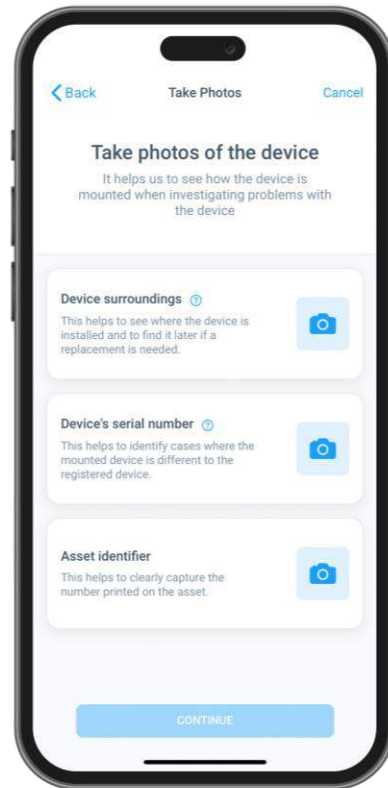

# Nexxiot How to Mount a Globehopper

As a Final Step, Take Photos of the Device Installed on Your Asset

## Photos

**Take a first photo of the device location.**

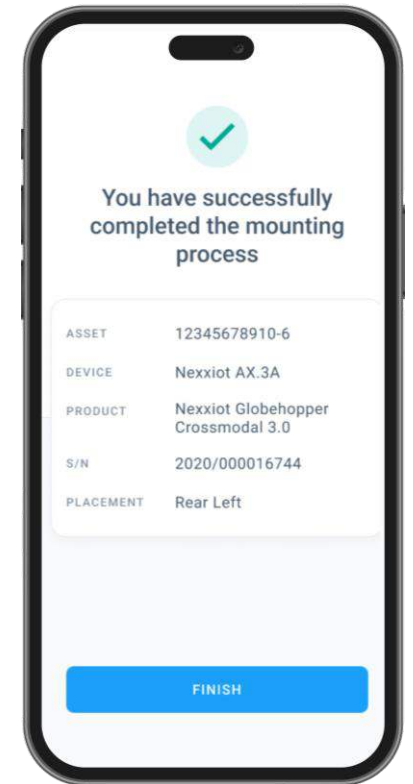

- Next, take a second photo showing the device's serial number.
- Finally, capture the identifier of your asset.
- Make sure the photos are clear. Once you are finished, click on "continue".

## Placement

**Select where the device has been placed.**

- Follow-up by clicking on "register mounting".
- Upon clicking, you should see a final screen that confirms the mounting of your device.
- You can then proceed to click on "finish".
