

CNC VACUUM PART GRABBER

**COMPLETE
KIT**

FROM \$1,049.00

Why CNC Vacuum Part Grabber?

- **Excellent** for very tiny or very large parts
- A large suction cup can load and unload very heavy or cumbersome components automatically
- **Reduce** setup operation
- **Increase** Automation Productivity

Vacuum Part Grabber Features

- **Aids** loading & unloading parts
- Creates up to **12 PSI** of vacuum
- **Complete Kit** comes with 4x sizes of suction cups

Our Patent-Pending **Vacuum Part Grabber** is the only solution on the market that turns your CNC Machine into an automated loading cell with little to no adjustment. The proprietary Venturi Generator creates up to 12 PSI of vacuum, and is turned on by simply turning on your machine's Through Spindle Air Blast.

Complete Kit Includes:

- 1x CNC Vacuum Part Grabber
- 4x Sizes of Suction Cups
- 1x Hard Pelican Case
- 1x 3/4" MariTool Holder (OPTIONAL)
